CORE CAPABILITIES

Our rising together as a self-correcting system is enabled by **four core capabilities:** the ability to achieve CONNECTEDNESS with all stakeholders, the ability to create powerful CAREER- & COLLEGE-CONNECTED LEARNING for students, the ability to sustain UNIVERSITY within our system, and the ability to utilize CLARITY, COHERENCE & CONFIDENCE for process effectiveness.

CONNECTEDNESS
with all stakeholders

CAREER- & COLLEGE - CONNECTED
learning for students

CLARITY, COHERENCE & CONFIDENCE

UNIVERSITY
within our system

These capabilities enable us to achieve our vision. Each capability is interdependent, nonsequential, and involves integrating people, systems, and structures to achieve common interests – undergirded by a deep understanding of mutuality that exists between goals, roles, and processes among our stakeholders. We have fostered these capabilities over time, and we continue to enhance them. They enable us to effectively deliver on the promise of a transforming education that empowers students to reach their full potential – setting the framework for our strategic directions, objectives, outputs and goals.
