

# MINNEOLA

## DID YOU KNOW?

- The Minneola is a cross between a tangerine and a grapefruit.
- Minneolas are slightly bell shaped with a protruding nose at the stem-end. The skin is bright red to orange and easy-to-peel.
- Minneolas are sweet with a mild tartness. They have relatively few, if any seeds!
- This citrus fruit is an excellent source of vitamin C!

## FUN FACT!

Minneolas are named after the small town of Minneola, Florida.
