NOTICE OF STUDENT DIRECTORY INFORMATION

Note: Under the Family Education Rights and Privacy Act ("FERPA"), school district may only disclose directory information without consent if they have given the parent or eligible students notice of the kinds of information the district designates as directory and an opportunity to opt out of directory information disclosures.

Wrangell Public Schools has adopted a policy designed to provide parents and students the full protection of their rights under the Family Educational Rights and Privacy Act, also known as FERPA. A copy of the district's policy is available for review online and in the office of all our schools.

FERPA, with certain exceptions, requires your written consent prior to disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated 'directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the District to include this type of information from your child's education records in certain school publications. Examples include:

- The annual yearbook
- Honor roll or other recognition lists
- Graduation programs
- Sport/activity programs (ie. such as for wrestling, showing weight and height of team members

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or public yearbooks. In addition, federal law requires local school districts receiving federal funding to provide military recruiters, upon request, three directory information categories – name, addresses, and telephone listings = unless parents have advised the school district that they do not want their student's information disclosed without their prior written consent.

The District may also disclose to the State of Alaska or the University of Alaska your student's eligibility for scholarship programs.

You have the right to refuse the designation of any or all the categories of personally identifiable information as directory information with respect to your student provided you notify the school district in writing. If you have no objection to the use of student information, you do not need to take any action.
