BP-5141.3

HEALTH EXAMINATIONS

The School Board recognizes the importance of and encourages periodic comprehensive physical health examinations, especially upon entry into school at the beginning of the school year. In order to identify barriers to learning and determine whether treatment or special adaptions of the school program may be necessary, the School Board shall require vision and hearing screening examinations upon entry into school or as soon as practical and at regular intervals as necessary.

The district will annually notify parents of physical exams or screenings of students, except for routine vision, hearing or scoliosis screenings.

Students who wish to participate in certain extracurricular activities may be required to submit to a physical examination to verify their ability to participate in the activity.
