Dear Parents of Cheektowaga-Sloan UFSD,

As previously mentioned, John F. Kennedy Middle School has been identified as an Additional Targeted Support and Improvement (ATSI) school. Part of this process requires implementing a district and school-level improvement plan.

The New York State Education Department (NYSED) requests that a voluntary School Climate Survey be given to teachers (district-wide), parents (district-wide), and students (grades 3-12). These surveys ask simple questions about how the target audience feels about school across six categories: Systems, Leadership, Curriculum, Instruction, Social-Emotional Learning (SEL), and Family/Community Engagement.

For the student surveys, teachers in grades 3-12 will post a link to the surveys in their Google Classrooms for students to complete, if they choose. The surveys should take approximately 5-10 minutes to complete.

We would appreciate it if you can please take a few minutes to complete this voluntary parent survey. We value and appreciate your input and feedback.

The survey window begins on **Wednesday, February 4th, 2026, and will end on Thursday, February 12th, 2026.**

[Click here for a link to the survey.](#)

NOTE: If you have a child in more than one building, please complete a separate survey for each building your child(ren) attends.

Thank you.

Sincerely,
Mrs. Janelle Finn
Assistant Superintendent
