

Dear Families, Friends, and Alumni,

Over the past ninety-one years, the world around us has changed in remarkable ways. Yet one thing at The Country School has remained steadfast: our belief that education should be inspiring, meaningful, and grounded in academic excellence.

Generations of students and families have treasured the influence this special school has had on their lives, often describing it as their most impactful educational experience. A group of Cougars is called a pride, and within our pride, every child is known, supported, and appreciated. Beyond preparing students for high school, TCS encourages them “to do their best always.” As our students’ needs evolve and the future demands new skills and perspectives, we must come together as a community—*Together for TCS!*

Our strategic plan, *Together for TCS*, outlines a vision for growth and purposeful advancement—an opportunity to strengthen our mission and expand our potential. To achieve this, we are dedicating ourselves to three core priorities:

★ **Faculty Excellence**

We seek to cultivate the top PK-8 faculty and administrative team in the mid-Atlantic region.

★ **Academic Excellence**

We seek to deliver a compelling and challenging fundamentals-focused PK-8 academic program.

★ **Community Excellence**

We seek to develop a school culture rooted in joy and belonging that promotes purposeful learning, global citizenship, and the core values of The Country School.

Thanks for all you do for TCS, and...

Go, Cougars!

Head of School

President, Board of Trustees
