

Woodstock Middle School 2025 - 2026 Family Engagement Plan

Woodstock Middle will encourage a strong home-school partnership to ensure a safe, caring and challenging environment where all students, parents, and school staff work well together. Both parents and teachers will assume the role of active partners in the educational process at Woodstock.

To achieve these goals, the Woodstock staff will do the following:

1. Parent meetings will be conducted at flexible times to explain the Woodstock Title I School-wide plan. The Parent Policy, School Compact, and parent involvement opportunities for the current year will be clearly communicated.
2. The school will include parents as members of the Title I School-wide Planning Committee and elicit parental input into the planning and implementation.
3. Agenda books, teacher web pages, digital electronic communication tools, postal service, school newsletters and/or newspapers will be used to communicate items of general interest, parenting tips, and announcements of upcoming school and district parent meetings.
4. Parent-teacher conferences will be held at flexible times to discuss and interpret individual student progress and address any aspects of parental concerns.
5. An annual review of the school-wide programs and parental involvement documents will be conducted towards the end of the year. Parents will be given an opportunity to offer suggestions and present feedback on the Title I program.
6. The school will stress the value of parental participation in school activities such as Open House, Career Day, and other school-wide activities.
7. The school will provide opportunities for parental input by posting a suggestion box in the school office and by completing surveys periodically. Parents are encouraged to bring suggestions and concerns to their child's teachers or the administration for discussion.

8. The Administration, Title I Facilitator, Guidance Counselors, and Social Worker will review and provide support to the overall parent program at Woodstock.
9. Parenting materials and resources will be available to parents in the Parent Resource Room.
10. Woodstock staff and parents will work together to provide a meaningful way to improve our students' education.
