# Scale Averages by Student Group

This section provides the average percent of students responding "Mostly Yes" or "Yes/Always" to the questions in each scale (group of questions) on the Student Stakeholder Survey. This percentage is called the "percent positive." 2024 was a new baseline year for this revised survey. Scale results are underlined in **green** if they are in the top 25% district-wide, and are underlined in **orange** if they are in the bottom 25% district-wide. Due to rounding, some values that appear to match color coding criteria may not be underlined.
