QUESTION:

Why might I have students using PBT on NYS 3-8 exams?

ANSWER:

Accommodated test editions. You may have students whose IEP, 504 Plan, or language needs* require they be tested on paper.

- Accommodations are pre-determined by the Special Education and/or ENL Departments, and paper-based tests should have been ordered through the state's Online Exam Request System in the fall.

*If a student with accommodations must respond to the constructed-response items on paper, **they must take the full test on paper (all parts/sessions).***

* Alternate Language Reminders:

- Students may only respond in an alternate language for Math and Science on a paper-based test. Only English may be used when responding on CBT.
- Our scoring vendor, OSC World, can translate and score PBT Spanish-language responses; Districts and schools will need to arrange for English translations and transcriptions of all other languages.
- ELLs requiring an oral translation for a lower-incidence language [must test on paper](#).
- **If you'll need translation services**, you may visit the [L.I. RBERN website](#) for options or contact **ESBOCES Translation Services** under [Tim Murphy](#) at:

[**districtservices@esboces.org**](mailto:districtservices@esboces.org)

If registering for CBT scoring, you must also **register for at least 2% PBT**. This serves as a placeholder—*districts will only be billed for actual tests scored.*

"All districts are required to anticipate and register for potential PBT test counts that may be necessary due to accommodations and special circumstances. Districts will only be billed for actual tests scored."

If your district is administering CBT in a given grade level and subject, ***you must include some PBT in your scoring registration for that same grade and subject—even if you do not anticipate any PBT needs at this time.*** These PBT counts serve as placeholders on your contract for students who may require paper testing due to changes in accommodations or other special circumstances.

We recommend registering for **at least 2% PBT** as a safeguard.
