Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Undergraduate Program Graduation Rate	Graduation rate is calculated as the number of first-time, full-time business students who began in the Fall 2018 semester who graduated within 6 years in any program. *(Cohort defined by Federal IPEDS standards.)* Programs with an annual entering cohort of less than 5 students shows 'insufficient data'.
Graduate Program Graduation Rate	Similar to the undergraduate graduation rate calculation, this indictor is based on tracking an annual (fall, spring, summer) entering cohort of students, including full-time and part-time. This year's data is based on the 2021-22 academic year entering cohort.
