

Dupree School District	NEPN Code: DEC
Policy Manual	

Methodology for Distribution of Funds

The Dupree School District will make every effort possible to equitably distribute state and local dollars between school buildings and grades based on staffing and supply needs.

Budgetary guidelines include, but are not limited to

- Number of students/building size
- Teachers
- Classified staff
- Administrators
- Specialized programs (e.g. Special Education)

Federal funding, such as Title funds and IDEA, will be considered supplemental to basic operational and educational needs and will be distributed according to Federal Guidelines. All Federal expenditures will be reviewed and approved by the Superintendent and Business Manager at the local level prior to approval by the state and federal Departments of Education.
