Learn how to use Adobe Photoshop and Adobe Illustrator

Practice the basics of color theory and the elements of art & design

Graphic Design & Production

Learn what makes something a *good* design

Working on more complex and exciting design projects

Advanced Graphic Design

Learn how to push your creative thinking even further

Work on a semester-long capstone project based on your own interests and goals

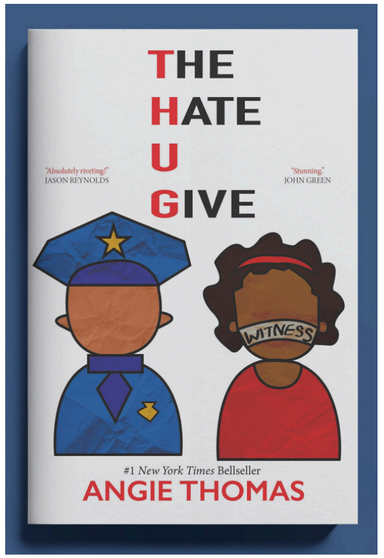

with Ms. Gaver!

Intro to Graphic Design is an ART CLASS

DESIGN

Draw and create original artwork.... digitally!

Use drawing, digital illustration, and visual storytelling to develop your own artistic style.

ILLUSTRATION

Draw and create original artwork.... digitally!

Use drawing, digital illustration, and visual storytelling to develop your own artistic style.

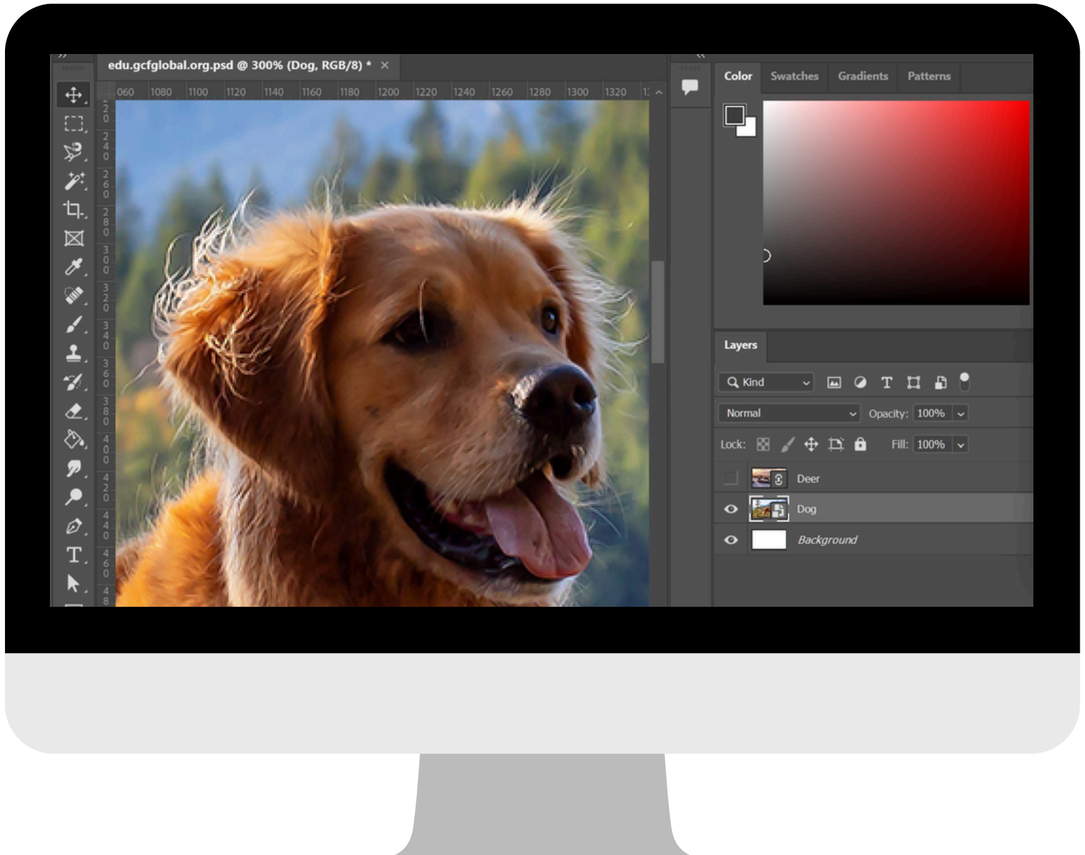

Intro to Graphic Design is a TECHNOLOGY CLASS

SOFTWARE

Learn the same design software professional designers use!

Use Adobe Illustrator & Photoshop to create digital artwork, illustrations, photo manipulations, and more.

DIGITAL TOOLS

Learn how we use computers and other digital tools to create artwork for different uses.

Design digitally, manage files, and learn how artists use technology to bring ideas to life.

Graphic Design is CREATIVE THINKING

You'll learn how to:

- Tell stories visually
- Communicate mood and meaning
- Turn abstract ideas into images and artwork
- Design with intention
- Use the DESIGN THINKING process to solve complex problems

IDEA

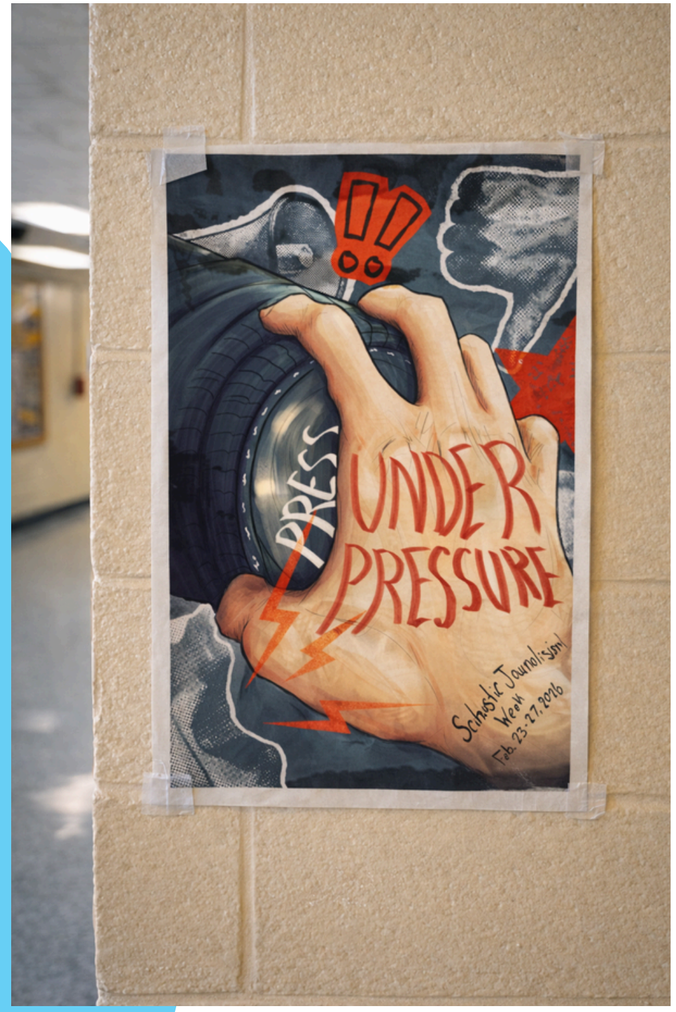

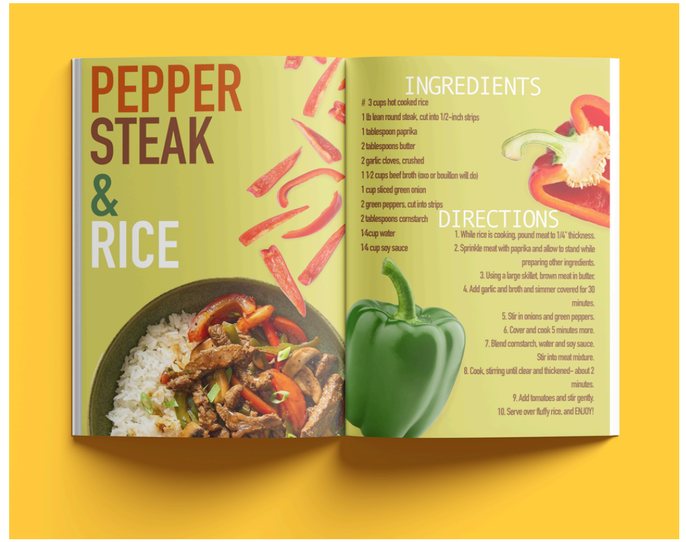

PRODUCT

Sometimes your design becomes... REAL

- Turn digital designs into physical pieces
- Print, cut, and display your artwork
- See your work exist in the real world
