2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2025-26 School Description and Mission Statement

Montague serves grades preschool through 5th. It opened in 1962 with twelve self-contained classrooms and no cafeteria. In 1968, the campus almost doubled in size with the addition of eleven classrooms. A cafeteria, complete with a stage and kitchen, was built in 1968. Four additional portable buildings were added in 1997 to accommodate the 20:1 ratio in 3rd grade, and then another three were added in 2003 to accommodate growth in the area. This brings the total to thirty self-contained classrooms. The entire school site, including underground electrical and plumbing, was modernized in 2004. Our staff includes full-time teachers in grades preschool, transitional kindergarten, kindergarten through 5th grade, teachers in the Specialized Academic Instruction (SAI) / Special Education program, a School Support Teacher on Special Assignment, literacy intervention teachers, speech and language pathologist(s), academic resource teacher(s), library and media specialist, school

psychologist, PE teacher(s), paraprofessionals including in the SAI program, English Language Support and Assessment Technician (ELSAT), part-time Wellness Coordinator, part-time counseling associates, secretary, attendance clerk, custodian team members, part-time school nurse, and part-time health assistant, YMCA after school program, and district SPED support staff.

At Montague Elementary School, our dedicated staff is deeply committed to employing a collaborative approach in our planning processes. Our primary focus remains on enhancing the reading and mathematics programs offered at every grade level, with a continued dedication to ensuring the success of our English Language Learners. Our staff regularly convenes in various groups, including our Site Learning Team (SLT), curricular teams, grade-level teams, and cross-grade-level groups, to assess student performance and analyze data, which serves as the foundation for our strategic planning. Through this ongoing collaborative effort, we've developed and tested numerous teaching and assessment strategies. Our staff is resolute in sharing their expertise and embracing new ideas and strategies collectively. We've set aside dedicated time for peer observation and collaboration to foster a culture of continuous improvement. Our team is committed to the well-being and academic progress of students who may be deemed "at risk." We provide ongoing collaborative interventions throughout the school, with a focus on implementing Multi-Tiered Systems of Support (MTSS) and utilizing Positive Behavior Intervention Systems (PBIS) to address behavior, and Professional Learning Communities (PLC) to work toward our academic goals. We are also dedicated to improving attendance and punctuality, promoting homework responsibility, and nurturing the social and emotional well-being of our students by partnering with our school community using a Community School model plan developed in 2025.

Montague's Current Mission Statement:

At Montague, through a lens of equity, we educate the whole child in an inclusive, nurturing environment that fosters confidence and independence.

Priority Objectives:

We will collaborate to ensure students receive intentional, research-based instruction and relevant learning opportunities that promote critical thinking skills and inquiry.

We will expand engagement with our local stakeholders to ensure high levels of success for all through an inclusive and supportive culture.

We will collaborate to create and implement research-based multi-tiered systems of support to ensure academic achievement, social-emotional growth, and behavior expectations for all students.

We will use observational, formative, and summative assessment data to inform equitable educational practices and ensure all students demonstrate understanding of their social, behavioral, and academic goals.

School Facility Conditions and Planned Improvements

General

Santa Clara Unified School District (SCUSD) takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, SCUSD uses a facility survey instrument developed by the State of California OPSC. The results of this survey are available by request made to the SCUSD's Facilities department at (408) 423-2061.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Maintenance and Repair

SCUSD maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The governing board has adopted cleaning standards for all schools in SCUSD, Board Policy 3514. The policy can be found online at www.santaclarausd.org/BoardPolicies. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance

SCUSD participates in the State School Deferred Maintenance Program to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Modernization Projects

SCUSD strives to be a model of financial responsibility, making every effort to spend taxpayer dollars wisely. At the same time, ongoing bond programs are necessary in a district this large, with so many students, teachers, and facilities needs. Bond funds allow the District to maintain safe, modern school facilities and bring in updated technology essential to student achievement. Measure B 1997 improvements included new elementary school play structures, new high school science classrooms and outdoor athletic facilities, the major renovation of eleven elementary schools, an ambitious roof replacement program, and two high school performing arts buildings. Measure J 2004 generated funds to modernize buildings and classrooms for middle schools, high schools, and the adult education campus. Measure H 2010 upgraded fire, safety and security systems, renovated and reopened a closed elementary school, installed solar panels to decrease energy costs, purchased the Agnews campus property, and expanded overcrowded schools. Measure H 2014 funds the construction of new elementary and middle schools on the Agnews campus, expands overcrowded schools, and addresses critical facility needs such as replacing roofs and adding air conditioning to elementary school classrooms. Measure BB 2018 funds the construction of a new high school on the Agnews campus, a new elementary school for Laurelwood on the Patrick Henry campus, new multipurpose buildings and early childhood classroom buildings, reconstructs fields, replaces aging play structures and playground paving, adds shade structures, and upgrades fencing and gates, among many other crucial projects. B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Parents are the child's first teachers. We know that a child who is well supported by his/her caretakers and the school will be the most successful as a learner. We will employ as many strategies as we can to develop partnerships with parents and other community members or agencies. Parents are invited to join the school PTA, School Site Council, ELAC, and DLAC. Parents are encouraged to become Montague Volunteers and help in the children's classrooms and with school activities. Other school-wide events that are well attended by families include Back to School Night, Open House, Trunk or Treat, Music Performances, Spring Festival, Morning Meeting Whole School Assemblies, Coffee with the Principal, and Master Planning events, Holiday events: such as our Halloween Parade and Holiday season activities, Movie Nights, and multiple fundraisers, including our annual Fun Run. PTA sponsors a number of other activities each year, which can be found on our website at montague.santaclaraschools.org.

Anyone interested in becoming more involved is encouraged to contact the PTA at ptamontague22@gmail.com or call our school office at (408) 423-1900.

2025-26 School Safety Plan

All California public schools kindergarten and grades one through twelve must develop a comprehensive school safety plan, per California Education Code sections 32280-32289. School safety plans assess school climate and safety, identifying goals and actions to improve safety and climate. The safety plan is written and developed with collaboration from students, parents, community, and law enforcement. It is reviewed and updated annually with the School Site Council (SSC).

We are committed to providing a safe, responsible and respectful school environment for all students, staff, and community. We support and promote building a sense of community and belonging where every child feels included and valued, teaching children positive social skills and attitudes including resolving conflicts without violence, and preparing for and responding appropriately to emergencies and disasters to keep children safe.

The school safety plan is available for review in the school office and was approved by the School Site Council in 2025.

Fiscal Year 2024-25 Types of Services Funded

Montague Elementary School utilizes funds to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education, and reach minimum proficiency on the state content standards and assessments.

Federal and State Targeted Funds are used to help educationally disadvantaged students, English Learners, Migrant students, and Foster Youth succeed in the regular education program. These funds support specialized staff (including EL and site intervention TOSAs), additional intervention services, and professional development for teachers to ensure English Learners develop strong language skills and succeed academically. Resources also provide materials for English Learners, students with disabilities, and before/after school programs like SOAR to offer extra support to help all students reach their full potential. Funds vary from year to year and are prioritized based on student needs and program effectiveness. Programs are evaluated by the School Site Council annually.

Professional Development

Staff development activities and expenditures are tied to district and school goals including the SPSA, WASC, LCAP, and District Strategic Plan. Staff development time continues to support teachers in self-reflection, analysis of student achievement data, and collaboration activities designed to help reach achievement goals. We believe in modeling lifelong learning for our students by engaging in collaborative sessions and professional development opportunities that align with the school's Single Plan for Student Achievement (SPSA) goals and support student achievement in content standards and Expected Schoolwide Learning Results (ESLRs). District and school staff development programs support meeting the academic, social, and emotional needs of all students by providing opportunities for teachers to advance their skills, develop teaching strategies, and create curriculum. During staff in-service days, teachers share information about instructional practices, cognitive development and learning disabilities, and best practices for English Language Learners. These presentations and workshops help us understand who our students are so we can better support them with individual counseling, curriculum design, and instructional practices.

In addition to the number of school days dedicated to districtwide professional development, there is professional development happening on the school campus through professional learning communities, where teachers meet to discuss best practices while assessing student work.

This table displays the number of school days dedicated to staff development and continuous improvement.
