2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2025-26 School Description and Mission Statement

John Sutter Elementary School is located on the southern border of Santa Clara Unified School District (SCUSD). Our school sits on a 10.7-acre site originally owned by the Woodhams family in 1850 and was built in 1959. Most of our students come from the surrounding neighborhoods, where single-family homes make up about three-fourths of the community. The classrooms, office, and multipurpose room were modernized in 2003.

Sutter is a diverse and welcoming school that serves students from many cultural and linguistic backgrounds. We are also the district's designated center for the Visually Impaired Program. Students receive weekly instruction in both the computer lab and science lab. In recent years, there has been an increase in student mobility. Sutter is one of 18 elementary schools in SCUSD.

2025-26 School Description and Mission Statement

We are fortunate to have a strong and active PTA that supports the school by funding field trips and assemblies, hosting book fairs and family events, and contributing countless volunteer hours. We believe that volunteers play an essential role in enriching every child's educational experience.

Programs and Student Support:

Sutter offers a wide range of programs that promote student learning, wellness, and positive school culture, including:

Wellness Program

PBIS (Positive Behavior Intervention and Support)

Leap and Leap Out

Counseling services supporting the mental health of students and staff

Speech and language therapy, resource support, special day classes, and services for visually impaired students

After-school Homework Club (offered by volunteers when available)

MTSS Team (Multi-Tiered System of Supports)

K-2 reading intervention program

Instructional coaching

Mission and Beliefs:

Our mission is to provide a high-quality educational program with clear academic and behavioral expectations for all students. We strive to maintain a safe, caring, and welcoming environment where collaboration and parent involvement are valued.

The Sutter staff believes:

All children should have opportunities to learn.

All students deserve respect and equal access to education.

Students should develop lifelong learning skills for future success.

A strong partnership between school, parents, and the community is essential.

Students should be responsible for their actions and behavior.

Positive Behavior and School Culture:

Sutter fosters independent, socially conscious, lifelong learners. Through PBIS, we teach and reinforce essential life skills such as effort, caring, perseverance, teamwork, problem-solving, confidence, and responsibility.

All classrooms follow the 4 B's:

Be Respectful, Be Responsible, Be Safe, and Be Kind.

The PBIS Leadership Team — made up of teachers, administrators, and community members — creates a schoolwide behavior matrix that is posted across campus. The team teaches expectations to all students and reviews behavior data monthly to guide supports and interventions.

These lessons help students apply lifelong learning skills during classroom activities, buddy programs, and everyday interactions.

Instruction and Professional Collaboration:

Instruction at Sutter is aligned with grade-level content standards and informed by student data to ensure all learners make meaningful progress. Teachers regularly analyze assessment results and other student performance data to drive instructional decisions, evaluate the effectiveness of teaching strategies, and refine curriculum implementation.

Staff engage in ongoing professional development, grade-level planning, and collaboration with specialists to continuously improve instructional practices. The district provides an instructional coach who supports teachers in both instructional strategies and effective use of curriculum. All teachers are CLAD certified, enabling them to meet the needs of English learners effectively.

Instruction is differentiated to address the diverse backgrounds, learning styles, abilities, and readiness levels of students. Multiple intelligences and a variety of instructional approaches are integrated into daily lessons, ensuring that each student has meaningful opportunities to learn and succeed.

Communication and Community Collaboration:

Staff collaboration occurs through leadership meetings, Site Leadership Team, School Site Council, PTA, Wellness Team

2025-26 School Description and Mission Statement

meetings, and weekly grade-level collaboration time. Teachers communicate regularly with families and hold parent conferences in the fall for all students and again in the spring for students needing additional support. Conferences are also scheduled as needed throughout the year.

The school community stays informed through ParentSquare, monthly PTA newsletters, staff meetings, memos, school calendars, the online Student/Parent Handbook, and weekly classroom newsletters.

School Facility Conditions and Planned Improvements

General

Santa Clara Unified School District (SCUSD) takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, SCUSD uses a facility survey instrument developed by the State of California OPSC. The results of this survey are available by request made to the SCUSD's Facilities department at (408) 423-2061.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Maintenance and Repair

SCUSD maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The governing board has adopted cleaning standards for all schools in SCUSD, Board Policy 3514. The policy can be found online at www.santaclarausd.org/BoardPolicies. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance

SCUSD participates in the State School Deferred Maintenance Program to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Modernization Projects

SCUSD strives to be a model of financial responsibility, making every effort to spend taxpayer dollars wisely. At the same time, ongoing bond programs are necessary in a district this large, with so many students, teachers, and facilities needs. Bond funds allow the District to maintain safe, modern school facilities and bring in updated technology essential to student achievement. Measure B 1997 improvements included new elementary school play structures, new high school science classrooms and outdoor athletic facilities, the major renovation of eleven elementary schools, an ambitious roof replacement program, and two high school performing arts buildings. Measure J 2004 generated funds to modernize buildings and classrooms for middle schools, high schools, and the adult education campus. Measure H 2010 upgraded fire, safety and security systems, renovated and reopened a closed elementary school, installed solar panels to decrease energy costs, purchased the Agnews campus property, and expanded overcrowded schools. Measure H 2014 funds the construction of new elementary and middle schools on the Agnews campus, expands overcrowded schools, and addresses critical facility needs such as replacing roofs and adding air conditioning to elementary school classrooms. Measure BB 2018 funds the construction of a new high school on the Agnews campus, a new elementary school for Laurelwood on the Patrick Henry campus, new multipurpose buildings and early childhood classroom buildings, reconstructs fields, replaces aging play structures and playground paving, adds shade structures, and upgrades fencing and gates, among many other crucial projects. B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Sutter Elementary School proudly fosters a strong culture of parent engagement. Families are offered numerous opportunities to participate and contribute to our school community in meaningful ways. Our dedicated PTA and School Site Council — comprised of parents, teachers, staff, and administrators — play an essential role in supporting school programs and strengthening the partnership between home and school.

The PTA organizes a variety of family-centered events throughout the year, and parents are always welcome to volunteer in classrooms in coordination with teachers. Parent volunteers are instrumental in planning and supporting major school events such as the Walk-A-Thon, Sutterfest, Frog Jump, Book Fairs, Art Explosion, and Red Ribbon Week. They also serve as chaperones on field trips and assist with many activities that enrich our students' educational experience.

We believe that engaged families help create a vibrant, connected, and successful school environment. A strong parent volunteer community enhances learning, builds relationships, and makes a lasting impact on every child's school journey. If you are interested in becoming more involved, please contact our school office at (408) 423-4200. We welcome and appreciate your partnership.

2025-26 School Safety Plan

All California public schools kindergarten and grades one through twelve must develop a comprehensive school safety plan, per California Education Code sections 32280-32289. School safety plans assess school climate and safety, identifying goals and actions to improve safety and climate. The safety plan is written and developed with collaboration from students, parents, community, and law enforcement. It is reviewed and updated annually with the School Site Council (SSC).

We are committed to providing a safe, responsible and respectful school environment for all students, staff, and community. We support and promote building a sense of community and belonging where every child feels included and valued, teaching children positive social skills and attitudes including resolving conflicts without violence, and preparing for and responding appropriately to emergencies and disasters to keep children safe.

The school safety plan is available for review in the school office and was approved by the School Site Council in 2025.

Fiscal Year 2024-25 Types of Services Funded

Sutter Elementary strategically utilizes its funding to provide a comprehensive system of academic, behavioral, and wellness support through a multi-tiered approach. School funds play a vital role in sustaining essential personnel and supplying the resources needed to maintain high-quality instruction and student services.

District funding supports the overall operation of the school by covering salaries for key staff, including administrators, classroom teachers, and office personnel. Additional district-funded programs—such as PE instructors and upper-grade instructional aides—promote physical development, while the music program enriches the arts experience for students in grades 3–5. Sutter further invests in student well-being by providing access to counseling services through Marriage and Family Therapy (MFT) interns and a wellness coordinator. Project Cornerstone materials and staffing also help foster a supportive, inclusive school climate and strengthen social-emotional learning across all grade levels.

In English Language Arts (ELA), students in grades K–5 receive targeted intervention to ensure those not meeting grade-level

Fiscal Year 2024-25 Types of Services Funded

expectations receive additional support. School funds are used to provide instructional materials, technology tools, and specialized literacy resources that directly address academic needs and elevate student achievement.

Because Sutter does not receive district funding for reading intervention, the school has developed and funded its own early literacy support program for grades K–2. Targeted funds are used to employ a dedicated reading intervention teacher who provides one-on-one and small-group instruction for students performing below grade level in ELA. This individualized approach allows students to build foundational literacy skills in a supportive and structured setting.

Professional Development

Staff development activities and expenditures are tied to district and school goals including the SPSA, WASC, LCAP, and District Strategic Plan. Staff development time continues to support teachers in self-reflection, analysis of student achievement data, and collaboration activities designed to help reach achievement goals. We believe in modeling lifelong learning for our students by engaging in collaborative sessions and professional development opportunities that align with the school's Single Plan for Student Achievement (SPSA) goals and support student achievement in content standards and Expected Schoolwide Learning Results (ESLRs). District and school staff development programs support meeting the academic, social, and emotional needs of all students by providing opportunities for teachers to advance their skills, develop teaching strategies, and create curriculum. During staff in-service days, teachers share information about instructional practices, cognitive development and learning disabilities, and best practices for English Language Learners. These presentations and workshops help us understand who our students are so we can better support them with individual counseling, curriculum design, and instructional practices.

In addition to the number of school days dedicated to districtwide professional development, there is professional development happening on the school campus through professional learning communities, where teachers meet to discuss best practices while assessing student work.

This table displays the number of school days dedicated to staff development and continuous improvement.
