

Cypress-Fairbanks Independent School District

Warner Elementary School

2025-2026

Mission Statement

Warner Elementary will provide learning opportunities for all students so that, as graduates, they will possess the qualities that will enable them to live meaningfully and successfully in society and in the workplace. The Cypress-Fairbanks ISD graduate will exhibit the following attributes:

Effective Communicator; Competent Problem-Solver; Self-directed Learner; Responsible Citizen, and a Quality Producer.

Vision

Our mission at Warner Elementary is to instill within our students high standards for academic achievement, integrity, leadership, and to be a responsible citizen.

Goals

District Goal 1: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.

District Performance Objective 1.1: The percentage of eligible students scoring at the Approaches, Meets, and Masters Level on the District Progress Monitoring (DPMs) assessments will increase by 2% at the Approaches Level and 3% at the Meets and Masters Levels each year.

2025-2026 Elementary Content Area Standard Expectations

Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a literacy schedule containing all required daily components.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Foundational TEKS should be taught daily through explicit and systematic instruction.
- Utilize reading and writing strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and the reading and writing block.
- 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Communicate and share conclusions using digital tools
 - Incorporate the use of digital tools such as:
 - Google Suite
 - Scholastic Literacy Pro
 - Scholastic Storyworks (2nd-5th)
 - Boost Reading
 - Amira Suite
 - HMH Suite
 - Achieve 3000
 - Schoology
 - Incorporate the use of technology inside the Language Arts classroom after explicit and systematic instruction of literacy processes has occurred, and when it is the most developmentally appropriate tool for the task being asked of the student

Mathematics

- Maximize instructional time by developing, posting, and consistently following a math schedule containing all required daily components.
- Model and expect students to use a problem-solving process by utilizing strategies included in Teacher Notes.
- Post and use classroom-created anchor charts in math classrooms.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Maintain a monitoring notebook as documentation of individual student's progress.
- Use Bloom in Math student booklets in Kindergarten-5th grade and Interactive Math Notebooks in 2nd-5th grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including "what do you notice/wonder" and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in digital creation and collaboration
 - Incorporate the use of digital tools such as ST Math, Performance Matters, Schoology, Google Suite, etc.
 - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
 - Communicate and share products using digital tools
 - Use district-approved technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2nd-3rd = 60% of the time, 4th-5th = 50% of the time).
- Use an Interactive Science Notebook in 1st-5th grades to record observations and demonstrate understanding of scientific concepts.
- Utilize the Science Study Guide (2nd-5th grades) to interpret diagrams and research/locate/generate information.
- Utilize the daily learning intention referenced in District Lessons at the start of each science block.
- Facilitate and maintain a student-created Interactive Word Wall in 2nd-5th grades.
- Maintain a monitoring notebook as documentation of individual student's progress.
- Model the thought process utilized when analyzing scientific questions in 2nd-5th grades.
- Analyze data from observations and experiences to derive meaning, along with recurring themes and concepts.
- Engage in a common inquiry experience to make sense of and develop scientific concepts and academic language.
- Develop evidence-based explanations and communicate findings, conclusions, and proposed solutions.
- Engage respectfully in scientific discussion by listening, speaking, reading, and writing.
- Incorporate the use of technology when it is the most effective tool for the task.
- 1:1 Technology in the science classroom should provide opportunities for students to:
 - Use Chromebook devices to engage in face-to-face and digital collaboration
 - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
 - Collect and represent data using digital tools such as digital microscopes, Google Suite, etc.
 - Communicate and share conclusions using digital tools

Elementary Physical Education/Health (K–5)

- Utilize best practices for providing skills-based instruction in elementary physical education and health
- Utilize best practices to achieve moderate to vigorous physical activity
- Differentiate teaching strategies to meet individual student needs including allowing for student choice when possible and appropriate
- Provide engaging instruction with the goal of promoting the development of lifelong health and fitness
- Utilize technology to encourage movement and physical activity as appropriate
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Provide the required fitness assessments for students in grades three, four, and five
- Participate in activities and events that promote school and community involvement

Elementary Music (K–5)

- Develop the singing voice as the foundation of music learning through folk, patriotic, seasonal, and songs of diverse genres
- Provide music experiences through activities that include listening, movement, improvisation, and playing a variety of classroom pitched and unpitched instruments
- Create lessons and utilize activities that develop understanding of the elements of music, such as rhythm, dynamics, melody, harmony, tone color (timbre), texture, and form
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Utilize technology to encourage music composition as appropriate
- Encourage students to connect learning in music with other areas of knowledge, such as math, reading, and social studies
- Participate in activities and events that promote school and community involvement

Visual Arts (K–5)

- Model and teach artistic thinking, which means prompting curiosity and asking questions to develop ideas.
- Design open-ended lessons that highlight student voice, creativity, and problem-solving approaches.
- Introduce a range of media, techniques, and processes, including technology (e.g., digital tools) to foster creativity, support skill development, and encourage original outcomes through engaging art projects and research opportunities.
- Explore visual art-related careers to connect learning with real-world opportunities.
- Encourage students to connect learning in art with other areas of knowledge, such as math, reading, science, and social studies.
- Reflect regularly on teaching practices to support continuous professional growth.
- Utilize the resources available to teachers, including the CFISD adopted instructional materials, CFISD Benchmarks, and CFISD Curriculum Standards.
- Incorporate technology to foster creativity through engaging digital art projects and relevant research opportunities.
- Encourage excellence by offering students various opportunities to compete and exhibit their work through contests and community events such as the Houston Rodeo School Art Contest, Texas Elementary Art Meet (TEAM contest), and campus or districtwide art exhibitions.
