

# Cypress-Fairbanks Independent School District

## Lee Elementary School

2025-2026

# Mission Statement

The staff at Lee Elementary believes that all students can learn regardless of level of ability, environment or ethnicity. We strive to collaborate with staff, students, families and community members to provide a safe and nurturing environment, set high academic and behavioral standards, respect diversity, and promote life-long learning. It is the goal of this campus to shape the educational foundation of every student to ensure that Lee Labs will be effective communicators, competent problem solvers, responsible citizens, and quality producers.

## Vision

LABS - Learn. Achieve. Believe. Succeed.

# Comprehensive Needs Assessment

## Needs Assessment Overview

### Needs Assessment Overview Summary

#### SCHOOL PROFILE

Lee Elementary is a campus in Houston, Texas. Lee is projected to serve 735 students in grades Pk-5 during the 2025-26 school year, which is a decrease from the previous year of 775.

#### COMPREHENSIVE NEEDS ASSESSMENT (CNA) PROCESS

Lee's needs assessment process is described below.

Documentation of the process includes meeting minutes, agenda, and sign-in sheets. The Campus Leadership Team, Campus Performance Objectives Council [CPOC], met on May 12, 2025 and again on September 29, 2025. The meetings were held in the library. We plan to meet again on November 17, 2025, February 23, 2026, and May 11, 2026 to review and revise the CNA as needed.

At the first meeting on May 19, 2025:

A year end review was presented in the following areas with a summary from the year - enrollment, state testing, Title 1 spending, PEAM events, intervention, district testing data, professional development, PBIS, workroom, staff absences, clinic report, library information, special education/504/dyslexia data. Using local assessment data and copies of the CIP, the committee completed a review of all goals and strategies to determine whether the campus had exceeded, met, or made significant, some, or no progress toward its goals. The committee discussed and completed the 2025-26 Title I Preliminary Planning Budget to include class size reduction teachers in 4th and 5th grades, temporary workers for math and reading intervention, extra duty pay for afternoon tutorials, professional development that will be offered by the campus, PFE translations, materials, and childcare transportation for tutorials and field trips, and instructional supplies for students and staff.

The following data were evaluated from the 2024-25 school year:

i. Goal 1: Met Goal

ii. Goal 4: Significant Progress Made

1. K-2 monitoring notebooks need to be done with fidelity and accountability

iii. Goal 5: Significant Progress Made

1. 1st-3rd monitoring notebooks need to be done with fidelity and accountability

iv. Goal 6: Met Goal

v. Goal 7: Significant Progress Made

1. K-2 teachers will prioritize small group, problem solving process, manipulatives, and monitoring notebooks in math

vi. Guardrail 1: Significant Progress Made

1. Perf. Obj 2 - attendance committee will be a priority next year

vii. Guardrail 2: Met Goal

viii. Guardrail 3: Met Goal

At the second meeting on (September 2025 CPOC meeting date), the CPOC:

(Copy from the meeting minutes what happened during the meeting. These should be in the 2025-26 Title I crate under September CPOC Documentation - Minutes. This needs to be in paragraph format and NOT a bulleted list.)

## **SUMMARY OF IDENTIFIED PROBLEMS AND ROOT CAUSES**

Below is a summary of the prioritized problems and related root causes identified by the Campus Leadership Team (AKA: CPOC) for the school to focus on during the 2025-26 school year:

Our first identified priority problem in the area of **student achievement** is African American students performed lower than all other sub groups in math in 3rd-5th grade. Through the root cause analysis process, we identified that there is a need for teachers in grades 3-5 to implement consistent, pre-planned, differentiated small-group math instruction based on individual TEKS that target specific learning gaps.

Our second identified priority problem in the area of student achievement is all 5th grade student subgroups failed to meet campus and district performance targets in reading, scoring below both district and cluster. Through the root cause analysis process, we identified that students hat there is a need for teachers in grade 5 to implement consistent, pre-planned, differentiated small-group reading instruction based on individual TEKS that target specific learning gaps.

Our third identified priority problem is in the area of student achievement is campuses serving the most economically disadvantaged/at-risk students experience larger achievement gaps. Through the root cause analysis process, we identified that the campus Need to deepen economically disadvantaged/at-risk student academic understandings/build schema and need to provide supplemental staffing support such as: after school tutoring and class size reduction.

# Goals

District Goal 1: The percentage of students taking STAAR/EOC will increase performance at the Approaches Level from 80% to 90%, at the Meets Level from 56% to 71%, and at the Masters Level from 26% to 41% by 2029.

District Performance Objective 1.1: The percentage of eligible students scoring at the Approaches, Meets, and Masters Level on the District Progress Monitoring (DPMs) assessments will increase by 2% at the Approaches Level and 3% at the Meets and Masters Levels each year.

The targets listed below meet minimum expectations. Campuses are responsible for meeting the CIP targets as well as state and federal accountability targets.

To ensure the privacy of small student groups, data for performance levels with fewer than five students are not shown.

# 2025-2026 Elementary Content Area Standard Expectations

## Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a literacy schedule containing all required daily components.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Foundational TEKS should be taught daily through explicit and systematic instruction.
- Utilize reading and writing strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and the reading and writing block.
- 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
  - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
  - Communicate and share conclusions using digital tools
  - Incorporate the use of digital tools such as:
    - Google Suite
    - Scholastic Literacy Pro
    - Scholastic Storyworks (2<sup>nd</sup>-5<sup>th</sup>)
    - Boost Reading
    - Amira Suite
    - HMH Suite
    - Achieve 3000
    - Schoology
  - Incorporate the use of technology inside the Language Arts classroom after explicit and systematic instruction of literacy processes has occurred, and when it is the most developmentally appropriate tool for the task being asked of the student

## Mathematics

- Maximize instructional time by developing, posting, and consistently following a math schedule containing all required daily components.
- Model and expect students to use a problem-solving process by utilizing strategies included in Teacher Notes.
- Post and use classroom-created anchor charts in math classrooms.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Maintain a monitoring notebook as documentation of individual student's progress.
- Use Bloom in Math student booklets in Kindergarten-5<sup>th</sup> grade and Interactive Math Notebooks in 2<sup>nd</sup>-5<sup>th</sup> grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including "what do you notice/wonder" and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in digital creation and collaboration
  - Incorporate the use of digital tools such as ST Math, Performance Matters, Schoology, Google Suite, etc.
  - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
  - Communicate and share products using digital tools
  - Use district-approved technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

## Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2<sup>nd</sup>-3<sup>rd</sup> = 60% of the time, 4<sup>th</sup>-5<sup>th</sup> = 50% of the time).
- Use an Interactive Science Notebook in 1<sup>st</sup>-5<sup>th</sup> grades to record observations and demonstrate understanding of scientific concepts.
- Utilize the Science Study Guide (2<sup>nd</sup>-5<sup>th</sup> grades) to interpret diagrams and research/locate/generate information.
- Utilize the daily learning intention referenced in District Lessons at the start of each science block.
- Facilitate and maintain a student-created Interactive Word Wall in 2<sup>nd</sup>-5<sup>th</sup> grades.
- Maintain a monitoring notebook as documentation of individual student's progress.
- Model the thought process utilized when analyzing scientific questions in 2<sup>nd</sup>-5<sup>th</sup> grades.
- Analyze data from observations and experiences to derive meaning, along with recurring themes and concepts.
- Engage in a common inquiry experience to make sense of and develop scientific concepts and academic language.
- Develop evidence-based explanations and communicate findings, conclusions, and proposed solutions.
- Engage respectfully in scientific discussion by listening, speaking, reading, and writing.
- Incorporate the use of technology when it is the most effective tool for the task.
- 1:1 Technology in the science classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in face-to-face and digital collaboration
  - Locate and access information and resources stored in different platforms such as Google Drive and Schoology
  - Collect and represent data using digital tools such as digital microscopes, Google Suite, etc.
  - Communicate and share conclusions using digital tools

## Elementary Physical Education/Health (K–5)

- Utilize best practices for providing skills-based instruction in elementary physical education and health
- Utilize best practices to achieve moderate to vigorous physical activity
- Differentiate teaching strategies to meet individual student needs including allowing for student choice when possible and appropriate
- Provide engaging instruction with the goal of promoting the development of lifelong health and fitness
- Utilize technology to encourage movement and physical activity as appropriate
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Provide the required fitness assessments for students in grades three, four, and five
- Participate in activities and events that promote school and community involvement

## Elementary Music (K–5)

- Develop the singing voice as the foundation of music learning through folk, patriotic, seasonal, and songs of diverse genres
- Provide music experiences through activities that include listening, movement, improvisation, and playing a variety of classroom pitched and unpitched instruments
- Create lessons and utilize activities that develop understanding of the elements of music, such as rhythm, dynamics, melody, harmony, tone color (timbre), texture, and form
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Utilize technology to encourage music composition as appropriate
- Encourage students to connect learning in music with other areas of knowledge, such as math, reading, and social studies
- Participate in activities and events that promote school and community involvement

## Visual Arts (K–5)

- Model and teach artistic thinking, which means prompting curiosity and asking questions to develop ideas.
- Design open-ended lessons that highlight student voice, creativity, and problem-solving approaches.
- Introduce a range of media, techniques, and processes, including technology (e.g., digital tools) to foster creativity, support skill development, and encourage original outcomes through engaging art projects and research opportunities.
- Explore visual art-related careers to connect learning with real-world opportunities.
- Encourage students to connect learning in art with other areas of knowledge, such as math, reading, science, and social studies.
- Reflect regularly on teaching practices to support continuous professional growth.
- Utilize the resources available to teachers, including the CFISD adopted instructional materials, CFISD Benchmarks, and CFISD Curriculum Standards.
- Incorporate technology to foster creativity through engaging digital art projects and relevant research opportunities.
- Encourage excellence by offering students various opportunities to compete and exhibit their work through contests and community events such as the Houston Rodeo School Art Contest, Texas Elementary Art Meet (TEAM contest), and campus or districtwide art exhibitions.
