

FRIDLEY
HIGH SCHOOL

Registration & Course Guide

2026-2027

An International Baccalaureate World School

Fridley High School is an International Baccalaureate World School that serves students in grades 9-12. We offer the Middle Years Programme (MYP) to grades 9-10, the Diploma Programme (DP) to grades 11-12 and the Career-related Programme (CP) to grades 11-12.

A MESSAGE FROM PRINCIPAL MCCONVILLE

Kelly McConville, Principal

Welcome to Fridley High School for the 2026-27 school year. Fridley High School is an IB World School. We are proud and committed to offer a comprehensive curriculum in a caring environment.

This guide is a catalog of courses and programs offered during the school year at Fridley High School. Please keep it as a reference throughout the year.

As you use this registration guide, you will be choosing from a large selection of courses appealing to a wide variety of interests. Electives provide the opportunity to explore special fields of interest. These courses also make it possible to pursue specialized preparation for advanced post-high school training or to enter the job market.

Carefully read the information in the next few pages and browse through the course offerings and programs then begin planning a course of study. Before registration, decide on a schedule of courses for the remaining year(s) in high school. Serious thought about an overall educational plan is essential. It is important that course selections for next year are made very carefully. We will tally all course selections and make critical decisions regarding staffing, room use, and dollar allocation.

Once those decisions are made, it will be very difficult to change course selections.

Choose with your future in mind. Some points to consider:

- What kinds of interests do you have for post-college? Do some planning by calling people in the professions in which you have interests to ask them what kind of preparation they would recommend.
- Make yourself attractive to the colleges you are interested in attending. Make contact with an admissions person to see what they are looking for in candidates for their schools, particularly if you are interested in highly selective schools. Take the time to make this happen.
- Consider taking extra core academic courses. This is the last time in your educational career that you will have the opportunity to take free courses. In post-secondary levels, you have to pay to learn. Take that course in high school that might be interesting to you.

Good luck as you plan for the upcoming school year.

Sincerely,

Kelly McConville
Fridley High School Principal

L-R: Justin Reese, Kari Varichak, Jason Blanshan, and Kelly McConville.

WELCOME TO FRIDLEY HIGH SCHOOL, AN INTERNATIONAL BACCALAUREATE WORLD SCHOOL!

We are an international, connected community that boldly and passionately supports every student.

To accomplish this mission, we will:

- Provide a nurturing environment
- Create high expectations defined by learner outcomes
- Develop exemplary programs and continuously improve them
- Strive to meet students' needs
- Respect individual differences
- Develop an educational foundation for all students
- To be life-long learners
- To develop high skill levels
- To care for others
- To be adaptable
- To be prepared to thrive in a diverse, changing society

HOW TO USE THIS REGISTRATION GUIDE

TERMINOLOGY AND DEFINITIONS

This Registration Catalog is designed to help you and your parents select your courses for next school year. We use registration data to build our master schedule and hire and assign teachers. The guide explains which courses you need for graduation and when you need to take them. It will also help you choose courses to meet your goals after high school, whether you want to get a particular kind of job, go to college, or enlist in military service.

Prerequisite Course

Courses that students must pass before registering for another course or the next course in the sequence.

Required Course

Courses that every student must pass in order to graduate from Fridley High School.

Elective Course

A course students choose to take to fulfill the graduation requirements.

International Baccalaureate Diploma and Career-related Programme's

The International Baccalaureate (IB) Diploma and Career-related Programmes are internationally-recognized rigorous programs for 11th and 12th grade students. Students may earn college credit based on their scores from IB assessments. Both the IBDP and the IBCP are two-year commitments at Fridley High School. Informational meets are conducted several times throughout the year.

DP SL Course: Diploma Programme Standard Level:

A college level course requiring 150 hours of instruction (may be a one or two year course).

DP HL Course: Diploma Programme Higher Level:

A college level course requiring 240 hours of instruction (is always a two year course).

REGISTRATION INFORMATION

1. Please read carefully ALL instructions and explanations in the book. Make sure you understand the procedures before you begin.
2. Review requirements for graduation.
3. Read and understand the course descriptions and prerequisites.
4. Decide which courses you want to take based on your plans for after high school.
5. Discuss plans with your parents/guardians. Consult with teachers and your dean if you need help.
6. Use information you have about yourself such as test results, interest inventories, and past grades.
7. Check entrance requirements for colleges and other post-secondary programs before you select your school courses for future endeavors.

CLASS CHANGE REQUESTS

Students are encouraged to plan programs carefully. Once the registration process is complete, class change requests are discouraged, and in some cases, not possible after the initial registration. Please refer to the student handbook for additional information.

INTRODUCTION

GRADUATION REQUIREMENTS & CRITERIA

District 14 students must complete credit requirements to receive a Fridley High School diploma. Students are on a 7-period semester schedule. Each class equals .5 credits. Credit requirements are listed in the chart below:

Please see your dean of students with questions regarding testing and graduation requirements. Students must be credit ready to participate in the commencement ceremony.

PLANNING COURSES

Students are encouraged to carefully select courses for the entire year and take advantage of the broad selection of offerings from all departments. It is strongly recommended that students wishing to take a large number of rigorous courses make an overall plan for their sophomore, junior and senior years. This will make scheduling these classes easier.

The scheduling office will keep each student's registration plan on file for the year. In the event there are conflicts, closed classes, or classes not offered due to inadequate enrollments, the alternate selections would be used to adjust the schedule. Be sure alternate selections are listed on the registration form in priority order. There will be limited opportunities for students to make adjustments in their schedule based on availability of seats.

CREDITS REQUIRED

SUBJECT	Credits
Mathematics	3
Language & Literature	4
Individuals & Societies (Social Studies)	3.5
Sciences	3
Physical & Health Education	1.5
Arts (Performing & Visual)	1
Design (Business, FACS, Technology)	1
Language Acquisition (Chinese, Spanish, Reading & EL) *2 credits strongly recommended*	1.5
Total Required Credits	18.5
Elective Credits For Graduation	8.5
Total Credits For Graduation	27

Minnesota Career Fields, Clusters & Pathways

Thinking ahead and preparing for careers is helpful as students are headed to the workplace or college. Some careers that are common today may not be needed tomorrow. All careers require flexibility, knowledge, and skills. The Minnesota Department of Education and Minnesota State Colleges and Universities have created The Minnesota Career Fields, Clusters & Pathways, which Fridley High School aligns with.

The Minnesota Career Fields, Clusters & Pathways chart, on the following page, graphically depicts the organizing framework of the foundation knowledge and skills, career fields, career clusters, and career pathways that Minnesota will use for developing programs of study.

CAREER FIELDS

Career Fields, which are identified in the segmented ring around Foundation Knowledge and Skills, are the organizing structure for the 16 career clusters and 79 pathways. The fields represent the broadest aggregation of careers. Students are normally exposed to career field exploration in middle school and early high school. Career fields have been identified as:

- Agriculture, Food, & Natural Resources
- Arts, Communications, & Information Systems
- Engineering, Manufacturing, & Technology
- Health Science Technology
- Human Services
- Business, Management, & Administration

CAREER CLUSTERS

Career Clusters, which are identified in the bold, colored bullets (), represent a grouping of occupations and broad industries into a national classification of 16 clusters that are based upon common knowledge and skills. Career clusters include hundreds of occupations that may be grouped into pathways around which educational programs of study can be built.

CAREER PATHWAYS

Career Pathways, which are identified by the symbol (>) under each cluster heading, represent an organization of related occupational areas within a specific career cluster. Each of these pathways has identified knowledge and skills validated by industry from which programs and programs of study are developed.

Minnesota Career Fields, Clusters & Pathways

Legend:
 ■ = Career Cluster
 > = Career Pathway
 Explanation provided on reverse side.

www.mnpos.com

Business, Management & Administration

Students focus on the interplay of people, systems, and cultures. Electives provide opportunities to explore the relationships between business, politics, and history, with an emphasis on world languages and cultures.

Career Cluster Pathway	Foundational Courses	Enhancement Courses
Business Management & Administration	Accounting 1 & 2 Personal Finance Entrepreneurship Microsoft Word Computer Applications	DP Business Management DP History DP Global Politics Personal and Professional Skills DP Chinese DP Spanish
Marketing, Sales & Services	Marketing Entrepreneurship Microsoft Word Personal Finance	
Hospitality & Tourism	Fundamentals of Food Prep Culinary Foods Chinese - all levels Spanish - all levels	

Possible Careers: Accountant, Actuary, Advertising, Anthropologist, Archaeologist, Art Historian, Auditor, Business Executive, Counselor, Customer Representative, Diplomat, Director of Tourism, E-Commerce, Entrepreneur, Financial Advisor/Analyst, Foreign Correspondent, Foreign Service Officer, Hospitality and Tourism Industry, Human resources, Immigration officer, International Business, Interpreter, Journalist, Manager, Marketing, Marketing Research Analyst, Merchandiser, Sales, Retailer.

Engineering, Manufacturing & Technology

Students focus on investigation and application of sciences, technology, engineering and math. Electives provide real-world, hands-on opportunities to explore elements of engineering, environmental, and research Sciences.

Career Cluster Pathway	Foundational Courses	Enhancement Courses
Architecture & Manufacturing	Woodworking Technology Home Repair	DP Business DP Math Applications DP Math Analysis ARCC Statistics DP Biology DP Environmental Systems Personal and Professional Skills
Science, Technology, Engineering & Math	Biology Chemistry Cosmos and Climate Earth and Space Systems	

Possible Careers: Actuary, Analytical Chemist, Assembler, Automotive Technician, Biomedical Engineer, Boilermaker, Chemical Engineer, Civil Engineer/Technician, Design Engineer, Environmental Engineer, Environmental Research Scientist, Foundry Worker, Freight, Industrial Machinery Mechanic, Inspector, Lab Technician, Logistician, Manufacturing Technician, Naturalist, Pattern and Model Maker, Physicist, Production Manager, Quality Control Technician, Researcher, Safety Engineer, Stock and Material Mover, Tool and Die Maker, Wildlife Biologist

Health Science Technology

Students focus on understanding and serving people through medicine and sciences. Electives provide opportunities to explore the biomedical field, health careers, leadership and the social/psychological needs and development of people.

Career Cluster Pathway	Foundational Courses	Enhancement Courses
Support Services	Emergency Medical Responder (EMR) Emergency Medical Technician (EMT)	DP Biology Theory of Knowledge Personal and Professional Skills EMR/EMT/CNA
Biotechnology Research and Development	Biology Anatomy & Physiology Forensic Science Chemistry	

Possible Careers: Physician, Medical or public health researcher, Medical lab technician, Surgeon, Nurse, Dentist, Physician's or medical assistant, Dental Assistant. Transcriptionist, Physical Therapist, Health Unit Coordinator, Nutritionist or Dietician, Hospital Administrator, Scientist, Dental Hygienist, Doctor, EMT/Paramedic Lab Technician, Geneticist, Home Health Aide, Licensed Practical Nurse, Medical Laboratory Technician, Nutritionist, Occupational Therapist, Pharmacist, Pharmacy Assistant, Physical Therapist, Firefighter, Certified Nursing Assistant (CNA), Law Enforcement, Athletic Training

Human Services

Students interested in pursuing a career in human services enjoy helping others and working toward the betterment of society. Human services professionals can make direct impacts on people's lives. Human services occupations include jobs in the fields of social work, health care, psychiatry and other disciplines related to physical and mental health and well-being.

Career Cluster Pathway	Foundational Courses	Enhancement Courses
Government and Public Administration	DP History HL Basic Law Ethnic Studies World Religions Sociology	DP History of the Americas Personal and Professional Skills Theory of Knowledge DP Chinese DP Spanish EMR/EMT CNA
Human Services	Psychology Child Development Basic Law Leadership Abnormal Psychology Sociology Strength Training and Conditioning	

Possible Careers: Administrator, Art Therapist, Athletic Trainer, Biochemist, Bioengineer, Child Care Provider, Clinical Psychologist, Community Service Director, Corrections Officer, Day-Care Facility Director, Psychologist, Radiologic Technician, Registered Nurse, School Counselor, School Psychologist, Social Worker, Firefighter, Certified Nursing Assistant (CNA), Law Enforcement, Athletic Training

Arts, Communications & Information Systems

Students focus on the creative process through a variety of mediums: visual, performance, music, drama and written word. Electives provide opportunities to communicate ideas, interpret media and develop methods of self-expression through project-based classes.

Career Cluster Pathway	Foundational Courses	Enhancement Courses
Performing Arts	Varsity Band Concert Band Studio Singers Jazz Ensemble Dance Music Production	DP Language & Literature Theory of Knowledge Personal and Professional Skills DP Music

Information Technology	A+ Computer Programming Introduction to Computer Science	

Possible Careers: Actor, Advertiser, Art Dealer, Art Historian, Art Teacher, Cartoonist, Cinematographer, Composer, Computer Engineer/Programmer, Costume Designer, Director, Editor, Exhibit Designer, Film Animation Artist, Film Editor, Framemaker, Fame Designer, Graphic Designer, Interior Designer, Illustrator, Instrument Repair, Jewelry Designer, Journalist, Lighting Designer, Music Teacher, Music Therapist, Musician, Network Specialist, Painter, Publisher, Producer, Radio & TV Announcer, Reporter, Sculptor, Set Designer, Software Engineer & Developer, Sound Engineer, Technical Support Specialist, TV Station Manager, Web Designer, Writer

IB MIDDLE YEARS PROGRAMME (MYP)

HOW IS THE IB MIDDLE YEARS PROGRAMME UNIQUE?

We encourage international-mindedness in IB students, starting with a foundation in their own language and culture. Students have the opportunity to learn to communicate in a second language.

We encourage a positive attitude to learning by challenging students to solve problems, show creativity and resourcefulness, and participate actively in their communities.

We reflect real life by providing a framework that allows students to see the connections among the subjects themselves, and between the subjects and real issues.

We support the development of communication skills to encourage inquiry, understanding, language acquisition, and to allow student reflection and expression.

Through the learner profile, we emphasize the development of the whole student—physically, intellectually, emotionally and ethically.

APPROACHES TO LEARNING

Approaches to learning skills are sets of strategies and techniques that are used to achieve a specific purpose. In the MYP, students develop skills that have relevance across the curriculum and help them “learn how to learn”.

These skills are organized into the following categories:

- Communication
- Social
- Self-management
- Research
- Thinking

PERSONAL PROJECT

During the final year of the program (Grade 10), all students complete a Personal Project, a significant piece of work that is the product of the student's own initiative and creativity. Students apply the skills acquired throughout the program. Students are expected to choose their project, which can take many forms, and take the process through to completion under the supervision of a staff member.

SERVICE IN ACTION

The role of service in action in the MYP addresses the place and role of the student in communities—from the immediate family and school environment to the world at large. In the MYP, the qualities and motives of an act of service in action are considered more important than the act itself or the number of hours devoted to it. The idea of service in action is developed as an integral part of the program—present in the curriculum as well as in whole-school activities. Learning about one's role in the community starts with learning in the classroom based on the written curriculum, and leads to raising awareness that may lead to principled **ACTION**.

The IB Middle Years Programme, for students aged 11 to 16, provides a framework of concept-based learning and academic challenge that encourages students to embrace and understand the connections between traditional subjects and the real world, and to become critical and reflective thinkers. Students study subjects from each of the eight subject groups:

Arts (Performing/Visual)

Design (Business/FACS/Technology)

Individuals & Societies

Language Acquisition (Chinese/Spanish/EL)

Language & Literature

Mathematics

Physical & Health Education

Sciences

GRADES 9-10 MYP: Course Sequencing

LET'S PLAN AHEAD!

All students and families should make **four year plans** with support from deans and advisors during their 9th grade year to best prepare for their preferred 11th and 12th grade academic experience.

Plans can be reviewed and revised each year as requested. This worksheet serves as an outline for planning purposes. See a dean or IB Coordinator to plan an individual schedule to meet full DP candidacy requirements.

IB DIPLOMA CANDIDATES

- The **IB Diploma** is recognized by colleges and universities around the world as a superior education, preparing students to succeed at post-secondary institutions and beyond. Successful full diploma candidates will receive an IB Diploma in addition to the Fridley High School Diploma.
- Students earning the IB diploma may receive up to one full year of college credit.
- Candidates choose one course from each subject group; may choose an additional subject from one group in place of the arts group.
- Take 3 HL courses and exams (no more than four)
- Take 3 SL courses and exams (2 if 4 HL courses are selected)
- Complete Core elements: Extended Essay, Theory of Knowledge, and CAS.

EXTENDED ESSAY

A 4,000 word essay, supported by original research, on a subject of the student's choice. Students will develop skills for in-depth, independent research.

THEORY OF KNOWLEDGE (2 semesters)

An interdisciplinary course that challenges students to question the basis of knowledge and to reflect critically on how they know what they believe to be the facts or the truth. This class will be taught over both years of the program, be linked to all other DP classes, and is predominantly discussion-based.

CAS - CREATIVITY, ACTIVITY, SERVICE

The CAS component encourages students to share their energy and talents with others through experiential learning. CAS requires participation in outside of class activities and reflection on learning outcomes.

IB COURSE STUDENTS

- Students may register for any number of IB Diploma Programme courses, up to the full diploma.
- Students may earn college credit for individual courses, depending on the university and exam score.
- The exam is part of the course
- Fridley High School recognizes students who have completed four or more DP Courses and exams as "IB Scholars"

Theory of Knowledge Course (2 Semesters)
Creativity, Activity, Service

Did You Know?

The DP focuses on rigorous academic study which readily prepares students for higher education. Students also have the opportunity to apply their knowledge and skills to community engagement, gaining valuable experience outside the academic world.

IB CAREER-RELATED PROGRAMME (CP)

IB CAREER-RELATED PROGRAMME

The IB Career-related Program (CP) is designed for students interested in pursuing a career-related education. It provides them with an excellent foundation to support their further studies, as well as ensure their preparedness for success in the workforce.

THE CP ENABLES STUDENTS TO:

- Combine academic subjects with their personal and professional interests and skills.
- Engage in learning that makes a positive difference to their community.
- Think critically and creatively.
- Communicate clearly and effectively in a variety of situations.
- Effectively work independently and in collaboration with others.
- Consider new perspectives and other points of view.
- Develop self-confidence, self-awareness, resilience, flexibility, and agility of mind.
- Be internationally-minded and globally aware.
- Apply their knowledge to real-world scenarios and situations.

THE IB CP FRAMEWORK IS BUILT AROUND THREE INTERCONNECTED ELEMENTS:

1. At least two Diploma Programme courses. These courses provide and enhance the academic rigor of the CP.
2. A CP core that includes a personal and professional skills course, community engagement, language and cultural studies, and a reflective project.
3. An approved career-related study culminating with an industry standard certificate.

REDUCING THE “ACADEMIC VERSUS VOCATIONAL” DIVIDE

Drawing on its experience and reputation in curriculum and assessment development through international collaboration, the IB can contribute positively to career-related studies by challenging the perception (still prevalent in many parts of the world) that career-related studies are of lesser status than academic studies.

The CP has been designed to remove the distinction that exists in many educational systems around the world between knowledge skills and practical skills and, in so doing, maximize the effectiveness of young people as they continue their education, enter the workforce and take their place in society.

Program Options

AVID

What is AVID?

AVID stands for Advancement Via Individual Determination. It is an academic support program that prepares students for college eligibility and success. The program targets academically average students and places them in advanced courses, while supporting them in the AVID elective course.

Mission of AVID

To close the achievement gap by preparing all students for college readiness and success in a global societies.

The AVID Student

In order to be eligible for AVID students must apply and interview for the program. The typical AVID student will have average to high test scores, a 2.0-3.5 GPA and college potential with support, and desire and determination. They also must meet at least one of the following criteria:

- First to attend college
- Historically underserved in 4-year colleges
- Low income
- Special circumstances
(ELL, foster care, single parent family, etc.)

Course Overview:

AVID is a 2 semester sequence course each year. Prerequisite: Application and interview.

Course Philosophy

AVID is an elective course that prepares students for entrance into four-year colleges. It is based on rigorous standards developed by middle and high school teachers and college professors. It is driven by analytical writing, inquiry, collaboration, organization and critical reading (WICOR), and in addition, it focuses on study skills, test taking skills, note taking, research, organization, critical thinking, goal setting, choosing a college, and preparing for college entrance exams.

Articulated Courses

Articulated courses allow students the opportunity to earn technical or community college credit(s) while staying in the high school setting. Fridley High School offers articulated agreements in the following courses:

- A+ Programming-Hardware
- A+ Programming-Software
- Accounting 1
- Accounting 2
- DP Business Management
- EMR/EMT
- Home Repair
- Entrepreneurship
- Marketing
- Microsoft Word
- Foods
- Child and Human Development

Contact a dean or your Career and Technical Education Instructor for more information about articulated courses.

Concurrent Enrollment

Math and English Courses are offered through Anoka-Ramsey Community College.

Through an agreement with Anoka-Ramsey Community College, students have the option of taking several early college courses at Fridley High School during the regular school day from a credentialed district teacher who has partnered with an ARCC faculty mentor: *Statistics, College Algebra, American Politics and Government, Unifying Concepts in Biology* and *College Reading & Writing*. To earn college credit in these dual enrollment courses, students must earn at least a C average on the ARCC grading scale and demonstrate proficiency in all essential outcomes. These courses transfer to most public and private 2 and 4 year universities.

FHS Partners with local colleges and universities to offer college courses during the regular school day from a credentialed district teacher. We offer college-level courses through partnerships with: ARCC, Pine Tech, and the U of M.

Program Options

Post Secondary Enrollment Option (PSEO)

The Post-Secondary Enrollment Options Act was passed by the Minnesota Legislature in 1985. Its purpose was to promote rigorous academic pursuits and to provide a wider variety of options to high school students by enabling them to enroll full-time or part-time in eligible post-secondary courses not offered at local high schools. Through PSEO high school students receive both high school and college/university credit for courses that are completed.

The student and his/her parent(s), if the student is under age 18, determine whether the student will apply for enrollment in a post-secondary program under this Act. This decision should be discussed with the high school dean and appropriate post-secondary school staff to assure that the courses or programs of interest will aid the student in meeting his or her education goals and diploma. (See the dean to fill out appropriate paperwork and application materials) To increase the likelihood of student success, Minnesota State Colleges and Universities (MNSCU) has set the following standard to admission to PSEO (website) <https://www.minnstate.edu/admissions/pseo>

Specifically this act provides:

- 10th, 11th and 12th grade students may apply to, and if accepted, attend a Minnesota public post-secondary institution or a participating private, four-year, liberal arts degree-granting college or university located in Minnesota.
- Sophomores may enroll in a career or technical education course at a MnSCU college or university if they have attained a passing score or met the 8th grade standard on the 8th grade Minnesota Comprehensive Assessment in reading and meet other course prerequisites or course enrollment standards established by the college. These standards include but are not limited to assessment test scores, program admission or other requirements. If a sophomore receives a grade of C or better in the course, the student shall be allowed to take additional career or technical education courses in subsequent terms. A student who first enrolls under this provision while in 10th grade and wishes to enroll in general education courses as an 11th or 12th grade student must take the system Assessment for Course Placement and achieve the required scores prior to enrollment. Campuses may require eligible 10th grade PSEO students who wish to enroll in a career and technical course to meet with a college counselor or advisor. Colleges and universities may admit students based on other documentation of ability to perform college-level work.
- A school district shall grant credit to a pupil who

successfully completes and passes a post-secondary course or program. Students are not permitted to take courses that are not considered to be college level; this includes developmental and remedial courses.

- Post-secondary credits received shall count toward the graduation credits required by the home school district. The credits and GPA will be placed on your high school transcript and the grade will be calculated into the student's cumulative GPA. The university or college shall also grant credit upon successful course completion.
- Tuition, books, fees or any other necessary costs for the courses may not be assessed to the pupil. These are paid by the state through the school district.
- The institution determines student eligibility. The student is responsible for getting his/her college transcript to his/her high school counselor at the end of each semester.

PSEO students have unique responsibilities that other high school students may not have.

- **Student's Schedule:** Students need to work closely with college reps and his/her high school dean to develop their schedule for the year.
- **Semester Dates:** The start/ending date of high school classes and college classes may not coincide and classes may overlap. Students must complete work for the classes at the high school and college. It is the student's responsibility to meet with his/her dean to determine a plan for completing high school credits.
- **MSHSL Eligibility:** The Minnesota State High School League rules allow a student to participate in extra-curricular activities or athletics covered by the League at either the high school or the post-secondary institution, but not both.
- **NCAA Eligibility:** Students are responsible for insuring their NCAA eligibility when taking PSEO classes. The student is responsible for obtaining and submitting any requested information about college classes to the NCAA Clearinghouse. Failure to do so could result in the loss of college eligibility. Website: www.ncaaclearinghouse.org
- Be aware that not all out-of-state colleges accept PSEO credits as college level credits.

Admission criteria for PSEO is unique to the institution. It is important to review the criteria before making application. Consideration is given to students based on GPA, Scores on ACT, SAT, rigorous coursework on high school transcript. Typically a student must be in the top 50% for seniors and top 33% for juniors.

Preparing for Post High School Education

Employers are demanding more and more specialization and in some areas, taking the proper sequence of courses can obtain the necessary skills for certain occupations. Students should plan their courses of study carefully with their parents, teachers, and dean.

College / Post-Secondary Education

Each post-secondary school sets standards of preparation that they believe will provide the background necessary for students to succeed at their college. In addition to academic preparation and background, there may be other factors considered in a college admissions decision, such as participation in activities, leadership potential, and work experience. This is particularly true at more selective schools. All students are strongly advised to research specific requirements for admission to their school(s) of choice and meet with a dean to assist you.

Community Colleges

Community colleges follow an open enrollment policy. Some programs do have specific entrance requirements and/or skill assessments that should be checked carefully by the student before completing an application. Community college programs are typically completed in two years. The student may earn an Associates Degree in the program areas of liberal arts or sciences. Students, with or without an Associates Degree, may also transfer to a 4-year college to continue their education. Most credits earned in a community college program will transfer to 4-year colleges and universities. Students should contact the college for more information.

Technical Colleges

There are many public vocational-technical schools throughout the region that offer more than 300 different types of training for students who are high school graduates. Technical colleges follow an open

enrollment policy. Some programs do have specific entrance requirements. Technical programs are typically completed in two years or less and are geared toward hands-on learning. Some credits may transfer to 4-year colleges. Technical training programs include licensed practical nursing, auto mechanics, plumbing, baking, optical technology, machinist, secretarial training, commercial art, and a variety of other options. Students should contact the college for more information.

Private Technical Schools

Students thinking about attending private vocational schools such as Dunwoody Institute, Northwest Technical Institute or Brown College, should carefully study the entry requirements. Specific industrial arts courses, and usually math courses, are recommended or required for enrollment in many programs offered.

Specialized Training Programs

Other vocational schools, such as business schools and cosmetology schools, generally require a high school diploma for admission. Students should check closely with a dean before signing up for private trade schools.

Apprenticeship

Apprenticeship is an earn-as-you-learn workforce training model. Apprentices receive classroom instruction and on-the-job training to provide the industry-specific knowledge needed to perform highly skilled work. Apprentices earn a salary as they train and the process is structured to allow for a healthy, work-life balance. At the end of the apprenticeship you'll have the skills and training required in a high-demand industry. Generally, you would need a high school diploma or G.E.D. to be an apprentice applicant. Math, science and industrial or technical courses are especially helpful in your role as an apprentice.

Preparing for Post High School Education

4-Year Colleges and Universities

Minnesota's four-year state universities offer courses and programs leading to bachelors, masters and advanced degrees. Admission requirements to 4-year colleges vary greatly from school to school and depend on the student's chosen course of study. Criteria considered include rigor of coursework, class rank, college entrance exam scores (ACT or SAT), and GPA. The following high school preparation requirements are a general guide of courses needed for admission to most colleges/universities. These courses are generally taken in grades 9-12. Students should see a dean for additional information about specific schools.

University of Minnesota System (Twin Cities, Duluth, Morris)

- 4 years/credits of English
- 4 years/credits of Math (to include algebra, geometry, advanced algebra)
- 3 years/credits of Sciences (to include biology, physical sciences, and 1 year of significant laboratory experience). 4 years/credits if student plans to apply to college of science and engineering
- 3 years/credits of Social Studies (to include US History and World Studies)
- 2 years/credits of World Languages

University of Wisconsin System

- 4 years/credits of English
- 3 years/credits of Math (to include algebra, geometry, advanced algebra)
- 3 years/credits of Sciences (to include biology, physical Sciences, and 1 year with significant laboratory experience)
- 3 years/credits of Social Studies
- 4 years/credits of Electives in preceding core area or world language
- Madison and Eau Claire specifically require two years of a continuing world language

Minnesota State Colleges and Universities (Bemidji, Mankato, Metro, Moorhead, Winona, St. Cloud, Southwest)

- 1 year/credit of Fine or Performing Arts
- 4 years/credits of English
- 3 years/credits of Math (to include algebra, geometry, advanced algebra)
- 3 years/credits of Sciences (to include biology, physical Sciences, and 1 year with significant laboratory experience)
- 3 years/credits of Social Studies (to include US History and World Studies)
- 2 years/credits of World Languages
- 1 year/credit of Fine or Performing Arts
- University of Wisconsin System
- 4 years/credits of English
- 3 years/credits of Math (to include algebra, geometry, advanced algebra)
- 3 years/credits of Sciences (to include biology, physical Sciences, and 1 year with significant laboratory experience)
- 3 years/credits of Social Studies
- 4 years/credits of Electives in preceding core area or world language
- Madison and Eau Claire specifically require two years of a continuing world language

Academic Testing

In addition to the general entrance requirements, most colleges and universities require that the student take one or more national standardized tests. The information concerning these tests is available at the high school, but all testing and scoring are carried out by the accredited testing agency. The ACT is required for graduation, but the others are optional. It is the student's individual responsibility to sign up for those tests in which he/she is interested. Fees are designated by test agencies and are subject to change. The following tests are available to students:

PreACT

(Preliminary American College Testing Assessment)

PreACT simulates the ACT testing experience within a shorter test window on all four ACT test subjects: English, math, reading and science. Results predict future success on the ACT test, and provide both current achievement and projected future ACT test scores on the familiar 1-36 ACT score scale. This test is offered to at school in April of the sophomore year.

PSAT ***(Preliminary Scholastic Aptitude Test)***

The PSAT is the way to qualify for national scholarships through the National Merit Scholarship Corporation (NMSC). The NMSC advises juniors who are in the top 1/3 of their class and who have taken advanced English and math courses are eligible for scholarship consideration if they do well on the PSAT. This multiple choice test measures verbal comprehension, mathematical reasoning, and writing abilities important for academic performance in college. Students may participate in the Student Search Service to receive information from colleges or other post-secondary institutions. The test is offered at school in October of the junior year.

ACT ***(American College Testing Assessment)***

The ACT is generally taken in the spring of the junior year or early in the senior year. This test measures skills in four major areas: English, Mathematics, Reading, and Sciences Reasoning. There is also a writing component. These areas are tested because they include the major areas of instruction in most college programs. Website: www.ACTstudent.org.

SAT ***(Scholastic Aptitude Test)***

The SAT is generally taken the spring of the junior year or early in the senior year. The SAT is a multiple-choice test made of verbal, math, and writing sections. This test is usually required by schools located on the East and the West coasts of the US. Website www.collegeboard.com.

SAT Subject Tests

These subject tests are one-hour, multiple-choice tests in specific subjects. There are fourteen subject areas that measure a student's knowledge of particular subjects and his/her ability to apply that knowledge. Some schools require the Subject Tests as well as the SAT. See the guide, "Taking the SAT II Subject Tests" at www.collegeboard.com.

Accuplacer

The Accuplacer is a group of tests that determine your knowledge in math, reading, and English. All two year public colleges in Minnesota require students to take the Accuplacer. Each school will give students information upon acceptance into the institution.

Your Responsibility as a Prospective Student Athlete:

It is the student's responsibility to make sure the NCAA Clearinghouse has the documents it needs for certification. These documents are:

- Completed and signed Student Release Form and fee.
- Official transcript mailed directly from every high school attended.
- ACT or SAT scores.
- **Graduate from high school** and have successfully completed 16 core courses (as listed below) and have a core-course-grade-point average (based on a 4.00 scale) and combined score on the SAT or a composite score on the ACT based on the new core GPA/test score index
- **Complete 16 Core Courses:**
 - English – 4 Years (4.0 credits)
 - Math – 3 Years (3.0 credits) (4 credits at U of M beginning 2015)
 - Natural/Physical Sciences – 2 Years (1 year of lab if offered by the high school)
 - Social Sciences – 2 Years (2.0 credits)
 - Additional Coursework:
 - » 1 Year (1.0 credit) of additional English, mathematics, or natural/physical Sciences
 - » 4 Years (4.0 credits) from any area above, world language, nondoctrinal religion/philosophy, or computer sciences

Apply for certification

Students should apply for certification before graduation (junior or senior year) if they are sure they wish to participate in athletics as a freshman at the college to which they will be admitted. The Clearinghouse will issue a preliminary certification report when all materials have been submitted. After graduation, if eligibility information is requested by a member institution, the Clearinghouse will review your final transcript to make a final certification decision according to NCAA standards.

Information and application process can be found at: ncaaclearinghouse.org.

Please see a dean for assistance in completing your NCAA application.

Consider College Characteristics

Knowing entrance standards of a college will give you some idea of how likely you are to be accepted

Admission Standard	Typical Composite ACT Score
Open	17-20
Liberal	19-21
Traditional	20-24
Selective	25-27
Highly Selective	30 or higher

Career Planning

The career that matches your skills, interests and personality best, may be the career for you.

The sites below are a sampling of places providing career-related information, from career planning to researching post-secondary schools. A separate Financial Aid/Scholarship list is available, although several of these sites provide financial aid information. This list is also available from your dean.

College & Career Planning Timeline

GRADE 9

- Develop a four year high school/post high school plan.
- Start to understand basic college admission requirements or career plan.
- Meet your dean to begin establishing a relationship.
- Grades are posted to an official transcript beginning in 9th grade. These will be used for college admission criteria.

GRADE 10

Fall

- Review your post high school plan.

Winter

- Review grades with your dean and advisor.
- Review / update plans for high school and after, meet with your dean, and register for junior year.

Spring

- Take the PreACT Test.

GRADE 11

Fall

- Consider taking the PSAT. This test is used for qualifying students for National Merit Scholarships.
- Attend a College Fair to learn about colleges and universities.
- Begin creating a list of colleges or training, gather additional information, and visit colleges of interest.

Winter

- Discuss PSAT results with the dean and advisor.
- Review / update a for high school and after, meet with your dean, and register for senior year.
- Narrow college and training choices and find out if the colleges or programs require the SAT, ACT, or SAT Subject Tests.
- Register to take the ACT and/or SAT in the spring.

Spring

- Take the ACT, SAT or SAT Subject Tests.
- Collect college application information for the fall.
- Visit colleges/universities in the spring and summer.

GRADE 12

Fall

- Take a full load of courses.
- Take the SAT or ACT again if not satisfied with spring scores.
- Meet with your dean to complete the college admission process.

Winter

- Attend financial aid night with parent(s)/guardian(s).
- Complete the Free Application for Federal Student Aid (FAFSA), and, if necessary PROFILE as part of the application process. Obtain forms from the dean. Previous year income taxes must be completed.
- Research and apply for scholarships and financial aid in January.

Spring

- Watch for acceptance notifications from colleges / universities.
- Watch for financial aid notification awards/information.
- Make a decision about what college / university to attend and notify schools of intent by timelines designated.

FAQs

All questions can be answered by a dean.

How do I sign up for Diploma Programme courses?

Talk to a dean of students, as well as the DP Coordinator when choosing your DP courses. There is also an informational night for parents and students that will explain the Diploma Programme and what to expect when taking DP courses. As with any course, please make informed choices about classes and don't hesitate to ask questions during the selection process.

Are there classes I should take if I am going to a four-year college?

Check requirements of the school by going to the college's website, or meet with the dean. In order to prepare academically for college course work, a student should take the most rigorous classes available appropriate to his/her skill level (see page 17 for more information).

How do I make up credit if I fail a course?

Schedule an appointment with a dean of students to determine which courses need to be made up. The dean will be able to give information on making up credit through Metro Heights Academy. The dean of students can assist with the forms needed to be filled out.

Services: The Fridley School District provides educational programming to students with disabilities from birth to age 21. State and federal law define categories of disabilities as follows:

Autism Spectrum Disorders	Specific Learning Disability	Severely Multiply Impaired
Physically Impaired	Developmental Cognitive Disability	Other Health Disability
Blind/Visually Impaired	Deaf/Hard of Hearing	Traumatic Brain Impairment
Emotional or Behavioral Disorders	Speech or Language Impaired	

INDIVIDUAL EDUCATION PLAN (IEP):

The IEP team shall identify needed accommodations to facilitate student participation in mainstream curriculum requirements. Students with significant disabilities for whom the IEP team determines the regular curriculum is not appropriate will have modified or alternative curriculum. All students will participate in district and statewide assessments for graduation. However, the IEP team determines which assessments are appropriate including if the student will participate in an alternate assessment designed by the state. Students on an IEP will be provided reasonable accommodations to participate in these assessments and the IEP team will set targets to measure student's progress toward graduation. A multi-disciplinary team that includes the parent(s) or guardian(s) of the student will develop an IEP inclusive of transition planning. The IEP will define each student's educational program and graduation requirements. The IEP will be reviewed and revised on a scheduled basis. The amount and type of support will be based upon the student's educational needs as defined by the IEP team.

SECTION 504 ACCOMMODATION:

Students who demonstrate a substantial limitation in a major life function, such as talking, learning or socialization are eligible for an Accommodation Plan. Parents are invited to participate in identification and development of the plan for their child. The plan will describe accommodations which the team has determined to be necessary to allow the student to access instruction. Students who are placed on an Accommodation Plan will participate in state and local assessments. The Accommodation Plan must identify accommodations necessary for the student's participation in the state and district wide assessment.

ENGLISH LEARNERS (EL)

The EL (English Learner) program offers courses to students whose primary language is not English and meet district/state EL program entrance requirements. Courses are designed to support academic language development of ELs at all levels in all four domains: reading, writing, speaking and listening. All EL courses are aligned to WIDA standards.

Arts: Visual & Music

Students are required to take 1 credit (2 courses) of arts to fulfill graduation requirements. Students may take courses from visual arts or music area to fulfill this requirement.

Study in the arts develops a set of skills that are vital to success in the 21st Century. These skills, including critical thinking, problem solving, creativity, innovation, communication, and collaboration, are key to tackling the intellectual and professional challenges that students will face throughout life.

Study in the arts also develops social skills like empathy and cross-cultural understanding that are necessary for engaged citizenship in an increasingly pluralistic Societies and global community. According to celebrated author Daniel Pink, "We urgently need people to think like artists. This is especially important in the work place... Creativity, design and the arts will be the way to prosper and succeed in the new economy."

INTRO TO DRAWING AND PAINTING: 0656

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: This course is designed to challenge students as they develop critical thinking skills by exploring a variety of techniques in two-dimensional art. The development of original ideas and communicating those ideas visually will be emphasized. This course is a hands on introduction to drawing and painting. Students will develop skills in understanding and appreciating art, art history, aesthetics, art criticism, and studio art techniques. Students focus on the elements of art and the principles of design in idea development. The basic goal is to expand the students' art experience through studio art techniques while recognizing the value of art history. Effort and participation are emphasized to foster a positive life-long appreciation for the visual arts. Arts related career exploration will be investigated as we strengthen basic skills needed for many of these careers such as: illustration, design (interior, fashion, product, industrial, and graphic) and architecture.

Possible Career Pathways:

2 Year College degree:

Art Transporter or Handler, Framer, Assistant Art Gallery Director, Display Artist, Museum Technician

4 Year College degree:

Conservator, Museum Curator, Curatorial Assistant, Public Relations (museum, art gallery), Exhibit Designer, Archivist Registrar (museum), Art Therapist, Art Writer/Critic, Art Agent/Consultant, Illustrator, Medical Illustrator, Textile Artist, Arts Editor, Art Director, Greeting Card Designer, Comic Book Artist, Graphic Designer, Book Illustrator, Cartoonist, Police Sketch Artist, Courtroom Sketcher, Forensic Artist, Advertising Designer, School Art Teacher, Fashion Designer, Costume Designer, Exhibit Designer, Art Gallery Director, Display Artist, Historical Preservationist, Motion Picture Scenic Designer, Catalogue Illustrator, CD/Record Cover Designer

INTRO TO CERAMICS & SCULPTURE: 0657

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Students will learn how to utilize the elements of art and the principles of design while experimenting with a variety of materials and construction techniques. Materials may include but are not limited to clay, wire, oragami, and a variety of other three-dimensional art media. The course is designed for students who are building their critical thinking skills as they explore techniques used in creating three-dimensional art. Students will analyze and apply issues related to form and subject as they explore artworks created by contemporary artists. The development of original ideas into artwork that can be used as a form of visual communication in a three-dimensional form will be emphasized. The basic goal is to expand the students' art experience through studio art techniques while recognizing the value of art history. Effort and participation are emphasized to foster a positive life-long appreciation for the visual arts. Arts related career exploration will be investigated as we strengthen basic skills needed for many of these careers such as: potter, studio artist, fabrication and technical related fields.

Possible Career Pathways:

2 Year College degree:

Assistant Art Gallery Director, Display Artist, Mannequin Decorator, Museum Technician, Floral Design

4 Year College degree:

Furniture Designer, Landscape Designer, Architect, Interior Designer, Industrial Designer, Automobile Designer, Product Designer, Packaging Designer, School Art Teacher, Exhibit Designer, Set Designer, Furniture Designer, Toy Designer, Art Gallery Director, Museum Curator, Video Game Art Director, Fashion Designer, Costume Designer, Art Gallery Director, Glass Designer, Display Artist, Historical Preservationist, Display Manager, Architectural Model Builder, Billboard Artist.

ADVANCED DRAWING & PAINTING: 0659

Credit: .5 One Semester

Prerequisite: Foundation Art 2D or Intro to Drawing & Painting

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Advanced Drawing and Painting focuses artistic investigation through thematic units within a global context. Students look at how artists create visual narratives that tell stories to provoke us to reflect on the morals and messages that define our own lives. An emphasis in this course is to develop deeper understanding of art concepts and vocabulary, and continue the important work of learning how to "see," not just look. Another emphasis will be on experimentation –mixing media to push the boundaries of traditional drawing and painting. Critical analysis at every stage of art production will be a focus in each unit. It will be more important to take risks, and document the success and or failure of these personal challenges in student's Developmental Workbooks, than to make "perfect" finished artworks.

Possible Career Pathways:

2 Year College degree:

Art Transporter or Handler, Framers, Assistant Art Gallery Director, Display Artist, Museum Technician

4 Year College degree:

Conservator, Museum Curator, Curatorial Assistant, Public Relations (museum, art gallery), Exhibit Designer, Archivist Registrar (museum), Art Therapist, Art Writer/Critic, Art Agent/Consultant, Illustrator, Medical Illustrator, Textile Artist, Arts Editor, Art Director, Greeting Card Designer, Comic Book Artist, Graphic Designer, Book Illustrator, Cartoonist, Police Sketch Artist, Courtroom Sketcher, Forensic Artist, Advertising Designer, School Art Teacher, Fashion Designer, Costume Designer, Exhibit Designer, Art Gallery Director, Display Artist, Historical Preservationist, Motion Picture Scenic Designer, Catalogue Illustrator, CD/Record Cover Designer

ADVANCED CERAMICS: 0658

Credit: .5 One Semester **Prerequisite:** Foundation Art 3D or Intro to Ceramics & Sculpture

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: This is a repeatable one semester course in ceramics that will give you the opportunity to learn concepts of working with clay. The course focuses on hand building, wheel working, firing, glazing, and the sequence of operations from the raw, wet clay to the fired, decorated three-dimensional piece. Students are encouraged to use their creativity to solve the problems that are presented to them while making ceramic wares both sculptural and functional.

Possible Career Pathways:

2 Year College degree:

Assistant Art Gallery Director, Display Artist, Mannequin Decorator, Museum Technician, Floral Design

4 Year College degree:

Furniture Designer, Landscape Designer, Architect, Interior Designer, Industrial Designer, Automobile Designer, Product Designer, Packaging Designer, School Art Teacher, Exhibit Designer, Set Designer, Furniture Designer, Toy Designer, Art Gallery Director, Museum Curator, Video Game Art Director, Fashion Designer, Costume Designer, Art Gallery Director, Glass Designer, Display Artist, Historical Preservationist, Display Manager, Architectural Model Builder, Billboard Artist.

PHOTOGRAPHY 1: 0664

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Photo 1 is the introductory class in our Media Arts (Photography, Animation and Video) course offerings. It teaches the fundamentals of camera operation, photographic and artistic principals as well as image enhancement using Adobe Photoshop software. Thematic units create the context for historical and cultural investigation. Students develop critical thinking skills as they analyze the artistic expressions of others and the effectiveness of their own work. Throughout this course students consider the influence of Societies in developing photography as an art form, and how photography has in turn changed Societies. Knowledge of photography and the Photoshop application gives students an aesthetic and technical foundation in digital arts media. Possible careers that utilize these lens and computer-based skills include: photographer, animator, graphic designer, art director, video editor, motion picture director, cinematographer, and special effects designer. Canon cameras are provided for student use.

Possible Career Pathways:

2 Year College degree:

Fine Art Photographer, Photojournalist, Industrial Photographer, Scientific Photographer

4 Year College degree:

Fine Art Photographer, Photojournalist, Commercial Photographer, Advertising Photographer, Fashion Photographer, Wildlife Photographer, Travel Photographer, Forensic Photographer, Scientific Photographer, Aerial Photographer (documenting landscapes for boundaries, city planning, and police work), Architectural Photographer, Industrial Photographer, Graphic Designer, Art Director, Video editor, Motion Picture Director, Writer/Critic, School Art Teacher

PHOTOGRAPHY 2: 0665

Credit: .5 One Semester **Prerequisite:** Photography 1

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Photo 2 is an advanced photography and image manipulation course. Students will be exposed to a significant number of historical and contemporary photographers from around the world, and will select those they find the most intriguing for further investigation. They will learn advanced camera operation and photographic techniques while using Nikon DSLR cameras and professional studio lighting. Greater development of student's image manipulation skills using Adobe Photoshop software is also stressed. Through both image capture and editing, an emphasis will be placed on students connecting new ideas to their own developing aesthetic.

Possible Career Pathways:

2 Year College degree:

Fine Art Photographer, Photojournalist, Industrial Photographer, Scientific Photographer

4 Year College degree:

Fine Art Photographer, Photojournalist, Commercial Photographer, Advertising Photographer, Fashion Photographer, Wildlife Photographer, Travel photographer, Forensic Photographer, Scientific Photographer, Aerial Photographer Architectural Photographer, Industrial Photographer, Graphic Designer, School Art Teacher

MEDIA ARTS: ANIMATION: 0667

Credit: .5 One Semester **Prerequisite:** Photography 1

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Follow in the footsteps of Disney, Warner Bros, and Pixar as you learn how to bring your ideas to life. This course focuses on the fundamentals of animation, exploring the best practices of stop-motion and 2-D computer animation. Students take part in individual and group work that culminates in the production of animated films. The first part of the course is devoted to the study of the history of animation. Next students study stop-motion greats Jan Svankmajer, The Brothers Quay and Tim Burton in preparation for their own stop-motion animations. The last part of the course is devoted to exploring 2-D computer animation using Adobe Animate software. Throughout the course, students expand critical thinking skills as they learn to develop an idea, create a storyboard, integrate sound and motion, and assess the effectiveness of their final animations.

Possible Career Pathways:

2 Year College degree:

Animator, Storyboard Assistant, Character Rigger, Modeler, Layout Artist, Illustrator, Concept Artist, Comic Artist, Motion Graphics Artist, Special Effects Animator, Game Designer

4 Year College degree:

Animator, Art Director, Cartoonist, Character Animator, Color Key Artist, Compositing Artist, Concept Artist, Digital Painter, Director, Effects Animator, Film and Video Editor, Forensic Animator, Graphic Designer, Illustrator, Key Animator, Lighting Designer, Stop Motion Animator, Scientific Visualization, Storyboard Artist, Texture Artist, Video Game Designer, Visual Development Artist

MEDIA ARTS: VIDEO PRODUCTION: 0668

Credit: .5 One Semester **Prerequisite:** Photography 1

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: In this semester course, students will study historical and modern media arts with an emphasis on video, TV and film. They will learn to critically view experimental and feature length films, and to understand and apply the vocabulary of video production and filmmaking in intelligent, thoughtful written analysis and discussion. Students will also learn the basics of video production, including storyboarding, camera operation, framing, basic lighting and editing using Adobe Premiere Pro software, and through extensive, hands-on exercises. Throughout the course, students will sharpen their critical thinking skills as they learn to develop an idea, integrate sound and motion, and assess the effectiveness of their resulting movies.

Possible Career Pathways:

2 Year College degree:

Audio and Video Equipment Technicians, Assistant Editor, Broadcast Technician, Camera Operators, Video editor, Media and Communication Equipment Workers, Media and Communication Workers, Multimedia Artist, Production Assistant

4 Year College degree:

Casting Director, Screenwriter, Production Designer, Prop Master, Location Manager, Cinematographer, Line Producer, Television Writer, Film/Motion Picture Director, Television Director, Video Editor, Producer, Associate Producer, Executive Producer, Assistant Production Coordinator, Production Coordinator, Technical Director, Key Grip, Special Effects Designer, Film Writer/Critic, Film Librarian/Archivist

Music

JUMPSTART BAND: 0726

Credit: .5 each semester - 2 Semester Course

Open To: Grade 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Jumpstart Band is the chance for students with no band experience to join the band program. Students will learn the fundamentals and techniques of their chosen band instrument, how to read music, and establish the culture of the music ensemble. Students will also learn how to be a principled and reflective musician through practice. Outside practice will also be expected of students. Students will work their way through methods and skills as a group to prepare them for Varsity Band. Students will also develop performance and communication skills that will transfer into their future careers and lives.

(FEE: Instrument rental fee \$35)

Students signing up for Jumpstart Band will register for Varsity Band (0725) second semester.

MUSIC PRODUCTION 1: 0727

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Music Production is designed for students who have interest in music, but may not have prior musical training. In Music Production, students will explore the intersection of music and technology in today's world. Using the digital audio workstation (DAWS) called Soundtrap, students will learn the basic understanding of how to create digital music compositions. Students will also study the history of recorded music, sampling, sound editing, film music, music in fashion, and careers in the music industry. Students from all levels of musical experience are encouraged to take this class.

MUSIC PRODUCTION 2: 0781

Credit: .5 One Semester

Prerequisite: Music Production 1

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: In this continuation of Music Production 1, the course is designed for students to expand and further their knowledge of the recording process. Students will be given the opportunity to work on producing professional level creations using the exclusive Fridley Music Department Recording Studio. Students will learn to produce industry level audio recordings for various Fridley Departments using the digital audio workstation (DAW) called ProTools. This course is only available to Music Production 1 students interested in pursuing additional training that may lead to professional recording industry advancements.

BEGINNING GUITAR : 0728

Credit: .5 each semester - 1 Semester Course

Open To: Grade 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: Beginning Guitar is the chance for students to learn the basics of playing this popular instrument. Students will learn strumming and picking techniques, as well as how to read musical notation and TAB notation. Students who are self-taught on guitar are also encouraged to join and work on their technique. The FHS Guitar Ensemble will perform at some school and community events during the semester.

VARSITY BAND: 0724, 0725

Credit: .5 each semester - 2 Semester Course

Open To: Grade 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: The Varsity Band is a daily ensemble course focused on developing students' musical abilities through performance and study. Students will enhance their understanding of music history, global and cultural influences, and music theory while refining instrumental techniques, expanding their range, and improving their overall musicianship. The ensemble performs in three concerts and participates in numerous pep band events throughout the year. Additionally, students have opportunities to travel to expand their performance experiences. Assessment is based on active participation in rehearsals, evening performances, group lessons, performance recordings, and written reflections, fostering a comprehensive understanding of music and its performance practices.

CONCERT BAND: 0731, 0732

Credit: .5 each semester - 2 Semester Course

Prerequisite: Audition For 9th & 10th Graders

Open To: Grade 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: The Concert Band is the premier instrumental performing ensemble at Fridley High School, committed to the performance of advanced high school band literature across a variety of styles. This ensemble encourages students to pursue excellence in individual instrumental performance and ensemble collaboration. Concert Band members perform in three concerts annually, alongside numerous pep band events that serve the school and community. Travel opportunities further enhance students' performing experiences. Academic expectations include participation in rehearsals, evening performances, group lessons, performance recordings, and reflective writing, providing students with a robust and challenging musical education.

JAZZ ENSEMBLE: 0733, 0734

Credit: .5 each semester - 1 Semester Course

Prerequisite: Audition

Open To: Grade 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

The Jazz Ensemble is dedicated to the study and performance of jazz in both “big band” and “combo” formats, offering students an in-depth exploration of the genre’s global influences and historical development. Through the study of significant works from classic jazz repertory to contemporary compositions, students will gain insight into the evolution of jazz. The curriculum includes opportunities for improvisation and jazz theory, enabling students to develop their creative and technical skills. The ensemble performs at concerts and community events throughout the academic year, showcasing the works of esteemed jazz composers and arrangers. Participation in either Varsity Band or Concert Band is a prerequisite, ensuring that all students are engaged in a rigorous and comprehensive musical education.

CONCERT CHOIR: 0778, 0779

Credit: .5 each semester - 2 Semester Course

Open to: Grade 9, 10, 11, 12

Graduation Requirement: Meets Arts Requirement

Course Description: The Concert Choir is the largest mixed voice ensemble open to all levels of singers. In this ensemble, students will strive for excellence using their individual voices and building relationships in the choir. Students will actively participate and sing while learning to develop the foundations of a balanced choral sound, effective vocal techniques, music theory, and concert performances. Through experience and exposure, students will also have collaboration opportunities with community events, master classes, and field trips. Grading will be based on participation in rehearsals, individual progress and various performances throughout the year.

STUDIO SINGERS: 0735, 0736

Credit: .5 each semester - 2 Semester Course

Open To: 9, 10, 11, 12

Graduation Requirement: Elective

Course Description: The Studio Singers is an ensemble open to all students who want a more advanced level of singing and explore more contemporary styles used in a professional or studio environment. Students will also learn more contemporary songs that could be performed in a professional setting such as in a studio, a band, on social media, or as solo artists. Students should be comfortable singing in smaller vocal ensembles and willing to learn more independent singing. The Studio Singers will be required to perform at various concerts and community events through the school year. This ensemble runs in tandem with the Concert Choir, and participation in this additional ensemble is strongly encouraged. Grading will be based on participation in rehearsals, individual progress and various concert performances throughout the year.

DP MUSIC SL: (Gr. 11) 0743 (Gr. 12) 0746

Credit: .5 per semester - 1 Semester Course

Open To: Grade 11, 12 who must also be registered for Band or Choir

Graduation Requirement: Meets Arts Requirement

Course Description: In the first year of DP Music SL, students embark on a comprehensive exploration of music as a universal language, engaging with its cultural, historical, and creative dimensions. The course integrates performing, creating, and analyzing music from a wide variety of traditions, ranging from folk and classical repertoire to contemporary works. Through this journey, students deepen their understanding of music as both an art form and a reflection of cultural identity. The curriculum is organized around three core areas. First, in Exploring Music in Context, students investigate music within its historical, social, and cultural frameworks. In Experimenting with Music, they develop their creativity through composing, arranging, and performing, experimenting with innovative techniques and ideas. Finally, Presenting Music provides opportunities to refine their artistry, share performances, and reflect on their musical growth. The second year of IB Music SL builds on the foundational skills and knowledge developed in the first year, inviting students to deepen their engagement with the study and practice of music. This course emphasizes refining technical and creative skills, crafting compositions, preparing performances, and analyzing the connections between diverse musical traditions. DP Music SL offers a transformative experience for students, allowing them to develop as musicians and critical thinkers while connecting with the diverse stories and traditions that shape music around the world.

“College Going” Environment - The atmosphere in the class is motivating and students encourage each other to strive for their goals.

AVID 9:

Credit: .5 each Semester (Must take 2 semesters each year)

PREREQUISITE: Application and Interview. **Coordinator Consent Required**

OPEN TO: Grade 9

GRADUATION REQUIREMENT: Elective

Course Description: AVID 9 is an elective class which seeks to prepare students to do well in college preparatory courses in high school and gain admission to and be successful in college. Students learn strategies for success such as goal setting, time management, Cornell note taking and organization, and develop college awareness through campus visits and guest speakers. The AVID curriculum focuses on WICOR – Writing (expository and timed writing), Inquiry (high level questioning), Collaboration (group projects and tutorials), Organization (subject organization through binders and time management) and Reading (critical reading of a variety of texts).

AVID 10:

Credit: .5 each semester (Must take 2 semesters each year)

PREREQUISITE: AVID 9 or Application and Interview

Coordinator Consent Required

OPEN TO: Grade 10

GRADUATION REQUIREMENT: Elective

Course Description: AVID 10 is an elective class for college-bound students. The AVID curriculum focuses on WICOR – Writing (expository and timed writing), Inquiry (high level questioning), Collaboration (group projects and tutorials), Organization (subject organization through binders and time management) and Reading (critical reading of a variety of texts). In addition to the college readiness skills learned in AVID 9, students in AVID 10 will learn critical thinking strategies including how to recognize propaganda, write persuasive research supported essays, and explore possible careers and colleges.

AVID 11:

Credit: .5 each semester (Must take 2 semesters each year)

PREREQUISITE: AVID 9 or 10 or Application and Interview

Coordinator Consent Required

OPEN TO: Grade 11

GRADUATION REQUIREMENT: Elective

Course Description: AVID 11 is an elective class for college-bound students. The AVID curriculum focuses on WICOR – Writing (expository and timed writing), Inquiry (high level questioning), Collaboration (group projects and tutorials), Organization (subject organization through binders and time management) and Reading (critical reading of a variety of

texts). Students will refine and extend the college readiness skills learned in AVID 9 and 10. Students will narrow their search for a college and career, and writing will focus on effective college application essays. Students will prepare for the ACT and SAT, work through the college admission process, and practice the college interview.

AVID 12:

Credit: .5 each semester (Must take 2 semesters each year)

PREREQUISITE: AVID 9, 10, 11 or Application and Interview.

Coordinator Consent Required

OPEN TO: Grade 12

GRADUATION REQUIREMENT: Elective

Course Description: Students continue to write assignments that may include college admission essays, ACR or other appropriate writing. These fundamental elements of AVID develop the habits of mind necessary for academic success include Goal Setting, Cornell notes, Binders (organizational strategy), Learning Logs (reflection tool), Questioning Skills, Time Management, Transcript/Report Cards/Student Portal, Public Speaking and Presentations, High Level Questioning, Socratic Seminar/Philosophical Chairs and Timed Writing. AVID includes reading strategies that build critical reading and discerning capacity for students including Marking the text, Summarizing, Purpose, and Point of View, Bias, Tone and Comprehension.

AVID SCHOLAR ATHLETES

Credit: .5 each semester (Must take 2 semesters each year)

PREREQUISITE: AVID 9, 10, 11 or Application and Interview

Coordinator Consent Required

OPEN TO: Grade 10, 11, 12

GRADUATION REQUIREMENT: Elective

Course Description: AVID Scholar Athletes is an elective course designed to help student-athletes develop the skills they need to be successful in academics and athletics. The course will place emphasis on growing writing, critical thinking, organization and reading skills. Students will engage in classroom discussions and presentations to grow their confidence and communication skills. In addition, the class will focus on developing resilience and strong leadership skills by exploring sport psychology and physical fitness through intense workouts. Each semester will focus on a different book study geared towards character building and personal enhancement as a student and athlete to prepare them for college and career readiness.

Career & Technical Education (Design)

BUSINESS

It is essential for students to gain skills in business, marketing, and computer competencies for today's ever changing societies. Functional business knowledge and technology skills lead to opportunities and success in life. Courses offer career awareness and skills which encourages viable career choices and employability in a variety of business careers. Students will have the knowledge and skills to manage personal and professional financial resources effectively.

Possible Business Courses:

Microsoft Word
Personal Finance
Entrepreneurship
Marketing
Computer Applications
Accounting 1 and 2
DP Business Management

MICROSOFT WORD: 0504

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: Students will increase their speed and accuracy as they learn to create, edit, and format professional-looking documents. Students will get to create documents such as business letters, resumes, print advertisements, tables, newsletters, and reports. Using such features as headers and footers, design tools, styles, outlines, fonts, graphics, and templates, students will enhance and improve these documents. Tables, charts, and columns will help organize text in documents. The technical knowledge and skills you acquire are essential for you to communicate in our global world. *Students in grades 10-12 may earn college credit at Community Colleges in the area upon successful completion of this course.*

Career Pathways for students taking Microsoft Word:

Information Technology, Marketing, Communications.

COMPUTER APPLICATIONS: 0505

Credit: .5 One Semester

Prerequisite: Microsoft Word

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: Computer Applications is designed to familiarize students with computers and their applications. It will also emphasize the use of computers and technology throughout their high school, college, and future careers. Students will learn fundamental concepts of computer hardware and software and become familiar with a variety of computer applications, including Microsoft Word, PowerPoint, Excel, Publisher, Canva, compatible Google Applications and Outlook. Students will also investigate Internet-based applications, working with email and learning how to browse the web. Students will use these programs to acquire the technical knowledge and skills that are essential for you to communicate in our global world. *Students may earn college credit at Community Colleges in the area upon successful completion of this course.*

Career Pathways: Information Technology, Marketing, Communications

ENTREPRENEURSHIP: 0524

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: Students will develop knowledge of the issues involved in starting, operating, and succeeding in a small business. They will investigate the entire process from its first thought through opening day and finally to the day they sell. Students will learn the advantages and disadvantages of owning their own business and being their own boss. You will learn to make decisions that will help you achieve success in our domestic and global economy. Entrepreneurs from the community will speak to the class and field trips may be planned. *Students may earn college credit at Community Colleges in the area upon successful completion of this course.*

Career Pathways: Entrepreneurship, Management

MARKETING: 0522

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: This course will operate and make final decisions for the school store: Tiger's Den. Marketing is a unique and innovative course designed for students with an interest in the advertising industry. This course stresses the utilization of fundamental marketing concepts. Marketing strategies along with topics in sponsorship, pricing, market research, endorsements, and promotions will be part of this course. This course offers students the edge of pursuing marketing degrees on the collegiate level.

Students may earn college credit at Community Colleges in the area upon successful completion of this course.

Career Pathways: Marketing

ACCOUNTING 1: 0520

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Design Elective

Course Description: This course covers accounting for a service-based business organized by one owner. Accounting lays the foundation for a career in business. Students will learn to record business transactions, determine cash flow and understand annual reports. Students will use Google Spreadsheets to complete simple transactions. Guest speakers will talk about careers in the accounting field. Accounting practices are worldwide and will provide a framework for you to understand the language of business. **Students may earn college credit at Community Colleges in the area upon successful completion of this course.**

Career Pathways: Finance, Management, Accounting

ACCOUNTING 2: 0521

Credit: .5 One Semester

Prerequisite: Accounting 1

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: Accounting 2 is a continuation of the principles learned in Accounting 1, with a look at international accounting practices and what it means to serve a global customer base. This course covers accounting for a merchandising business, organized as a corporation. Students will have the opportunity to learn automated accounting through the use of Google Spreadsheets. Students will also learn about career opportunities (the FBI is the nation's largest employer of CPAs) and prepare a case study. It is best to take Accounting 1 and 2 in the same school year, but not mandatory. **Students may earn college credit at Community Colleges in the area upon successful completion of this course.**

Career Pathways: Finance, Management, Accounting

PERSONAL FINANCE: 0525

Credit: .5 One Semester

Open To: Grade 10

Graduation Requirement: Required

Course Description: Along with other life skills, you need financial "smarts." Saving and investing, spending money wisely, managing debt—these are all so important to building a successful future. A nationwide survey found that more students drop out of college due to credit card debt than to academic failure. Seventy-five percent of college graduates acknowledged they were not prepared to manage money their freshman year and admitted to making financial mistakes. Students will also look at purchasing cars, getting that first apartment and managing credit. Students will also participate in a stock market game to learn basic concepts of investing.

Career Pathways: Finance

DP BUSINESS MANAGEMENT

SL: 0511, 0512

Credit: .5 each semester

(Both semesters recommended)

This is a 1-Year Course

Prerequisite: Marketing, Entrepreneurship, or Full DP

Open To: Grades 11, 12

Graduation Requirement: Elective

Course Description: The aims of the Business Management Programme at the standard level include investigation of business issues from differing cultural perspectives and promotion of students' abilities to think critically and make decisions through a holistic view of business. Students will understand topics such as Economics, Human Resource Management, Marketing, Accounting, and Operations Management in a holistic, worldly view. Students will demonstrate knowledge and understanding of business terminology, concepts, and principles while taking into consideration social, cultural and ethical factors. Students will translate concepts, skills and knowledge into real-world application in the business environment.

Students may earn college credit at Community Colleges in the area and other Universities upon successful completion of this course. Anywhere from 2 – 12 credits have been awarded!

Career Pathways Covered: Business Management, Marketing, Finance, Manufacturing, HR

FAMILY AND CONSUMER SCIENCES

Family and Consumer Sciences Programs (FACS) prepare students for important roles in individual lives and in societies. FACS empowers individuals and families across the lifespan to manage the challenges of living in a diverse and global community. FACS integrates math, reading, communication skills, organizational skills and work readiness into each of our classes. Students may earn college credit at community colleges in the area and other universities upon successful completion of Fundamental of Food Prep and Culinary Foods.

CHILD & HUMAN DEVELOPMENT: 0824

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: The purpose and aim of this course is designed to help students understand the development of a child from conception to school-age years, focusing on the areas of physical, intellectual, social-emotional, and moral development and how each of these components can affect a child's development. This course will explore characteristics of children at different ages, children's developmental needs, and the foundation of early childhood education. This course is designed to help students understand how to work with and care for children as a parent and as someone who works in the careers of early childhood education.

FUNDAMENTALS OF FOOD PREPARATION: 0825

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description: The purpose of this course is to introduce students to the basics of food preparation including safety and sanitation, proper measuring, parts of a recipe, knife skills, and various cooking methods. Through this course students will have the opportunity to use basic culinary skills to prepare students for careers in the field of culinary arts. Students will also receive the ServSafe Certification through a variety of hands-on labs, students will work with team members to develop their kitchen skills by cooking a number of recipes that incorporate foods from all areas of MyPlate.

CULINARY FOODS: 0826

Credit: .5 One Semester

Prerequisite: Fundamentals of Food Preparation

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Design Requirement

Course Description:

The purpose and aim of this course is designed to reinforce and further enhance the food preparation skills developed in Foods 1. Through this course, students will study advanced preparation

techniques and culinary skills by understanding the chemical changes that take place during preparation of baked goods. Students will also enhance their techniques and skills through various classroom lab experiences. Students will also research and investigate into food businesses leading to the designing, planning, and preparing of their own food truck business. ServeSafe Certification will be offered through this course where they will receive a national industry recognized certificate that can be used in obtaining a food service job.

FOUNDATIONS OF EDUCATION: 0429

Credit: .5 One Semester

Open To: Grades 11, 12

Graduation Requirement: Elective

Course Description: This course introduces potential teacher education students to the professional educational community and to the role school plays in society. This course will provide an introductory framework allowing students to become conversant with the culture of schools in the United States of America. The material covered will include information for students who are considering teaching as a future career or for those who simply wish to learn more about key educational issues. Requires a 30-hour field experience.

Career & Technical Education (Design)

TECHNOLOGY

The Technology Education Department provides problem-based learning for all students utilizing tools, machines, materials, and systems of technology. These hands on experiences prepare students for either post-secondary education or to enter the workforce.

Graphic Design and Printing Technologies Pathway	
<p>This pathway includes occupations involved in prepress, press and binding, or post-press processes. Workers might transform text and pictures for printing plates, or use digital technology for graphics, layout or printing. Includes operating and maintaining equipment or computers used in printing process.</p>	<p>Courses for this Pathway</p> <p>0918 Web Design (elective) 0921 Graphic Arts Technology</p>

Possible Careers: Illustrators and Animators, Graphics Designers and Computer Artists, Commercial Photographer, Textile Designer, Interior Designer, Graphic Designer, Set Designer, Press Operator, Prepress Technician

Programming and Software Development Pathway	
<p>This pathway includes occupations involve the design, development, implementation and maintenance of computer systems and software, requiring knowledge of computer operating systems, programming languages and software development.</p>	<p>Courses for this Pathway</p> <p>0918 Web Design 0913 Intro. to Computer Science 0911 A+ Programming- Hardware 0912 A+ Programming- Software</p>

Possible Careers: Software Applications Architect, Operating Systems Designer/Engineer, Computer Programmer, Game Programmer, Network Administrator, Web Designer, Webmaster

Construction Pathway	
<p>This pathway includes workers who build and remodel homes, or community, recreational, industrial and office facilities. Includes builders of highways, streets, bridges, tunnels and airports.</p>	<p>Courses for this Pathway</p> <p>0923 Woodworking Technology 0924 Advanced Woodworking Technology 0925 Home Repair</p>

Possible Careers: Carpenter, Education and Training Director, Electrician, General Contractor, Iron/Metalworker, Pipe Fitter, Project Inspector, Project Manager, Safety Director

WEB DESIGN: 0918

Credit: .5 One Semester
Open to: Grades 9, 10, 11, 12

Course Description: This is a computer-based course which will teach you multimedia technologies used worldwide. Students will learn how to program web pages using HTML and CSS.

GRAPHIC ARTS TECHNOLOGY: 0921

Credit: .5 One Semester
Open to: Grades 9, 10, 11, 12

Course Description: Graphic Arts students will learn about the digital media on the world stage to create art and supply information. Using computers, image generating/altering software, scanners, digital cameras, design principles and processes, students will create products in computer imagery and desktop publishing.

INTRODUCTION TO COMPUTER SCIENCE: 0913, 0914

Credit: .5 each semester - 2 semester Course
Open to: Grades 09, 10

Course Description: Upon completing this course students will have gained a solid background in computing hardware and software, networks, programming languages and applications. Students will be exposed to various programming languages.

WOODWORKING TECHNOLOGY: 0923

Credit: .5 One Semester
Open to: Grades 9, 10, 11, 12

Course Description: In this course, students will develop an appreciation for, and gain experience, in woodworking. Through guided instruction students will learn about shop safety, tool identification, project planning, the design cycle, operating tools and machinery, and joinery. Students will be given the opportunity to use the design cycle to create individual projects and utilize power equipment after they have passed all safety tests and successfully completed required projects. (Students will be assessed a lab fee to cover the cost of their woodworking projects).

ADVANCED WOODWORKING TECHNOLOGY: 0924

Credit: .5 One Semester
Prerequisite: Woodworking Technology
Open to: Grades 10, 11, 12

Course Description: This course is a more in-depth look into the design cycle of woodworking. Students will design personal projects and a mass production project. Students will understand the parts and processes of: building materials, bill of materials, power equipment, prototyping, mass producing, jigs and fixtures. (Students will be assessed a lab fee to cover the cost of their woodworking projects).

HOME REPAIR: 0925

Credit: .5 One Semester
Open to: Grades 9, 10, 11, 12

Course Description: The course Home Repair is designed to develop your skills in problem solving steps for fixing and maintaining residential properties. Students will gain a basic understanding of building processes and the differences in building designs in different environments around the world. Students will learn about the different building materials properties and global impacts. Students will understand building codes and what health issues could arise if they are not followed.

A+ PROGRAMMING – SOFTWARE & HARDWARE: 0911, 0912

Credit: .5 each semester - 2 semester Course
Open to: Grades 11, 12

Course Description: This course will provide students with practice knowledge of personal computer hardware needed to provide technical support to computer users- Windows Operating System (OS) configuration, software installation and utility management. Students will acquire many of the hardware skills necessary for the CompTIA A+ certification.

Career & Technical Education (Design)

WORK BASED LEARNING

According to the Minnesota Department of Education, Work-based learning (WBL) is formalized learning with instruction occurring at the school and at a community-based setting with an employer in the local area. Work-based learning is a collaborative endeavor between a student, their parent/guardian, an employer, and the school that engages students in real-world activities. Through school involvement and defined learning, students have the opportunity to earn school credit for the supervised WBL.

WORK EXPERIENCE SEMINAR: 0926

Credit: .5 One Semester

Open to: Grades 10, 11, 12

Course Description: This course would prepare students to participate in a work based learning program in the high school for credit. This can be used to allow students to explore career options, learn soft skills needed for workplace success and lay the groundwork for their future work experience. Students work through a variety of topics based on entry-level skills such as, applying for a job, managing life and work, interview basics, safety and labor law decision making skills, and employability skills that will help create a foundation for independence.

WORK EXPERIENCE INTERNSHIP: 0927

Credit: .5 One Semester

Prerequisite: Successful Completion of Work Experience Seminar

Open to: Grades 11, 12

Course Description: Internship allows student to gain exposure to all facets of the industry through working at a worksite with the employer.

PERSONAL & PROFESSIONAL SKILLS: 0043

Credit: .5 - One Semester

Open To: Grades 11, 12

Prerequisite: Both semesters are required for the IB CP

Graduation Requirement: Elective

Course Description: This course is open to all students in grades 11 and 12, and is required for students completing the IB Career-Related Programme (CP). It is designed for students to develop attitudes, skills and strategies to be applied to personal and professional situations. The emphasis is on skills development for the workplace. The five themes for this course are: personal development, intercultural understanding, effective communication, thinking processes, and applied ethics. The course is taught within the contexts of the career pathways of the CP.

Individuals & Societies (Social Studies)

A purpose of social studies education is to inspire and prepare students to be responsible, respectful and productive citizens in a democratic societies with a complex and dynamic interdependent world. Through the integrated study of social studies disciplines, students will acquire the knowledge, skills, and perspectives necessary to become lifelong learners and willing participants in the democratic process.

Through successful completion of all required Individuals & Societies courses, students will have fulfilled the Minnesota graduation requirement in Social Studies.

Individuals & Societies (Social Studies) Pathways

WORLD HISTORY 9: 0400, 0401

Credit: .5 each semester - 2 semester course

Open To: Grade 9

Graduation Requirement: Required

Course Description: This course is designed as an introduction to the history of the world, focusing on the influence of geography in shaping world events. Major eras of history will be examined to determine how they influence various parts of the world.

HUMAN GEOGRAPHY: 0404

Credit: .5 one semester- each year

Prerequisite: US History

Open To: Grade 10

Graduation Requirement: Required

Course Description: This Human Geography course engages students in an in-depth exploration of the spatial and cultural dimensions of the world we live in. Through a focus on key geographic concepts, tools, and critical thinking skills, students will analyze global issues, evaluate cultural and demographic patterns, and examine how human activities interact with the environment. The course incorporates geospatial technologies to help students visualize and solve geographic problems, using tools such as maps, graphs, and models.

BASIC LAW: 0412

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Elective

Course Description: Basic Law will develop knowledge of an individual's personal rights and obligations and helps students to recognize the importance of laws. Topics to be studied will include History of the Law, Law and the Citizen, Juvenile Law, Criminal Law, Tort Law, Contract Law, and our Court System.

PSYCHOLOGY: 0413

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Elective

Course Description: Using a mixture of reading, lecture, video, experiments and demonstrations, the course will examine a broad survey of basic concepts, issues, theories, classic experiments and new discoveries in the field of psychology. In Psychology 1, the focus of studies will be altered states of consciousness (sleep, dreams, hypnosis, and the near-death experience), learning, memory, personality, and child and adolescent development.

AMERICAN INDIAN CULTURE AND LANGUAGE: 0415

Credit: .5 One Semester

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Elective

Course Description: This course provides an exploration of the rich and diverse cultures, histories, contemporary issues, and languages of the indigenous peoples of North America, collectively referred to as American Indians or Native Americans. The curriculum is designed to foster an understanding of Native American experiences and appreciation of the interconnectedness between language, culture, and identity within various indigenous communities.

DP History HL:

(YEAR 1 Gr: 11) 0424, 0425

(YEAR 2 Gr: 12) 0427, 0428

Credit: .5 each semester

(Must take both Semesters each year) This Is A 2-Year Course

Open To: Grades 11, 12

Graduation Requirement: Meets requirement

Course Description: DP History HL will emphasize an understanding of major historical events in a global context. The analysis of primary source material helps us understand how people of different backgrounds experienced and viewed historical events. The course will include the historiography of major events in order to show how events have been interpreted differently by new generations of historians, allowing students to see how culture impacts the recording of the past. This course will also promote international understanding and intercultural awareness that will assist students in becoming global citizens through comparative regional studies and the inclusion of viewpoints, histories, and sources from the people or nation being studied and/or diverse viewpoints. Throughout this course, students will conduct historical research, analyze primary source documents, defend original historical interpretations in essays, draw comparisons, participate in debates, and evaluate a variety of history texts and essays that interpret people and events in radically different ways and from diverse perspectives. Diploma tests will be on: Great Depression in the Americas, The Cold War, Rights and Protest, Authoritarian States (20th Century), Political Developments in the United States (1945-1980) and Canada (1945-1982).

SOCIOLOGY: 0418

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Elective

Course Description: Sociology is the study of the developmental and organizational issues in Societies. This introductory course will help you gain a new understanding of human behavior and social relations in everyday life. Looking at the world through the sociologist's point of view can be an exciting and global adventure. It also provides the students with a comprehensive study of the basic concepts, principles, and practices of sociology. Deviance, adolescence, cultural and social issues, and family structure will be looked at as we explore issues in our diverse societies.

WORLD RELIGIONS: 0419

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Elective

Course Description: The World Religions course is an integral part of promoting international understanding. Students are given an exciting opportunity to study the world's major faith traditions and their impact upon the lives, attitudes, and values of the various communities of believers. Topics include: Hinduism, Buddhism, Islam, Judaism, and Christianity. This course will be about the study of religions; it will not promote religious beliefs.

WORLD HISTORY 11: 0405, 0406

Credit: .5 each semester - 2 semester course

Prerequisite: Human Geography and Personal Finance

Open To: Grade 11

Graduation Requirement: Required

Course Description: This course is designed as an introduction to the history of the world, focusing on the influence of geography in shaping world events. Major eras of history will be examined to determine how they influence various parts of the world.

ABNORMAL PSYCHOLOGY: 0430

Credit: .5 One Semester

Open To: Grades 10, 11, 12

Graduation Requirement: Elective

Course Description: Using a mixture of reading, lecture, video, experiments and demonstrations, the course will examine a broad survey of basic concepts, issues, theories, classic experiments and new discoveries regarding abnormal psychology, social psychology (how others influence our thinking and behavior) and motivation.

ECONOMICS: 0421

Credit: .5 One Semester

Open To: Grade 12

Graduation Requirement: Required

Course Description: This course introduces students to the fundamental principles of both microeconomics and macroeconomics, focusing on how individuals, businesses, and governments make economic decisions in a world of scarcity. In the microeconomics portion, students will examine topics such as supply and demand, market structures, consumer choice, production, costs, and the role of competition. Emphasis is placed on real-world examples to help students understand how prices are determined and how markets function at the individual and firm level. The macroeconomics portion explores the economy as a whole, including national income, economic growth, unemployment, inflation, fiscal and monetary policy, and the role of government in stabilizing the economy.

AMERICAN GOVERNMENT: 0420

Credit: .5 One semester

Open To: Grade 12

Graduation Requirement: Required

Course Description: This course is designed to provide students with an understanding of the American political system including the U.S. Constitution, federalism, mass media, political parties, interest groups, the presidency, Congress, federal bureaucracy, the courts, civil liberties, civil rights, and more. This course emphasizes essential civic skills such as communication, research, critical thinking, and informed decision-making. Students will engage in discussions, debates, document analysis, and real-world simulations to develop the knowledge and skills necessary for responsible citizenship and active civic participation.

ARCC AMERICAN GOVERNMENT: 0417

Credit: .5 One semester

Open To: Grade 12

Graduation Requirement: Required

Course Description: While both American Government courses utilize the same curricular framework, the ARCC course will utilize higher-level readings and additional assessments. Students will also be expected to complete more independent work outside of the classroom. As a concurrent enrollment course, students must meet the criteria established by Anoka Ramsey Community College including at least a 2.6 GPA to be eligible for college credit.

ETHNIC STUDIES: 0405

Credit: .5 One semester

Open To: Grades 10, 11, 12

Graduation Requirement: Meets elective requirement

Course Description: Ethnic Studies is an interdisciplinary elective course that invites students to examine identity, culture, heritage, and community through the lens of power, history, and social systems. Centering the voices, stories, and lived experiences of historically marginalized communities in the United States, students explore how race, ethnicity, culture, and intersecting identities shape individual and collective experiences. Throughout the course, students analyze systems of oppression and resistance, while also highlighting the resilience, contributions, and leadership of diverse communities. Through critical inquiry and dialogue, students build self-awareness, respect for differences, and an understanding of advocacy and civic engagement as tools for creating a more equitable society.

Language & Literature (English)

All students must complete four years of English, which satisfies their Minnesota graduation requirement. Throughout a student's experience in English class, there will be opportunities to practice and refine communication skills in the areas of reading, writing, speaking, listening, viewing, and presenting.

English

Grades 9 and 10

IB Middle Years Programme Language and Literature 9 & 10

Completion of MYP Language and Literature prepares students for the Diploma Programme curriculum

LANGUAGE & LITERATURE 9: 0010, 0011

Credit: .5 each semester - 2 semester course

Open To: Grade 9

Graduation Requirement: Required

Course Description: By utilizing the MYP Language and Literature curriculum, students will develop an appreciation of the nature of language and literature, of the many influences on language and literature, and of its power and beauty. They will be encouraged to recognize that proficiency in language is a powerful tool for communication. Furthermore, language and literature incorporates creative processes and encourages the development of imagination and creativity through self-expression. Texts from a variety of cultures will be studied to give students the opportunity to improve their analysis skills in both oral and written assessments.

Grades 11 and 12

IB Diploma Programme Language and Literature Standard Level (SL) or Higher Level (HL)

Students take IB DP exams in May of their senior year, which can result in a certificate that could be used as a college credit. For SL students, exams are optional; for HL students, exams are required

LANGUAGE & LITERATURE 10: 0016, 0017

Credit: .5 each semester - 2 semester course

Open To: Grade 10

Graduation Requirement: Required

Course Description: By utilizing the MYP Language and Literature curriculum students will develop an appreciation of the nature of language and literature, of the many influences on language and literature, and of its power and beauty. They will be encouraged to recognize that proficiency in language is a powerful tool for communication. Furthermore, language and literature incorporates creative processes and encourages the development of imagination and creativity through self-expression. Texts from a variety of cultures will be studied to give students the opportunity to improve their analysis skills in both oral and written assessments.

DP LANGUAGE AND LITERATURE 11: 0022, 0023

Credit: .5 each semester – 2 semester course
(This is Year 1 of a two year course)

Open To: Grades 11

Graduation Requirement: Required

Course Description: By utilizing the DP Language and Literature curriculum, students will develop skills of textual analysis for both “literary” and “non-literary” texts. An understanding of the ways in which formal elements are used to create meaning in a text is combined with an exploration of how that meaning is affected by the “circumstances of production and reception.” A key aim of this course is to encourage students to question the meaning generated by language and texts, which, it can be argued, is rarely straightforward and unambiguous. A wider aim of the course is the development of an understanding of “critical literacy” in students. As students progress through this course of study, they will be assessed on their understanding of the texts studied through oral and written commentaries, presentations, essays, group projects, journals, and participation in Socratic seminars.

DP LANGUAGE AND LITERATURE 12 STANDARD LEVEL (SL): 0028, 0029

Credit: .5 each semester – 2 semester course

Open To: Grades 12

Graduation Requirement: Required

Course Description: This class will build on the work done during English 11. Students will continue to develop and deepen skill so textual analysis for both “literary” and “non-literary” texts. SL students have the option to take the DP exam and can register in the fall of their senior year. The exam fee is \$35. If you have any questions please speak to your English teacher, your dean or the Diploma Programme coordinator. While both SL and HL utilize the same curricular framework, the HL class will study more texts, complete more assessments, and students will be expected to do more independent work outside of the classroom.
(\$35 DP Exam Fee)

DP LANGUAGE AND LITERATURE 12 HIGHER LEVEL (HL): 0047, 0048

Credit: .5 each semester – 2 semester course

Open To: Grades 12

Graduation Requirement: Required

Course Description: While both SL and HL utilize the same curricular framework, the HL class will study more texts, complete more assessments, and students will be expected to do more independent work outside of the classroom. Students will register for DP exams in the fall of their senior year, and the exam fee is \$35. If you have any questions please speak to your English teacher, your dean or the Diploma Programme coordinator. **(\$35 DP Exam Fee)**
* As a concurrent enrollment course, students must meet the criteria established by Anoka Ramsey. In addition to the HL Language and Literature content, this course is an introduction to academic writing at the college level. Course content includes the processes of reading and writing, essential composition and research skills, and critical reasoning in various situations. The course requires effectively reasoned and supported essays.

THEORY OF KNOWLEDGE: (Gr. 11) 0051 (Gr. 12) 0052

Credit: .5 - One Semester Each Year

Prerequisite: Both semesters are required for the IB Diploma Candidates. In order to take the second semester, students must successfully complete the first semester.

Open To: Grades 11, 12

Graduation Requirement: Elective

Course Description: This course asks students to reflect on their experiences as learners and to make connections between academic courses and the outside world through the examination of knowledge questions. Students will examine the nature of knowledge and how it is constructed by exploring Areas of Knowledge and the various Ways of Knowing in order to understand the relationship between personal knowledge and shared knowledge. Students will develop an understanding of why critically examining knowledge is important, be able to evaluate beliefs and knowledge claims, and realize that acquisition of knowledge places responsibilities on the knower.

*Theory of Knowledge is a Core Requirement for Full Diploma Candidate Students and is taken in addition to the 3 HL and 3 SL required courses.

Language Acquisition (World Languages/EL)

Course Offerings include: Chinese, Spanish & Services for English Language Learners

As we prepare students to work in an increasingly global economy, learning another language offers our students several benefits. Research shows that the learning of another language: 1.) enhances career opportunities; 2.) benefits higher order, abstract, and creative thinking; 3.) promotes cultural awareness and competency; 4.) helps students score higher on standardized tests such as the ACT and SAT; 5.) improves students' chances of college acceptance, achievement, & attainment; 6.) benefits academic progress in other subject areas.

SPANISH 1: 0109, 0110

Credit: .5 each semester - 2 semester Course

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Language B requirement

Course Description: This is an introductory language and culture course with written texts, multimedia and oral practice. Students will demonstrate an ability to converse, read, and write in the target language at a basic level about such topics as: themselves, friends, home and family, school, sports, shopping, food, time and weather. Basic grammatical structure will be introduced. This course is not recommended for native Spanish speakers.

SPANISH 2: 0111, 0112

Credit: .5 each semester - 2 semester Course

Prerequisite: Spanish 1

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets Language B requirement

Course Description: This is a course to strengthen and build the language skill areas: reading, writing, speaking, listening and culture. Students will demonstrate an ability to converse, read, and write with increased vocabulary and structures in the target language about topics such as: foods and restaurants, stores and shopping, home, monetary systems and travel. This course is not recommended for native Spanish speakers.

SPANISH 3: 0115, 0116

Credit: .5 each semester - 2 semester Course

Prerequisite: Spanish 2

Open To: Grades 9,10,11,12

Graduation Requirement: Meets Language B requirement

Course Description: A more advanced course, Level 3 is conducted mainly in the target language, with an emphasis on reading, writing and conversation. Students will demonstrate the ability to use the target language to read short authentic texts, produce increasingly complex writings, and participate in extended conversations. Topics are schools, daily routine, special events, community, and childhood. This is the recommended starting course for native Spanish speakers.

SPANISH 4: 0117, 0118

Credit: .5 each semester - 2 semester Course

Prerequisite: Spanish 3

Open To: Grades 10, 11, 12

Graduation Requirement: Meets Language B requirement

Course Description: This is an intensive, rigorous course for students who plan to take college-level language, including College in the Schools or IB-Diploma Courses. This course is conducted mainly in the target language and emphasizes composition, conversation, reading of authentic texts, and advanced grammar topics. Students will demonstrate the ability to use the target language at an advanced level for reading, writing, and oral communication. Topics are travel, television and cinema, food, and history of Mexico.

SPANISH 5: DP SPANISH SL (YR 1):
0094,0095

SPANISH 6: DP SPANISH SL (YR 2):
0096, 0097

Credit: .5 each semester - 2 Semester Course each year
Prerequisite: Spanish 4
Open To: Grades 11, 12
Graduation Requirement: Meets Language B requirements

Course Description: In this course, we will use a variety of authentic materials to explore important topics relating to intercultural understanding, respect, internationalism, and diversity. We will examine the topics with regard to students' personal lives as well as to the global community.

Competence will be practiced and assessed in the four primary language skills: listening, reading, writing, and speaking. The development of each language skill involves these three areas: language (grammar skills are practiced in context,) cultural interaction (selecting language appropriate to a particular cultural and social context,) message (understanding ideas and how they are organized in order to communicate appropriately.) Spanish B (SL) is conducted entirely in Spanish. **(Fee: \$35 DP Exam Fee)**

CHINESE 1: 0140, 0141

Credit: .5 each semester - 2 semester Course
Open To: Grades 9, 10, 11, 12
Graduation Requirement: Meets Language B requirement

Course Description: This is an introductory course designed for beginners. Students will learn about hieroglyphics and Origin Stories relating to Chinese characters and the pinyin system. They will begin to explore Chinese culture. Written texts, multimedia, speaking practice, cultural projects, and a field trip are included in this course to provide an authentic learning environment. Students will develop basic listening, speaking, reading, and writing skills.

CHINESE 2: 0142, 0143

Credit: .5 each semester - 2 semester course
Prerequisite: Chinese 1
Open To: Grades 9, 10, 11, 12
Graduation Requirement: Meets Language B requirement

Course Description: This course is an extension of the content of the Chinese 1 course. We will cover topics such as greetings, family, pets, careers, and time. Written texts, multimedia, speaking practice, cultural projects, and a field trip are included in this course to provide an authentic learning environment. Students will begin to strengthen their language skills. They will be able to look up words in a Chinese dictionary independently, converse, read, write a short essay, improve their listening comprehension skills, and apply basic grammar and sentence structures.

CHINESE 3: 0144, 0145

Credit: .5 each semester - 2 semester Course
Prerequisite: Chinese 2
Open To: Grades 9, 10, 11, 12
Graduation Requirement: Meets Language B requirement

Course Description: Chinese 3 is a mid-level course. More language learning strategies will be applied in this course so that students can learn more effectively. This course is conducted mostly in Chinese to emphasize communication and literacy. Students will be able to talk about daily life, including weather, daily routines, hobbies, school life, and community. Discussions of both Chinese and American culture will foster open-mindedness. Students will demonstrate the ability to use Chinese to interact with more content, such as reading authentic texts and producing several types of writing such as descriptive essays, diaries, and letters.

CHINESE 4: 0146, 0147

Credit: .5 each semester - 2 semester Course
Prerequisite: Chinese 3
Open To: Grades 9, 10, 11, 12
Graduation Requirement: Meets Language B requirement

Course Description: Chinese 4 teaches more practical uses of Chinese. The course promotes task-based language acquisition, so students will use Chinese to interact with classwork and their peers. Chinese 4 emphasizes deep self-reflection and intercultural understanding. Students will learn about topics such as shopping, currency, color and personality in Chinese opera, transportation, and travel. The students will demonstrate their ability to use Chinese through interaction, reading, and writing. We offer University of Minnesota college credit to juniors and seniors taking this class. Students in this course will prepare for IB-Diploma Courses and higher-level University of Minnesota College courses.

CHINESE 5: DP MANDARIN CHINESE:
(YEAR 1) 0104, 0105

CHINESE 6: DP MANDARIN CHINESE:
(YEAR 2) 0106, 0107

Credit: .5 each semester -2-semester each year

Prerequisite: Chinese 4

Open To: Grades 11, 12

Graduation Requirement: Meets Language B requirements

Course Description: Chinese 5 represents a marked increase in difficulty from previous levels of Chinese. The topics covered required a greater dexterity of language use. And, because of that, the requirements of the course are more demanding. Students are expected to put in more hours studying and to learn more material. Nonetheless, like the other courses, the fundamentals of Chinese are underscored. Historical topics are contemporary and include some of the most controversial issues debated in China today: media censorship, the rule of law, and human rights, among others.

Chinese 6 is really a continuation of Chinese 5. The expectations are high and the content rigorous. Capping off Chinese 6 is the IB Ab Initio examination, a college-level test administered by the IB Office that tests all the materials taught in levels 1-6. Students will study every week of the year for this examination, from when school begins in September until the test is administered in May. Aside from the Ab Initio test, little differs from Chinese 6 and Chinese 5. The fundamentals of the language are stressed; contemporary historical topics are discussed; and a semester project is researched and presented. **(Fee: \$35 DP Exam Fee Ab Initio or SL)**

ENGLISH LANGUAGE ACQUISITION 1: 0150, 0151

Credit: .5 each semester - 2 semester Course

Prerequisite: Placement

Open To: Teacher Placement

Graduation Requirement: Meets Language Acquisition Requirement

Course Description: This course is designed to develop and improve students learning of the English language. The goal is to help students build the confidence and skills needed to communicate effectively in everyday life, academic settings, and professional environments. Other essential beginning skills will be covered such as reading, writing, speaking and listening.

ENGLISH LANGUAGE ACQUISITION 2: 0162, 016

Credit: .5 each semester - 2 semester course

Prerequisite: Placement

Open To: Teacher Placement

Graduation Requirement: Meets Language Acquisition Requirement

Course Description: This course is designed to develop and improve students learning of the English language. The goal is to help students build the confidence and skills needed to communicate effectively in everyday life, academic settings, and professional environments. Other essential beginning skills will be covered such as reading, writing, speaking and listening.

SHELTERED EARTH AND SPACE SCIENCE: 0305,

Credit: .5 each semester - 2 semester course

Prerequisite: Placement

Open To: Teacher Placement

Graduation Requirement: Meets Sciences Requirement

Course Description: This course is designed for EL students to study the basic laws of nature including: motion, force, energy and work, momentum, electric charges, and electric currents. This is a lab-oriented course with emphasis on collection and interpretation of lab data.

SHELTERED WORLD HISTORY: 0400, 0401

Credit: .5 each semester - 2 semester course

Prerequisite: Placement

Open To: Teacher Placement

Graduation Requirement: Meets Individuals & Societies Requirement

Course Description: This course focuses on providing EL students necessary support and instruction to succeed in a mainstream humanities course. Special emphasis is placed on vocabulary and text structure. This course examines the social, political and cultural history of the United States through diverse perspectives and global comparisons.

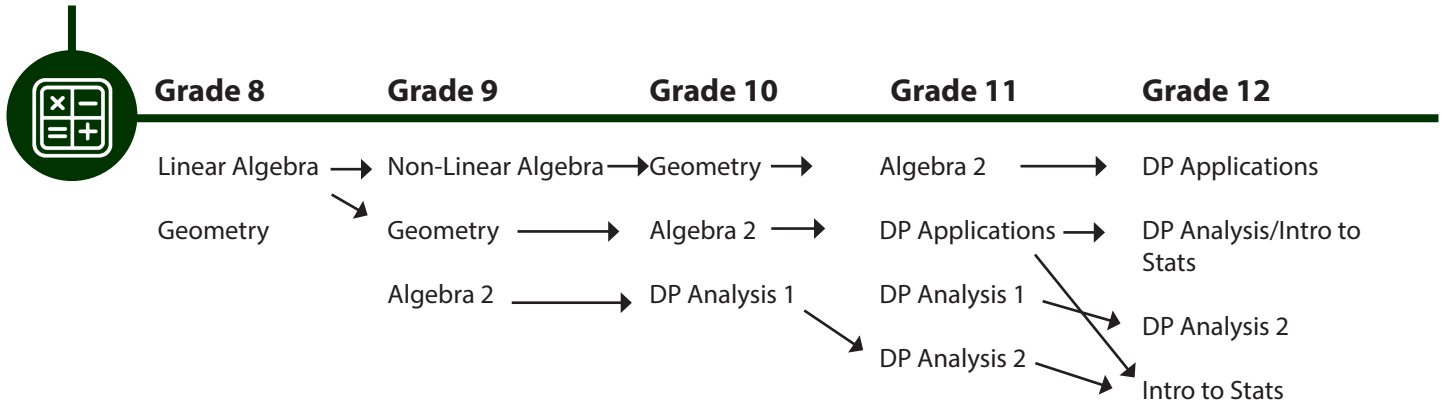

Mathematics

In order to graduate, you must successfully complete three years of math at the high school. It is recommended, if you are attending a 4 year college or university, to take a fourth year of math.

Mathematics Pathways: Math placement based on assessment data, teacher recommendation, and prerequisite coursework.

Math Pathway

MATH FOUNDATIONS: 0199, 0200

Credit: .5 each semester - 2 semester course

Prerequisite: Teacher Recommendation Only

Open To: Grades 9

Graduation Requirement: Meets Elective Requirement

Course Description: This course builds foundational math skills and understanding of concepts necessary for students to be successful in high school math coursework.

NON-LINEAR ALGEBRA: 0197, 0198

Credit: .5 each semester - 2 semester course

Prerequisite: Middle School Algebra

Open To: Grades 9

Graduation Requirement: Meets Math Requirement

Course Description: This algebra course addresses non-linear algebra topics and builds deeper understanding of linear algebra. Topics include linear and quadratic functions, inequalities, exponents, equations in more than one variable, probability, and sequences.

GEOMETRY: 0204, 0205

Credit: .5 each semester-2 semester course

Prerequisite: Algebra 8

Open To: Grades 9, 10

Graduation Requirement: Required

Course Description: The Geometry course includes an in-depth analysis of plane, solid, and coordinate geometry as they relate to both abstract mathematical concepts as well as real-world problem situations. Topics include logic and proof, parallel lines and polygons, perimeter and area analysis, volume and surface area analysis, similarity and congruence, trigonometry, and analytic geometry. Emphasis will be placed on developing critical thinking skills as they relate to logical reasoning and argument. Students will be required to use different technological tools and manipulates to discover and explain much of the course content.

ALGEBRA 2: 0213, 0214

Credit: .5 each semester - 2 semester course

Prerequisite: Geometry

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Required

Course Description: Algebra 2 starts with a continuation of concepts studied in Algebra 8 or Intermediate Algebra. Students will be challenged by new concepts that require graphing skill, functions, solving second and third order equations, investigating complex number systems, logarithms, data analysis and probability, and Trigonometry. Students will be prepared for success in both pre-calculus and math studies upon completion of this course.

DP MATH: APPLICATIONS & INTERPRETATION SL 0219, 0220

Credit: .5 each semester - 2 semester course

Prerequisite: Geometry and Algebra 2

Open To: Grades 11, 12

Graduation Requirement: Meets DP and Math Requirement

Course Description: This course builds on the concepts of Algebra 2 and Geometry in preparation for the standard-level IB Applications and Interpretation examination at the end of Math Studies. This course is designed to be a gateway course into higher order mathematics. Applications and Interpretation leads students on a journey through a core of algebra, statistics, financial math applications, logic, probability, geometry, basic trigonometry, and an intro to calculus. Students will then produce a project or essay involving higher order mathematics that will be based on the student's own interests. Outcomes: Mastery of the topics in the course description and the standards required by the State of Minnesota. Assessments: Tests, quizzes, homework, standard-level IB Applications & Interpretation examination.

ANOKA-RAMSEY COMMUNITY COLLEGE (ARCC)- INTRODUCTION TO STATISTICS:

0221, 0222

Credit: .5 each semester - 2 semester course

Prerequisite: Algebra 2

Open To: Grades 12

Graduation Requirement: Meets Math Requirement

Course Description: Introductory course in data description and analysis using graphical and numerical methods. Students will work with discrete and continuous random variables and their probability distributions with emphasis on the normal distribution. Topics include: experimental design and sampling methods; confidence intervals, sample size, and hypothesis testing for one and two population means or proportions; t and z tests, chisquare tests, analysis of variance (ANOVA), linear regression; use of statistical software. Students could earn 4 college credits through Anoka-Ramsey Community College upon completion of this course with at least a 2.6 PGA

DP MATH: ANALYSIS & APPROACHES SL:

(Year 1) 0236, 0237 (Year 2) 0239, 0240 Year 2

includes ARCC College Algebra

Credit: .5 each semester - Must take 4 semesters (This is a 2-year course)

Prerequisite: Algebra 2

Open To: Grade 10, 11, 12

Graduation Requirement: Meets DP and Math Requirement

Course Description: The topics studied in this course are those traditionally offered in the first year of Calculus in college. This course is designed for students who wish to take the standard-level IB Mathematics examination. Math SL is a course designed for highly motivated students who seek the challenge of a college level Mathematics course. The topics studied include limits, continuity, derivatives, and integrals of algebraic and transcendental functions and their applications, and elementary differential equations. Assessments: Tests, quizzes, homework, State MCA III test (junior year), Math Exploration paper, and Standard-Level IB Mathematics examination (senior year). Students must have a 2.8 GPA and a C or above in Algebra 2 to get college credit from ARCC.

ANOKA-RAMSEY COMMUNITY COLLEGE

ANOKA-RAMSEY COMMUNITY COLLEGE

Physical and Health Education

Health and Physical Education Classes may be the most important information you can learn to help you lead a physically, mentally and emotionally satisfying life. Each year we will teach you different facets of your life related to your health so that you can enjoy your journey through life in a more gratifying way. If you are not in good health, your life will certainly not be as fulfilling.

Each required class focuses on different pieces of health and types of exercise to help you find something that will help you feel your best and be prepared to get and stay healthy along the journey through the hectic lives that we lead. Try them all and you may find something you will enjoy doing for the rest of your life to better your own personal health or help the people around you!

- Just a few generations ago, physical activity was an integral part of daily life. In the name of progress, we've now chipped away at it so thoroughly that physical inactivity actually seems normal.
- In less than two generations, physical activity has dropped by 20% in the U.K. and 32% in the U.S. In China, the drop is 45% in less than one generation. Vehicles, machines and technology now do our moving for us. What we do in our leisure time doesn't come close to making up for what we've lost.
- By the end of this decade, most Americans will exert only slightly more energy per week than if they slept 24 hours a day.

HEALTH & PHYSICAL EDUCATION 1: 0489

Credit: .5 each semester - 1 semester course

Open To: Grade 9

Graduation Requirement: Required for PE

Course Description: This class will combine classroom work and physical activity. In the health/classroom portion, students will explore the decision-making process and health practices that reduce and prevent tobacco use, drug and alcohol use, HIV, sexually transmitted infections, and unintentional pregnancies. Students will also learn about the connections between risky behaviors and many cancers. This class uses a nationally recognized program called Top 20 Training to help teach life-skills to be successful and become the best person we can be. The physical activity portion will focus on an introduction to weight training and safety. We teach the importance of teamwork during the units of floor hockey, basketball and soccer.

HEALTH & PHYSICAL EDUCATION 2: 0490

Credit: .5 each semester - 1 semester course

Open To: Grade 10

Graduation Requirement: Required for PE

Course Description: This class will combine classroom work and physical activity. The health/classroom portion will focus on how to integrate healthy nutrition, fitness and good mental health to lead a balanced and successful life. Students will also learn about the global impact of an individuals and Societies' health. The physical activity portion will center on the creation of a personal fitness plan. Individual and team activities, such as fitness testing, flag football, speedball, ultimate Frisbee and international games will help students develop a sense of responsibility and respect for their own healthy lifestyle and will teach them a variety of activities that can help them live in a healthy way.

HEALTH & PHYSICAL EDUCATION 2-NEW MOVES: 0497

Credit: .5 each semester - 1 semester course
Replaces PE 2 for Interested Females

Open To: Grade 10 Females

Graduation Requirement: Required for PE (or PE 2)

Course Description: New Moves is a different type of physical education class for girls. It focuses on discovering how to improve health and fitness. New Moves is designed for girls who are interested in trying non-traditional ways to be physically active. The classroom focus is on nutrition, fitness and mental health and the influence of proper nutrition and fitness on the health of people around the globe. It will also focus on the impact our habits have on diseases such as Diabetes and Heart Disease. The physical education portion is a non-traditional PE class, mixing in such global activities as yoga, kickboxing, Pilates, kettle bells, dance, in addition to traditional games and activities. This is a fun way to get their Physical & Health Education 2 credit.

HEALTH & PHYSICAL EDUCATION 3: 0491

Credit: .5 each semester - 1 semester course

Open To: Grade 11

Graduation Requirement: Required for PE

Course Description: This class will combine classroom work and physical activity. The health/classroom portion will explore the world of career and post-secondary options, through research and written assignments. Through First Aid and CPR training, students will learn the knowledge and skills to recognize and treat life threatening emergencies and could help save a life. Students will demonstrate their culmination of knowledge of issues facing teens in our society and throughout the world through a final health public service announcement video. The physical activity portion of the class will focus on lifetime activities and in-depth concentration of previously learned games, such as badminton, volleyball, tennis, cross-country skiing, and disc golf. Students will also continue to work on improving fitness levels and skills that will help them maintain a healthy lifestyle after high school.

FRIDLEY FIT: 0492

Credit: .5 each semester - 1 semester course

Open To: 10, 11, 12

Graduation Requirement: Meets elective requirement

Course Description: This class will offer students the opportunity to become risk takers as they improve their fitness levels through intense cutting-edge workouts inspired by the cross-fit craze hitting the nation. This innovative class will appeal to anyone who is interested in achieving physical health through ground-breaking fitness trends. This course offers circuit and interval training as a means to improve fitness rather than traditional strength training methods. This gained knowledge will be carried with them after high school, allowing them to create healthy and balanced lifestyles when organized sports are not readily available. Students may work on a personal training certificate.

LEADERSHIP: 0486

Credit: .5 each semester - 1 semester Course

Open To: Grades 10, 11, 12

Graduation Requirement: Meets elective requirement

Course Description: The objective of the class is to allow students to gain awareness of how they think, learn and communicate using a nationally recognized character education curriculum called Top 20 Training. Students will be given multiple opportunities to gain confidence in their communication skills. Students will explore, analyze and incorporate the most common leadership styles during mock scenarios. More time will be spent on the student's Emotional Intelligence (EQ) than on their IQ. These skills will help guide them the rest of their lives as they enter the global societies. Students will get an opportunity to mentor pre-school and middle school students by traveling to the FCC and FMS each week.

DANCE: 0494

Credit: .5 each semester - 1 semester course

Open To: Grades 9, 10, 11, 12

Graduation Requirement: Meets elective requirement

Course Description: This course offers students the opportunity to explore the world of dance and enjoy the physical and emotional benefits of dance. Units will include swing, ballroom, folk, hip-hop, Latin, and other dance techniques from around the world. They will also have the opportunity to choreograph and perform their own dances. Students may take this class twice in high school.

STRENGTH TRAINING & CONDITIONING: 0496

Credit: .5 each semester - 1 semester course

Open To: Grades 9,10,11,12

Graduation Requirement: Meets elective requirement

Course Description: This course is intended for the person serious about improving personal fitness. Cardiovascular fitness and muscular strength and flexibility are addressed daily. We spend time in the weight room learning to lift properly and safely. We mix in a variety of stress reducing workout activities from around the globe and multiple abdominal and leg strengthening workouts. After taking the course, individuals should be able to establish an appropriate basic personal strength-training program. Working on a fitness plan appropriate for each individual is emphasized.

ADVANCED STRENGTH AND CONDITIONING: 0493

Credit: .5 each semester - 1 semester course

Prerequisite: Strength Training & Conditioning

Open to: 10, 11, 12

Graduation Requirement: Meets elective requirement

Course Description: This class will consist of 18 weeks of strength and Conditioning. The overall goal of the class will be to learn many different techniques and lifts that students can carry with them to workout in any space outside of school. Students will learn different lifts that are not included in our standard Strength training class. We will also track your improvement on a regular basis. Safety in the weightroom is our number one concern so students can enjoy a lifelong activity like strength training. Get ready to see some improvement in your personal fitness!

TEAM SPORTS: 0495

Credit: .5 each semester - 1 semester course

Open To: Grades 10, 11, 12

Graduation Requirement: Meets elective requirement

Course Description: This Physical Education elective class will involve many team games played in this country and some from around the world. Each student will not only participate in a variety of games but will also learn officiating, stressing sportsmanship, and applying and adapting the rules of the games.

UNIFIED PHYSICAL EDUCATION: 0498

Credit: .5 each semester-1 semester Course

Open To: Grades 11, 12 and/or as requested by the case manager

Graduation Requirement: Meets elective requirement

Course description: Unified Physical Education (Unified PE) is a concept for bringing students with and without disabilities together, as equals, in a physical education setting where all students earn physical education credit. This course combines students of all abilities to participate in developmentally appropriate activities, including lifetime activities, physical fitness, and sport. Unified PE presents a unique opportunity to increase college and career readiness, as well as social/emotional learning (SEL) competencies. The class is structured around the national physical education standards and grade-level outcomes, which include gaining the knowledge and skills necessary to maintain a

health-enhancing level of fitness. Based on the Framework for the 21st Century Learner, a Unified PE course can provide students with opportunities to develop flexibility, adaptability, leadership, responsibility, critical thinking, communication, and collaboration skills. Through ongoing leadership opportunities, members of this course will be empowered to help create a more inclusive and accepting school environment for all students.

EMERGENCY MEDICAL RESPONDER: 0483

Credit: .5 each semester

Prerequisite: PE 1 & PE 2

Open To: Grades 11, 12

Graduation Requirement: Meets elective requirement

Course Description: This course is designed to cover all materials required for the Emergency Medical Responder student. The students will know the necessary skills, didactic and clinical information to successfully function as a registered Emergency Medical Responder as defined, by the National Educational Standards for the Emergency Medical Responder, in Minnesota. Students will also become certified as Basic Life Support providers (CPR) through the American Heart Association at the Health Care Provider level. These educational standards were developed by the United States Department of Transportation, National Highway Traffic Safety Administration.

Students will be taught to utilize "Critical Thinking Skills" to evaluate and care for various trauma and medical situations they may encounter. Students who have an interest in pursuing a career in all areas of medicine or related fields will benefit from the EMR course. Students in EMR are concurrently enrolled with Pine Technical and Community College for 3 college credits in the Minnesota State School System.

Required Text/Reading – Essentials for the Emergency Medical Responder; Authors: Joseph A. Grafft & Katherine Kuzma Grafft.

EMERGENCY MEDICAL TECHNICIAN: 0484

Credit: .5 each semester – This is a 2 hour block class

Prerequisite:

Emergency Medical Responder

Open to: Grades 11,12

Course Description: This course is designed to cover all materials required for the Emergency Medical Technician student to be eligible to take the National Registry of EMT's written and practical examinations. The students will know the necessary skills, didactic and clinical information to successfully function as a registered Emergency Medical Technician as defined, by the National Educational Standards for the Emergency Medical Technician, in Minnesota. These educational standards were developed by the United States Department of Transportation, National Highway Traffic Safety Administration.

Students will be taught to utilize, "Critical Thinking Skills" to

evaluate and care for various trauma and medical situations they may encounter. Students must complete all required education and training by both the National Registry of Emergency Medical Technicians and the Minnesota Emergency medical Services Regulatory Board. Students will need to complete 10 patient contacts, preferably with an Advanced Life Support ambulance service. Students will have to successfully pass a state required FisDap written pre-test prior to taking the National Registry EMT written examination.

Students in EMT are concurrently enrolled with Pine Technical and Community College for 9 college credits in the Minnesota State School System.

Pine Technical & Community College

CERTIFIED NURSING ASSISTANT: 0488

Credit: .5 each semester- This is a 2 hour block class and is limited to 10 students per semester.

Prerequisite: Personal & Professional Skills

Open to: Grades 11, 12, CP Candidates Only

Course Description: According to the Minnesota Department of Employment and Economic Development, nursing assistants are among the highest in-demand jobs in the state. The Certified Nursing Assistant (CNA) course introduces concepts of basic human needs, health/illness continuum and basic nursing skills. The theory and role of the nursing assistant in a long term care facility as well as working with various populations will be discussed. It includes skills demonstrations, practice in a supervised laboratory setting, and orientation to clinical setting. This course introduces students to work as home health aids or homemakers for agencies providing home care. This course includes 16 hours of clinical care on site at Pine Technical and Community College over the course of a weekend, and transportation can be provided for the clinical care hours.

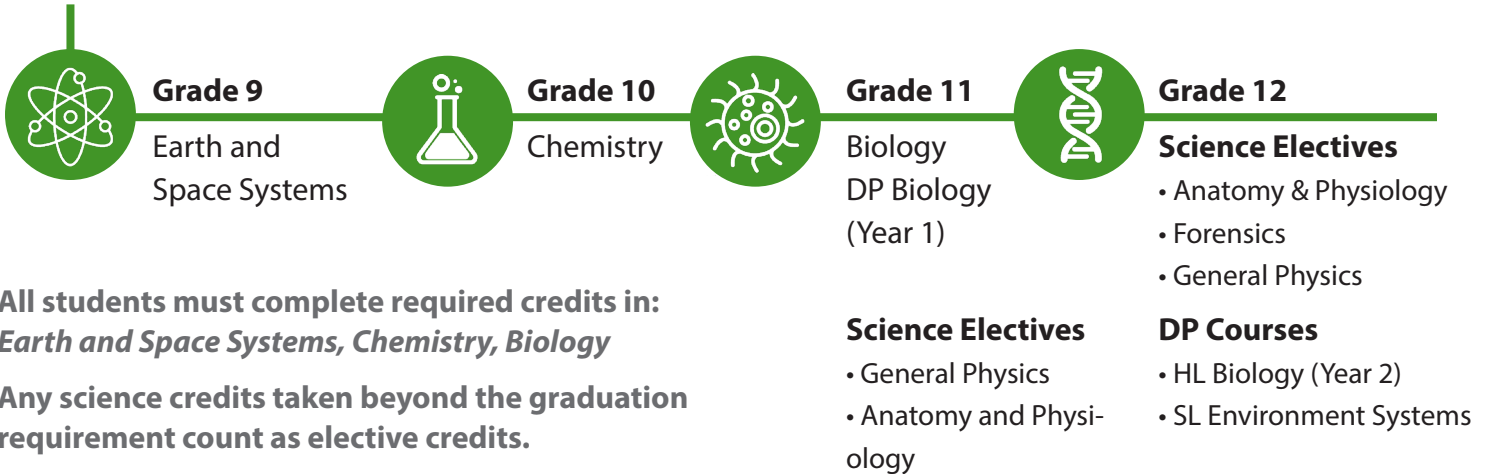

Upon successful completion of this course and Nursing Assistant Clinical the candidate is eligible to take the Minnesota Competency Evaluation for Nursing Assistants. This exam will be administered at Pine Technical and Community College, and transportation can be provided for the exam. Individuals successfully completing this examination and are at least 16 years old are placed on the Minnesota Nursing Assistant Registry.

Students in CNA are concurrently enrolled with Pine Technical and Community College for 4 college credits in the Minnesota State School System.

A scientifically literate person appreciates and understands basic components of science and how science is important and useful in their life. In an era where the influence of science is increasingly prevalent, expectations for scientific literacy have become more important than ever.

Science Pathway

All students must complete required credits in:
Earth and Space Systems, Chemistry, Biology

Any science credits taken beyond the graduation requirement count as elective credits.

EARTH AND SPACE SYSTEMS: 0305, 0306

Credit: .5 each semester – 2 semester course

Open to: Grade 9

Graduation Requirement: Required Sciences

Course Description: In Earth and Space Systems students will discover the relationships between earth, water, air, space, and biological systems. This course integrates key ideas across science disciplines including physics, chemistry, biology, geology, and astronomy. This approach allows students to investigate the four spheres of the Earth, to recognize the delicate balance between these spheres, and to analyze the dramatic results when that balance is disrupted. Skills learned in this course will be applied to authentic problem-based Earth and space science phenomena, while also exploring career opportunities in Science, Technology, Engineering, and Mathematics (STEM).

CHEMISTRY: 0307, 0308

Credit: .5 each semester – 2 semester course

Prerequisite: Earth & Space Systems

Open to: Grade 10

Graduation Requirement: Required Sciences

Course description: In chemistry students will explore the discoveries of the natural world of matter. The course will take a journey through the scientific discoveries that have led to today's understanding of the world around us. Throughout the course you will become a scientific community with your fellow classmates. Situations similar to those of career scientists will be explored and investigated. This course is largely hands on with many lab explorations and experiments. After completing this course the student will have a deeper understanding of how things work in our everyday lives.

BIOLOGY: 0332, 0333

Credit: .5 each semester - 2 semester course

Prerequisite: Earth & Space Systems, Chemistry

Open To: Grade 11

Graduation Requirement: Required Sciences

Course Description: This course involves the study of living things. This includes a variety of specific organisms, different types of life, how those organisms survive and reproduce, and the systems and conditions in which they live. Topics covered include cells, DNA/RNA, genetics, ecology, and evolution. Students work together and in groups to solve problems and complete labs. This course is taught through a variety of mediums: lecture, lab work, inquiry and small group discussion.

DP BIOLOGY: (Gr. 11) 0316, 0317

DP BIOLOGY: (Gr. 12) 0319, 0320

Credit: .5 each semester - Must take 2 semesters each year. This is a 2-year course

Prerequisite: Earth & Space Systems, Chemistry

Open To: Grade 11, 12

Graduation Requirement: Meets Biology requirements

Course Description: In HL IB Biology students will develop an in-depth and broad knowledge of the biological Sciences while applying biological topics to global and international situations and issues. HL courses are designed to meet strict curriculum requirements and are taught over four semesters beginning in the junior year. This requires DP biology to be a fast-paced, lecture-oriented class that will likely require a large amount of study time outside of school. Designing and carrying out labs are also a large part of the coursework. Tests and quizzes designed to mimic the test administered at the end of the course by the IB. College credit can be earned by students who earn high marks on the internal assessment labs conducted in class and the final exam administered by the IB. Students that begin the second semester of this course in their junior year are obligated to finish the two year course in order to fulfill state Sciences standards.

GENERAL PHYSICS: 0302, 0303

Credit: .5 each semester - 2 semester course

Prerequisite: Completion of Geometry or concurrent enrollment in Algebra II

Open To: Grade 11, 12

Graduation Requirement: Elective credit

Course Description: This course is designed for students who want to deepen their understanding of the physical world through scientific investigation, mathematical modeling and problem solving. Students will explore fundamental physics concepts, including motion, forces, energy, momentum, waves, electricity and magnetism.

Hands-on experiments and engineering challenges will help students connect theory to real-world applications, such as how bridges stay standing, how electricity powers homes and how the universe behaves at different scales. Critical thinking and collaboration are emphasized as students develop skills to analyze complex systems and communicate scientific findings.

This course is ideal preparation for college-level physics, engineering or related STEM fields.

DP ENVIRONMENTAL SYSTEMS SL: 0340, 0341

Credit: .5 each semester - 2 semester course

Prerequisite: Earth & Space Systems, Chemistry

Open To: Grade: 11, 12

Graduation Requirement: Elective credits

Course Description: The focus of IB Environmental Systems and Societies SL is to increase students' awareness and knowledge of their responsibilities as a citizen of Earth. The aims of this course include gaining an interpretation of environmental issues from a local to a global scale and becoming aware of the role of technology in finding solutions to environmental problems. Students will learn about systems and models, the ecosystem, human population, carrying capacity, resource use, conservation, biodiversity, pollution management, the issue of climate change, and environmental value systems. Students will have the opportunity explore various topics by developing and designing their own scientific investigations throughout the year. A strong focus of this course is on a student's own relationship with their environment and the significance of choices and decisions that they make in their own lives. The teaching approach will be conducive to students evaluating the scientific, ethical, and socio-political aspects of issues.

ANATOMY & PHYSIOLOGY 1: 0310

ANATOMY & PHYSIOLOGY 2: 0311

Credit: .5 each semester - Each is 1 semester course

Prerequisite: Anatomy & Physiology 1: Earth & Space Systems, Chemistry,

Prerequisite: Anatomy & Physiology 2: Anatomy & Physiology 1

Open To: Grade 11, 12

Graduation Requirement: Elective credits

Course Description: Human structure and function are the emphasis of this course. Students will study the normal and abnormal conditions that exist in humans. Following the introduction to anatomy and physiology, topics introduced will be: histology, skeletal system, muscular system, circulatory system, hematology (study of blood), respiratory system, nervous system, endocrine system, and digestive system. Dissecting is part of the class. This course will emphasize global dynamics, global relations, and global technology as part of the Global Studies program."

FORENSIC SCIENCES: 0322

Credit: .5 each semester - 1 semester course

Prerequisite: Earth & Space Systems, Chemistry

Open To: Grade 11, 12

Graduation Requirement: Elective credit

Course Description: This course covers the topics and techniques involved in the fields of forensic entomology, forensic pathology, questioned documents, fingerprinting, DNA fingerprinting, serology, trace evidence, and forensic toxicology. Content will integrate topics from physics, chemistry, and biology. Possible topics include: how to analyze and collect fingerprints; test blood types; document a crime scene; simulate decomposition with insects; analyze blood spatter; analyze hair and fibers; and perform toxicology tests. By the end of the term students will be able to incorporate all of the ideas and techniques to investigate a mock crime scene. Throughout the course speakers will also come in to talk to students about careers in forensic Sciences. This class will be viewed through the global technologies lens.

Additional Course Offerings

PERSONAL & PROFESSIONAL SKILLS:

(Gr. 11) 0042, (Gr.12) 0043

Credit: .5 - One Semester Each Year

Prerequisite: Both semesters are required for the IB CP

Graduation Requirement: Elective

Course Description: This course is open to all students in grades 11 and 12, and is required for students completing the IB Career-Related Programme (CP). It is designed for students to develop attitudes, skills and strategies to be applied to personal and professional situations. The emphasis is on skills development for the workplace. The five themes for this course are: personal development, intercultural understanding, effective communication, thinking processes, and applied ethics. The course is taught within the contexts of the career pathways of the CP.

THEORY OF KNOWLEDGE: (Gr. 11) 0051

(Gr. 12) 0052

Credit: .5 - One Semester Each Year

Prerequisite: Both semesters are required for the IB Diploma Candidates. In order to take the second semester, students must successfully complete the first semester

Open To: Grades 11, 12

Graduation Requirement: Elective

Course Description: This course asks students to reflect on their experiences as learners and to make connections between academic courses and the outside world through the examination of knowledge questions. Students will examine the nature of knowledge and how it is constructed by exploring Areas of Knowledge and the various Ways of Knowing in order to understand the relationship between personal knowledge and shared knowledge. Students will develop an understanding of why critically examining knowledge is important, be able to evaluate beliefs and knowledge claims, and realize that acquisition of knowledge places responsibilities on the knower. *Theory of Knowledge is a Core Requirement for Full Diploma Candidate Students and is taken in addition to the 3 HL and 3 SL required courses.

YEARBOOK: 0040, 0041

Credit: .5 for each semester taken – Students should take both semesters for Yearbook

Prerequisite: Photography or Design Course strongly encouraged

Open To: Grades 11, 12

Graduation Requirement: Elective

Course Description: Students will collaboratively produce an issue of the Fridley High School Yearbook, the Bengalian. They will plan, design, write, interview, and shoot photos. The emphasis of this course is learning and applying the skills of storytelling, design, communication, and teamwork. Students will be expected to be forward thinkers, set and meet personal and team deadlines, work collaboratively, communicate effectively, critically evaluate their own work and the work of others, and be able to stay on task in an independent environment. Students will need to interview other students and attend school functions in order to accurately detail the school year. Students will be asked to fill out an application in order to be considered for the Yearbook. Students are encouraged to take a design or photography class prior to taking yearbook.

APPROACHES TO LEARNING: GRADE 9

This course is assigned by teacher recommendation only.

Credit: .5 each semester– this is a 2 semester course

INTERVENTION READING TIER 1, TIER 2, TIER 3

Credit: .5 each semester

Graduation Requirement: World Language or Elective

Course Description: This course is an intervention for students that have been identified as reading below grade level. In this course students will improve their comprehension skills by strengthening vocabulary and background knowledge, acquiring effective reading strategies, and building stamina and perseverance. Enrollment in this course is determined by the MN Read Act requirements and student test data.

Specialized Services Program (IEP Required)

Students must qualify for specialized services to register for these classes. These services are based on the results of an evaluation and implementation of the IEP (Individualized Education Plan) plan. Specialized services courses may fulfill graduation requirements per IEP.

[SRC MATH: 0963,0964](#)

Credit: .5 each semester - 1 semester course

Prerequisite: IEP

Open to: Gr 9, 10, 11, 12

Approval by Case manager

Course Description: SRC math is a course designed to help students improve their general math ability and to learn life skills related to mathematics. The course focuses on helping students improve their individual math ability as well as to have a better understanding of grade level math. In addition, students will work on skills and math concepts related to testing for college/tech. school admittance. Topics covered include: Basic operations, fractions, integers, graphing, algebra and geometry. The course is a combination of independent work based on individual ability, as well as classroom instruction based on grade level concepts and real life math skills.

[SRC ENGLISH: 0967, 0968](#)

Credit: .5 each semester - 1 semester course

Prerequisite: IEP

Open to: Gr 9, 10, 11, 12

Approval by Case manager

Course Description: This class offers a modified English and Reading Intervention curriculum at an individualized speed for Special Education students. Students will increase their reading comprehension skills through group reading, independent reading, and vocabulary practice and assessments. Students will be given oral language practices weekly and required to take notes periodically. They will read an assortment of materials from articles to books that relate both to today's global culture and the cultures around them. Throughout the course, students will have a book project related to a novel and a small writing assignment in order for students to work on their writing skills. Additionally, students will be tested on their reading comprehension and reading fluency in several large assessments and numerous smaller assessments.

[LIFE PREP ENGLISH : 0569, 0570](#)

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: In this course, students work focus on reading skills as determined by IEP. This class will work on individualized goals in the area of functional writing and reading.

[LIFE PREP MATH: 0572, 0573](#)

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: In this course students will focus on math skills as determined by IEP. Math skills necessary in daily life are introduced to some of our students. Emphasis may be on subjects such as counting, number recognition, money use, telling time, and problem solving.

[LIFE PREP SOCIAL SKILLS: 0594, 0595](#)

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: This course teaches appropriate social skills such as positive social interactions, respectful communication, and cooperation with others. Students will have opportunities to practice their social skills and functional skills. It focuses on each individual's social skill needs, as documented in their IEP.

[LIFE PREP HEALTHY LIVING: 0549, 0550](#)

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: Healthy Living is a class that explores topics such as sleep, nutrition, exercise, stress management, mental health, and personal hygiene, helping students understand how each area affects their energy, mood, and overall well-being. The course includes hands-on activities, including some cooking, developing sleep-friendly routines, and learning strategies to manage stress and emotions. Students reflect on how their daily choices impact their body and mind and practice building healthy habits that they can use every day. Through these experiences, students gain the knowledge and skills to make choices that support both physical and mental health.

[GRADUATION PLAN STUDIES: 0072](#)

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grade 11 & 12, Approval by Case manager

Course Description: Graduation Plan Studies is a course that gives seniors the necessary time to make up course credits from previous semesters. Credit recovery gives students the opportunity to make up credits and graduate on time.

UNIFIED PHYSICAL EDUCATION: 0498

Credit: .5 each semester-1 semester Course

Open To: IEP & General Education Students

Graduation Requirement: Meets elective requirement

Course description: Unified Physical Education (Unified PE) is a concept for bringing students with and without disabilities together, as equals, in a physical education setting where all students earn physical education credit. This course combines students of all abilities to participate in developmentally appropriate activities, including lifetime activities, physical fitness, and sport. Unified PE presents a unique opportunity to increase college and career readiness, as well as social/emotional learning (SEL) competencies. Based on the Framework for the 21st Century Learner, a Unified PE course can provide students with opportunities to develop flexibility, adaptability, leadership, responsibility, critical thinking, communication, and collaboration skills. Through ongoing leadership opportunities, members of course will be empowered to help create a more inclusive this and accepting school environment for all students.

EXCEL: 0613, 0614

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: Excel is a four-year elective course, designed to prepare students on IEPs who are on Post-Secondary Pathway or Employment for entrance into two or four-year colleges and universities or job-training program. The class emphasizes organization, time-management, analytical writing, preparation for college entrance and placement exams, college study skills, test taking skills, oral language development, note-taking and research. Excel is not a study skills class or study hall, but will follow a year-long curriculum to build skills that will increase academic success.

SOCIAL/EMOTIONAL LEARNING: 0969, 0970

Credit: .5 each semester - 2 semester course

Prerequisite: IEP **Open to:** Grades 9, 10, 11, 12

Approval by Case manager

Course Description: This course focuses on building knowledge and practicing skills in the five core areas of Social Emotional Learning which include: Self-Awareness, Social Awareness, Responsible Decision-Making, Self-Management, and Relationship Skills. The class also focuses on each individual's social skills needs, as documented in their IEP.

ATLAS MATHEMATICS: 0700, 0701

Credit: .5 each semester - 2 semester course

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: This class alternates between whole class math projects that focus on math concepts that happen in life on a day to day basis and individualized math lessons for specific students. During individual lessons, students will

work one-on-one with a teacher to learn new math concepts.

ATLAS LANGUAGE AND LITERATURE: (ENGLISH): 0707, 0708

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: This class reads, discusses, and analyzes novels of different genres such as: memoirs, historical fiction and non-fiction, and mystery/suspense. Poetry and Shakespeare are also points of study, as well as short stories that highlight the different elements of literature. The class also includes daily instruction and practice with writing rules and mechanics. Students develop their writing and editing skills with the large assessments being MYP Assessment writing tasks. Students are assessed twice a year using the Basic Reading Inventory and will take the NWEA Reading test three times a year. Tenth grade students will also complete their Personal Project journal, product, and paper.

ATLAS PE/HEALTH: 0715, 0716

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: This class will combine classroom work as related to health education and physical activity.

ATLAS GROUP SOCIAL SKILLS 0788, 0789

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grades 9, 10, 11, 12

Approval by Case manager

Course Description: Students in Atlas Group Social Skills will develop skills in social emotional strategies and group strategies. They will learn how to work through individual, group issues, and behaviors by developing the social skills they need both in school and out in the community.

POSTSECONDARY TRANSITION: 0620, 0621

Credit: .5 each semester - 2 semester course

Prerequisite: IEP

Open to: Grade 9, 10, 11, 12 Approval by Case manager

Course Description: This class will focus on personal finance skills including banking basics, income and employment, budgeting, managing credit and debt, financing higher education, and insurance. It will also focus on empowering students with the practical skills necessary for transitioning to adulthood with confidence and autonomy.

2026-2027 DAILY SCHEDULE

Regular Schedule Monday, Tuesday, Wednesday, & Friday	
Period 1	8:10-8:58am
Period 2	9:03-9:51am
Period 3	9:56-10:44am
Period 4	10:49-11:37am
Lunch	11:37-12:26pm
Period 5	12:23-1:14pm
Period 6	1:19-2:07pm
Period 7	2:12-3:00pm
Thursday (Advisory Schedule Day)	
Period 1	8:10-8:52am
Advisory	8:57-9:27am
Period 2	9:32-10:14am
Period 3	10:19-11:01am
Period 4	11:06-11:48am
Lunch	11:48-12:32pm
Period 5	12:32-1:18pm
Period 6	1:23-2:09pm
Period 7	2:14-3:00pm

MATHEMATICS

Subject/Course	Course #	Page	Grades Open To	Meets Req. for	Career Area
Math Foundations	0199, 0200	48	9	Mathematics	Architecture & Manufacturing Business, Management & Administration, STEM
Non-Linear Algebra	0197, 0198	48	9	Mathematics	Architecture & Manufacturing Business, Management & Administration, STEM
Geometry	0204, 0205	48	9, 10	Mathematics	STEM, Architecture & Manufacturing
Algebra 2	0213, 0214	48	9, 10, 11, 12	Mathematics	Architecture & Manufacturing Business, Management & Administration, STEM
DP Math: Applications & Interpretation SL	0219, 0220	49	11, 12	Mathematics	Science, Technology, Engineering & Science
DP Math Analysis & Approaches SL 11th DP Math Analysis & Approaches SL 12th	0236, 0237 0239, 0240	49	10, 11, 12	Mathematics	Architecture & Manufacturing, Science, Technology, Engineering & Science
ARCC - Introduction to Statistics	0221, 0222	49	12	Mathematics	Science, Technology, Engineer- ing & Science, Social Sciences

PHYSICAL EDUCATION / HEALTH

Subject/Course	Course #	Page	Grades Open To	Meets Req. for	Career Area
Physical & Health Education 1	0489	50	9	Required	Health
Physical & Health Education 2	0490	50	10	Required	Health
Physical & Health Education 2: New Moves	0497	51	10 Females	Required	Health
Physical & Health Education 3	0491	51	11	Required	Health
Fridley Fit	0492	51	10, 11, 12	Elective	Health
Leadership	0486	51	10, 11, 12	Elective	Health
Dance	0494	51	9, 10, 11, 12	Elective	Health
Strength Training	0496	51	9, 10, 11, 12	Elective	Health
Advanced Strength and Conditioning	0493	52	10, 11, 12	Elective	Health
Team Sports	0495	52	10, 11, 12	Elective	Health
Unified Physical Education	0498	52	11, 12	Elective	Health
Emergency Medical Responder	0483	52	11, 12	Elective	Support Services
Emergency Medical Technician	0484	52	11, 12	Elective	Support Services
Certified Nursing Assistant	0488	53	11, 12	Elective	Support Services

SCIENCES

Subject/Course	Course #	Page	Grades Open To	Meets Req. for	Career Area
Earth and Space Systems	0305 0306	54	9	Required	Architecture & Manufacturing Science, Technology, & Engineering
Chemistry	0307, 0308	54	10	Required	Architecture & Manufacturing Science, Technology, & Engineering
Biology	0332, 0333	55	11	Required	Science, Technology & Engineering, Biotechnology, Research & Development
General Physics	0302, 0303	55	11,12		Science, Technology & Engineering, Biotechnology, Research & Development
DP Biology HL-11th DP Biology HL-12th	0316, 0317, 0319, 0320	55	11 12		Science, Technology & Engineering, Biotechnology, Research & Development
DP Environmental Systems	0340, 0341	55	11, 12		Architecture & Manufacturing, Science, Technology, Engineering
Anatomy & Physiology 1 & 2	0310, 0311	56	11, 12		Science, Technology & Engineering, Biotechnology, Research & Development
Forensic Sciences	0322	56	11, 12		Science, Technology & Engineering, Biotechnology, Research & Development

ADDITIONAL COURSE OFFERINGS

Subject/Course	Course #	Page	Grades Open To	Meets Req. for	Career Area
Personal & Professional Skills	0042, 0043	57	11, 12	CP Certificate	Foundation Knowledge & Skills
DP TOK-11th DP TOK-12th	0051 0052	57	11, 12	IB Diploma	Foundation Knowledge & Skills
Yearbook	0040, 0041	57	11, 12	Elective	Foundation Knowledge & Skills
Approaches to Learning (ATL)	0037, 0038, 0040, 0044	57	9		Foundation Knowledge & Skills
Intervention Reading: Tier 1, Tier 2, Tier 3	0054, 0055	57	9, 10		Foundation Knowledge & Skills

SPECIALIZED SERVICES PROGRAM (IEP REQUIRED) COURSES

Subject/Course	Course #	Page	Grades Open To
SRC Math	0963, 0964	58	9, 10, 11, 12
SRC English	0967, 0968	58	9, 10, 11, 12
Life Prep English	0569, 0570	58	9, 10, 11, 12
Life Prep Math	0572, 0573	58	9, 10, 11, 12
Life Prep Social Skills	0594, 0595	58	9, 10, 11, 12
Life Prep Transition Skills	0575, 0576	58	9, 10, 11, 12
Unified Physical Education	0498	59	9, 10, 11, 12
EXCEL	0614, 0615	59	9, 10, 11, 12
Transition 1 & 2	0620, 0621	59	9, 10, 11, 12
Graduation Plan Studies	0072	59	11, 12
Social/Emotional Learning (SEL)	0969, 0970	59	9, 10, 11, 12
ATLAS Language & Literature (English)	0707, 0708	59	9, 10, 11, 12
ATLAS Mathematics	0770, 0701	59	9, 10, 11, 12
ATLAS PE/Health	0715, 0726	59	9, 10, 11, 12
ATLAS Group Social Skills	0788, 0789	59	9, 10, 11, 12
