Budget Assumptions

Since the State of Alaska's legislative session is not expected to conclude until mid-April at the earliest, and the Borough's budget cycle extends until mid-May, the district must make certain assumptions to develop the Proposed Budget within the required timelines. The budget must be balanced before its submission to the Board of Education in February and to the Borough Assembly by the April 1 deadline.

The following assumptions have been used in preparing the FY27 Proposed Budget:

- State Base Student Allocation (BSA) of \$6,660
- A projected enrollment of 11,042 students for the FY27 school year
- A local contribution request of \$62.78 million

Budget Preparation

The objective of the district's budget process is to develop a budget that is "a long-term perspective and not simply an exercise in balancing revenues and expenditures one year at a time" (*National Advisory Council on State and Local Budgeting*).

The strategic plan is the guiding document for resource allocation. In addition to its directives, the following objectives are also prioritized:

- Student welfare and success
- Evidence-based budget recommendations (data-driven, realistic, and feasible)
- Transparent, timely and objective budget system
- Participation and awareness from district stakeholders

BUDGET COMMITTEE

The Budget Committee is charged with ensuring that the budget development process is a goal-driven approach which includes the planning, development, adoption, and execution phases of the district's strategic plan. The committee reviews the district's current budgeting process and provides input for the establishment of policies and plans to achieve efficiency and best practice in financial management.

FUND BALANCE POLICY

The Board of Education recognizes that maintaining a responsible fund balance is essential for the preservation of the financial integrity of the district. Board Policy 3470 reflects this commitment and states the following:

The district recognizes that the Government Finance Officers Association (GFOA) recommends an unrestricted fund balance in the general fund of at least two months (16.67 percent) of operating expenditures. The Board desires to maintain a minimum unrestricted fund balance for Generally Accepted Accounting Principles (GAAP) and budgetary purposes. The minimum unrestricted fund balance in the Operating Fund should not fall below 6% of Operating Fund expenditures. In the event that the unrestricted fund balance falls below this minimum amount, the Board intends to take action to replenish it within a period of one to three years.

FY26 Approved Budget Summary

FY26 General Fund Expenditures by Type

83.4%	11.4%	2.4%	2.3%	0.5%
Salaries & Benefits	Contracted Services	Materials	Other	Equipment

The FY26 Approved Budget reflected a **\$252,000** decrease in General Fund revenues compared to the prior year. Although the Legislature approved a **\$700 increase** to the Base Student Allocation (overriding the Governor's veto), the additional funding was offset by declining student enrollment, resulting in a **state revenue decrease of more than \$5.1 million**. Local revenue increased by nearly **\$4.9 million** following a higher local contribution approved by the Assembly, while federal revenue increased by **\$25,000**.

Despite increased local support, revenue shortfalls combined with rising costs created an estimated **\$16 million deficit**, necessitating significant expenditure reductions. To address the shortfall and right-size District operations, the budget included the closure of **three schools** and the downsizing of **one additional school**, generating approximately **\$4.9 million** in savings. Custodial services were contracted out for an additional **\$3.0 million** in savings, and the pupil-to-teacher ratio (PTR) was increased across all grade levels. Further reductions included high school counselor positions, Barnette Magnet teachers, administrative staff, and the elimination of the laptop replacement payment. The Board also assumed savings from future staff vacancies. Districtwide, **168 FTE positions** were eliminated.

Significant expenditure increases included a transfer from the General Fund to the Transportation Fund to subsidize district transportation services. In addition, the benefit rate increased by **1.55%** from FY25 to reflect rising health and insurance costs.

FY27 Proposed Budget Highlights

The District is projecting a preliminary surplus of approximately **\$2.6 million** in the FY27 Proposed Budget. This projection does **not** include potential additional costs related to upcoming negotiations with support staff and certified staff bargaining units. Key drivers of the surplus include the Hold Harmless provision in the state foundation formula for enrollment decline, increased Federal Impact Aid revenue, and reduced enrollment in the District health plan. Structural reductions implemented in prior budget cycles are also contributing to a stronger FY27 outlook.

Revenue

The Governor's proposed budget maintains a status quo Base Student Allocation (BSA) with no education funding cuts. Despite this, State revenue is projected to decline by approximately **\$8.6 million** due to lower student enrollment and increased local property valuations. Federal revenue is budgeted **\$2.9 million higher** than FY26, primarily due to increased Impact Aid. Local revenue is determined by the Borough Assembly's appropriation; the District is requesting a status quo local contribution of **\$62.78 million**. The FY27 Proposed Budget also includes approximately **\$2.3 million** in fund balance utilization.

Expenditures

With a projected surplus, the District has identified targeted investments to improve student outcomes, support staff, and restore previously reduced programs. Major restorations include reducing the pupil-to-teacher ratio across all grade levels (**\$2.0 million**), implementing districtwide curriculum (**\$1.2 million**), and restoring the Elementary instrumental music program (**\$980,000**). Additional restorations support ELP, before-school care, PreK education, Barnette staff, school supply budgets, and reading tutors. Districtwide, **21.2 FTE positions** have been added. The budget also includes a **\$1.2 million** transfer to the Transportation Fund to subsidize transportation services. The benefit rate is reduced by **4.5%** from FY26, reflecting lower enrollment in the District health plan.

FY27 Proposed Budget Summary

The goal of the FY27 Proposed Budget is to provide a high quality education to students through the efficient allocation of limited resources. Investments have been identified that enhance the students educational experience, support

District staff, and restore programs that were previously reduced or eliminated. A total of 21.2 FTE have been added districtwide compared to FY26.

Elementary Schools

Elementary staffing in the FY27 Proposed Budget implements a reduction in class sizes, restores enrichment opportunities, and strengthens early learning and student support services. Adjustments to teacher allocations are based on projected enrollment and support improved instructional conditions across all elementary schools.

The budget prioritizes smaller class sizes, the restoration of elementary instrumental music, expanded access to PreK and extended learning programs, and increased classroom support through tutors and supply funding. Investments also enhance before-school care options, supporting both student learning and family needs.

Secondary Schools

Secondary staffing in the FY27 Proposed Budget reduces class sizes and supports instructional quality at both the middle and high school levels. Teacher allocations have been adjusted based on projected enrollment to better align staffing with student needs.

The budget prioritizes modest reductions in pupil-to-teacher ratios, increased classroom resources, and improved learning conditions across secondary schools. These restorations are intended to support core instruction while maintaining program stability.

Investments

- **5.8 FTE** High School Teachers (due to PTR decrease)
- **2.8 FTE** Middle School Teachers (due to PTR decrease)
- 25% Increase to Regular Supplies Budgets (\$37,000)

Budget Process

Planning for the budget process begins in September with the selection of new members to the budget committee. In the fall, the committee reviews the current academic year's approved budget and identifies key points for communication to the Board of Education. In November, the administration submits enrollment projections to the Alaska Department of Education.

In December, school, department, and program leadership provide budget recommendations to the superintendent. The superintendent considers feedback from the budget committee district leadership, as well as class size targets and strategic goals and objectives to determine administrative priorities.

Through the strategic plan, the Board of Education provides guidance on district initiatives and budget priorities.

Preparation of an upcoming academic year's proposed budget begins in December and is presented to the Board of Education by the first week of February. Once the proposed budget is presented

to the Board of Education, the public can provide feedback at regular board meetings, through email, and online through public outreach tools.

After public input, changes are made to the budget as needed and the recommended budget is presented to the Board for approval. By State of Alaska statute, the Board of Education must submit the district budget to the Fairbanks North Star Borough (FNSB) Assembly no later than May 1 for approval of the total amount. Borough ordinance has set that date as April 1.

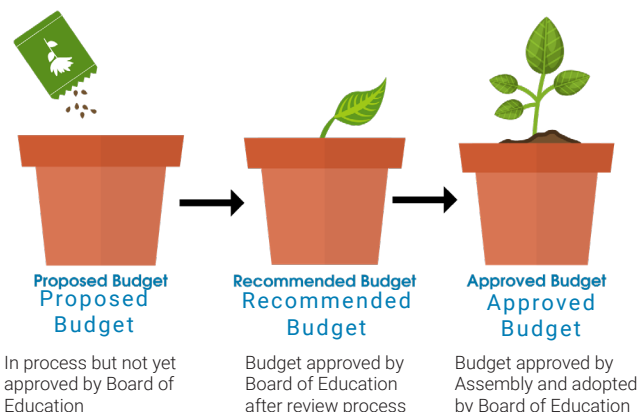

The Assembly determines the local appropriation for education, approves the district's bottom line budget in total, and sets the local mill levy accordingly. Funds for the support of operating schools are subject to the tax cap adopted by FNSB voters.

With a 90-day session, the legislature will typically approve a statewide budget for education by mid-April, unless they extend to special session(s). The budget is subject to veto by the governor, which can occur as late as July. If the district requests are fully funded by the Borough Assembly and the State, the budget process is

nearly complete. If the level of local or state funding has changed, the Board must determine where budget adjustments are to be made and provide an opportunity for public comment. In either case, final action on the budget is required.

When the final budget is balanced to match funding levels from the Borough and State, the budget becomes the "Approved Budget" and the spending plan of the district. The Board of Education adopts the Approved Budget by resolution.

Budget Process Timeline

Updated February 2022

State Foundation Formula* & Local Contribution

Funding for the school district is based off its **Average Daily Membership (ADM)**. ADM is the average student enrollment for 20 school days, ending on the fourth Friday in October. The ADM is then adjusted by the following factors, determined by the State of Alaska, to get the **Adjusted Average Daily Membership (AADM)**.

SCHOOL SIZE FACTOR

A formula from the school size factor table is used to calculate the adjusted ADM for each school. Smaller schools will be adjusted at a greater level than larger schools.

Step 1: 10,152 (ADM) -> 12,035

CAREER & TECHNICAL EDUCATION FACTOR

Assist districts in providing career and technical education services in grades 7-12. The district's previously adjusted ADM is multiplied by the vocational and technical education factor of 1.015.

Step 4: 15,453 -> 15,685

DISTRICT COST FACTOR

Cost factors are specific to each school district and dependent on geographic location. The district's school size adjusted ADM is multiplied by the cost factor.

Step 2: 12,035 -> 12,878

INTENSIVE SERVICES COUNTS

Adjustment for students meeting qualifications and receiving specialized services. The district's intensive count is added to the previously adjusted ADM.

Step 5: 15,685 -> 20,651 (AADM)

SPECIAL NEEDS FACTOR

Includes special education, gifted/talented, and bilingual/bicultural. The previously adjusted ADM is multiplied by the special needs factor.

Step 3: 12,878 -> 15,453

Correspondence enrollment (90%) is then added and the final AADM is then multiplied by the **Base Student Allocation (BSA)**, which is set annually by the State of Alaska, to determine the district's **Basic Need Entitlement**.

21,452 (AADM, rounded) x \$6,660 (BSA) = **\$142,870,526 (Basic Need Entitlement)**

The **Required Local Contribution** and the **Deductible Federal Impact Aid** are then determined.

The **Required Local Contribution** equals the full and true value of taxable property multiplied by the mill rate.

The **Deductible Federal Impact Aid** is: **\$9,233,680**

\$15,727,920,914 x .00265 = **\$41,678,990**

The **State Foundation Aid**, or the level of funding provided to the district from the State of Alaska, is determined by the Basic Need Entitlement subtracted by the Required Local Contribution and the Level of Federal Impact Aid.

Basic Need Entitlement	\$142,870,526
Required Local Contribution	- \$41,678,990
Level of Federal Impact Aid	- \$9,233,680
State Foundation Aid	\$91,957,856
