Social Studies	Curriculum	McGraw Hill IMPACT Social Studies						McGraw Hill NETWORKS Social Studies			
Science	Curriculum	Project Lead the Way			Project Lead the Way/ NGSS/ NYS Science Investigations			NGSS/NYS Science Investigations			

Universal Pre K- Scholastic PreK On My Way		
Language	Curriculum	Pre K On My Way: In the Language strand, children build and use vocabulary, engage in meaningful conversations, and develop oral language proficiency. The program uses narrative and informational texts as springboards for rich discussion. It supports scaffolded conversation, visual and kinesthetic prompts, and intentional vocabulary instruction to support receptive and expressive language
Literacy	Curriculum	Pre K On My Way: The Literacy strand supports early reading and writing through a print-rich environment and developmentally appropriate activities. Children explore a variety of text genres while developing phonological awareness, alphabet knowledge, emergent writing skills, and comprehension through read-alouds.
Math	Curriculum	Pre K On My Way: In the Math strand, mathematical thinking is celebrated as part of children’s play and everyday experience. Young learners explore numbers, shapes, patterns, sorting, measurement, and math language in context, through interactive read-alouds, small groups, purposeful play, and hands-on activities.
Assessments		Pre K On My Way: SEL Inventory, Alphabet Knowledge Inventory, Phonological Awareness Inventory, Math Inventory, Oral Language Inventory, Heggerty, DIAL-4

**** There are multiple other programs/ resources that individual teachers or grade level teams may use day to day.**
