Construction Technologies

Putting Their Hearts Into It

SkillsUSA is crafting their signature hearts for their annual fundraising project, bringing creativity and purpose together. This year, they've partnered with Strategy Game Club, who are stepping in as the Sales Department to help bring the project to as many staff and students as possible.

Construction Technology Scholars are making impressive progress as they build their project (mini home) and strengthen their technical skills. They have completed framing with load-bearing partitions and archways and have successfully installed both plumbing and electrical systems. The structure now features a flat roof with extended eaves above the front entrance, showcasing their growing craftsmanship and attention to detail.

Business/Marketing

Skills Showcase

MALC FBLA (Future Business Leaders Of America) competed in over twenty-four events at this year's Regional Conference. The medal winners are **Haylee Bower**, **Alek Paoli**, and **Giovanni Stewart** who took third place in the Leadership Circus. **Giovanni Stewart** earned first place in Customer Service. **Zoe Flores** wrote her way to a second in Journalism. **Katelyn Matsumoto** brought home first in International Business, third in Economics, and second in Public Administration. **Dominic Vaughan** took first in Health Care Administration, first in Organizational Leadership, and first in Public Administration.

Business Management 2 scholars are moving into the pre-sales phase of their entrepreneurial project, promoting custom MALC hoodies they designed themselves. Their work blends creativity with real-world business skills as they prepare to bring their product to market.

Career and Technical Education Program

News and Accomplishments

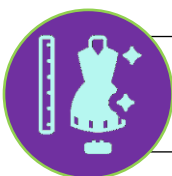

Business/Marketing

Continued

Business Management 1 scholars are learning about how education increases lifetime income in the Personal Finance unit. They are building a balloon tower with select advantages and disadvantages.

They use their Clash Cards to quiz one another about vocabulary words.

Fashion Design

Runway Ready

Fashion design students are busy creating pants as they prepare to showcase their work at the upcoming Taste of Bullhead City Fashion Show.

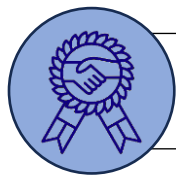

Culinary Arts

Cake Off

MALC Culinary students tested their creativity, technique, and teamwork in a lively bake-off. Their peers in the Strategy Game Club acted as judges, so everyone came away as a winner.
