2024-2025 School Accountability Report Card
(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/.
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/.

2025-26 School Description and Mission Statement

Hoover Middle School is committed to empowering all students to reach their full potential. By fostering a supportive and inclusive learning environment, we provide equitable access to high-quality instruction that values and builds upon each student's unique talents and passions. We guide students towards academic mastery while nurturing their critical thinking, resilience, and confidence, preparing them to excel in their education and contribute meaningfully to society.

Hoover's mascot is a husky, and our motto is P.A.C.K.: Prepared, Accountable, Compassionate, and Knowledgeable.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Hoover Middle School, built almost entirely in 1950, is the District's oldest middle school. HMS serves 7th- and 8th-grade students housed in four main classroom wings, a library, a full gymnasium with a stage, locker rooms, and restrooms, who utilize a band room, a relatively small "Husky Diner" cafeteria, and 26 site-built classrooms. Of the 6 portables on site, 2 are suitable for classroom instruction, and the others are used for storage and materials for after-school programs. A tone of safety and well-cared-for grounds and interior areas exist, as classrooms and the interior campus are secured behind ornamental iron and chain-link fencing, illuminated during evening hours as is the US flag by bright LED corridor and tall light pole fixtures, complemented by manicured shrubs and a rose garden entry, and monitored by 18 surveillance cameras strategically located. Since 6th-grade students are not housed at HMS, ample classroom space is available. Hoover underwent the most extensive modernization of all MCSD schools during the summers of 2015 and 2016. The project was driven by the site's age, which had not been modernized since it opened. Antiquated HVAC systems were no longer functioning properly, so a state-of-the-art VRF (variable refrigerant flow) HVAC system was installed campus-wide, and the electrical system infrastructure was completely replaced. Classroom interiors, lighting, technology, fire/life-safety systems, and window treatments were included in the project, as was significant re-roofing and installation of rain gutters and downspouts. Hoover now features major upgrades to science classrooms and the transformation of the unused old wood shop into an Innovation Classroom for science, technology, and project-based learning. In 2018, the outdoor student commons was completely reconstructed, featuring a large shelter equipped with lighting for evening use and nearby landscaping that beautifies the area. The project coincided with the installation of two very long solar arrays along the south side campus frontage, with motion-activated LED lighting to brighten the formerly dark student loading zone in the parking lot. Considerable site work has also been completed, including storm-drainage installation, new LED light poles installed along the school's frontage and in formerly dark areas, a new digital marquee, and much-improved access and parking that flank the District food-packaging center on the site. In 2019, the installation of 12 new basketball poles/goals, slurry-sealing and striping of outdoor courts, expansion of asphalt under the solar arrays to provide useful areas for exercise and shade, and both locker rooms received new heating and ventilation systems, paint, and additional restroom exhaust fans. Hoover's playfields are expansive and used by community recreation programs, and numerous repairs to the irrigation system have occurred over the years. 2020-21 improvements included remodeling the gym restrooms with new partitions, painting, LED lighting, and mirrors. In 2021, each of the school's four main wings was re-roofed in the final phase of a multi-year effort. Recommended planned improvements include renovations to the playing fields, upgrades to the irrigation system, and replacement of fencing, baseball/softball backstops, and associated amenities. The Facility Inspection occurred on 8/27/25.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

The Merced City School District recognizes that parents are their children's first teachers and encourages parents to participate in their children's educational programs. There are many opportunities for parents to participate in the decision-making process at Hoover Middle School. Parents elected to the School Site Council advise the school administration and approve the categorical programs budget. A parent from each school site is selected to represent the school as a member of the LCAP PAC. Parents of English Learners may participate in Hoover Middle School's English Learner Advisory Committee. The English Learner Advisory Committee advises the administration regarding the English Language Development program and matters relevant to English Learner students. A member of this committee is selected to represent Hoover Middle School at the District English Learner Advisory Committee. Parents, teachers, and students comprise the Parent Teacher Student Club, which coordinates fundraisers and other school events to benefit the student body and further strengthen the school's relationship with parents and students. Though participation looks different this year due to the COVID-19 pandemic, we are actively exploring ways for parents to stay involved and connected. Common opportunities for parental involvement include Back-to-School Night, Parent-Teacher Conferences, Student of the Quarter Awards, Open House, Engineering and Science Fair, celebrations, academic fairs, seasonal events, extended-day displays, and student performances. Additional opportunities to participate in district-wide Local Control Accountability Plan (LCAP) forums are shared with the parent population.

2025-26 School Safety Plan

Hoover Middle School provides a positive, safe, and maintained environment and facilities for students, staff, and community members. A Comprehensive School Safety Plan that addresses safety concerns through a systematic planning process has been reviewed with local law enforcement, parents, students, teachers, administrators, classified employees, and other people who may be interested in the prevention of campus crime and violence. As defined by Education Code 32280, a safety plan is a plan to develop strategies aimed at the prevention of, and education about, potential violence on the school campus. The Comprehensive School Safety Plan also addresses appropriate strategies that will provide or maintain a high level of school safety and addresses the school's procedures for complying with existing laws related to school safety. This includes topics such as disaster procedures, bullying, fire and other safety drills, procedures that ensure students have access to a safe place to learn, and more. The Comprehensive School Safety Plan was reviewed, updated, and discussed with school faculty by January 2026.

Professional Development

Over the past year, the Merced City School District (MCSD) has provided comprehensive professional development to all certificated staff, administrators, and instructional assistants, ensuring ongoing support for teaching and learning. This development aligns with the district's mission to deliver high-quality instruction, promote mastery of academics, nurture student confidence, and foster inclusive learning environments. It also directly supports the district's Key Areas of Focus: Literacy, Safety, and Relationships.

Professional Development

This school year, MCSD has committed over one hundred days to high-quality staff development, reinforcing our dedication to continuous growth and improvement. The professional learning sessions have been accompanied by practical modeling, demonstrations, and follow-up with observation, coaching, and feedback. These efforts have been carried out across our fourteen elementary schools, four middle schools, thirteen preschools, and the Community Day School, ensuring broad district-wide impact.

A key focus of this year's professional development continued to be the implementation of evidence-based strategies, particularly in structured reading, grounded in the Science of Reading principles. This emphasis aims to strengthen both Tier 1/Core instruction and Tier 2/Intervention across all grade levels and subject areas. By enhancing foundational reading skills and providing targeted interventions, MCSD aims to support improved academic outcomes for all students, ensuring a solid academic foundation and continued progress throughout the year. Additionally, professional development was focused on new supplemental curriculum to support our most striving readers: Handwriting without Tears and Learning Ally. Finally, the district contracted to provide Administrator Training through Center for Model Schools for 9 days plus site-based coaching at all 18 schools for four (4) days each, as well as Universal Design for Learning through Novak Education at all 18 sites for four (4) days each during the 2025-2026 school year.

This table displays the number of school days dedicated to staff development and continuous improvement.
