2024-2025 School Accountability Report Card
(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/.
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

Wright Elementary School provides a safe, clean, and orderly environment for students, staff, and volunteers. The core facilities built between 1947 and 1949 include the first two wings, which house the administration offices and health services spaces,

original student restrooms, a large kindergarten classroom, and primary grades classrooms. At nearly eighty years old, the large cafeteria/multi-purpose room (MPR) with cooking kitchen and staff lounge flanks the frontage of the wonderful neighborhood school. The site now houses students in 18 site-built classrooms and 8 portables. The school has been re-roofed with standing-seam metal panels and a reflective coating to enhance energy efficiency, featuring a large solar array that provides playground shade and another lighted solar array that shelters students in the loading zone and landscaped parking lot, near a bright digital marquee. In 2018-19, all site-built classrooms and student restrooms were reconstructed and upgraded, bringing them up to date and featuring VRF (variable refrigerant flow) HVAC systems. The MPR was also modernized, including a new HVAC system to replace antiquated swamp coolers, the stage was updated with new lighting and musical instrument storage to augment VAPA programs, a new wheelchair lift was installed, and interior painting, new wall finishes, and new projection equipment were installed. Site improvements featured a student loading zone built concurrently under a solar array canopy, construction of new basketball/volleyball courts, and an operational services and storage yard to enclose waste dumpsters and mechanical equipment, significant storm-drainage infrastructure to address periodic site flooding, and installation of ornamental iron security fencing and accessibility improvements along the entire frontage of the school. The project modernized all site-built classrooms, including casework, sinks/drinking fountains, classroom technology upgrades, major modernization and furnishings in the library, campus-wide LED lighting upgrades, and construction of new ADA restroom facilities for both students and staff. In 2019, a new kindergarten play structure with integrated shade features was installed. Planned improvements include an outdoor learning and dining shelter. Construction of a new permanent special-education services building with restrooms is recommended to replace aged portables. The last facility inspection occurred on 12/31/2025.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade Level	Component 1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility
Grade 5	97.4%	96.2%	97.4%	96.2%	98.7%

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

The Merced City School District recognizes that parents are their children's first teachers and encourages parents to participate in their children's educational programs. There are many opportunities for parents to participate in the decision-making process at Wright Elementary School. Parents elected to the School Site Council advise the school administration and approve the categorical programs budget. A parent from each school site is selected to represent the school as a member of the LCAP PAC. Parents of English Learners may participate in Wright Elementary School's English Learner Advisory Committee. The English Learner Advisory Committee advises the administration regarding the English Language Development program and matters relevant to English Learner students. A member of this committee is selected to represent Wright Elementary at the District English Learner Advisory Committee. Parents, teachers, and students comprise the Parent Teacher Club, which coordinates fundraisers and other school events to benefit the student body and further strengthen the school's relationships with students, families, and the community. We continue to actively explore ways to build these connections. Common opportunities for parental involvement include: Back-to-School Night, Parent-Teacher Conferences, celebrations, awards ceremonies, seasonal events, Open House, academic fairs, extended-day displays, and student performances. Additional opportunities to participate in district-wide Local Control Accountability Plan (LCAP) forums are shared with the parent population.

2025-26 School Safety Plan

Charles Wright Elementary School provides a positive, safe, and maintained environment and facilities for students, staff, and community members. A Comprehensive School Safety Plan that addresses safety concerns through a systematic planning process has been reviewed with local law enforcement, parents, students, teachers, administrators, classified employees, and other people who may be interested in the prevention of campus crime and violence. As defined by Education Code 32280, a safety plan is a plan to develop strategies aimed at the prevention of, and education about, potential violence on the school campus. The Comprehensive School Safety Plan also addresses appropriate strategies that will provide or maintain a high level of school safety and addresses the school's procedures for complying with existing laws related to school safety. This includes topics such as disaster procedures, bullying, fire and other safety drills, procedures that ensure students have access to a safe place to learn, and more. The Comprehensive School Safety Plan was reviewed, updated, and discussed with school faculty by January 2026.

Professional Development

Over the past year, the Merced City School District (MCSD) has provided comprehensive professional development to all certificated staff, administrators, and instructional assistants, ensuring ongoing support for teaching and learning. This development aligns with the district's mission to deliver high-quality instruction, promote mastery of academics, nurture student confidence, and foster inclusive learning environments. It also directly supports the district's Key Areas of Focus: Literacy, Safety, and Relationships.

This school year, MCSD has committed over one hundred days to high-quality staff development, reinforcing our dedication to continuous growth and improvement. The professional learning sessions have been accompanied by practical modeling, demonstrations, and follow-up with observation, coaching, and feedback. These efforts have been carried out across our fourteen elementary schools, four middle schools, thirteen preschools, and the Community Day School, ensuring broad district-wide impact.

A key focus of this year's professional development continued to be the implementation of evidence-based strategies, particularly in structured reading, grounded in the Science of Reading principles. This emphasis aims to strengthen both Tier 1/Core instruction and Tier 2/Intervention across all grade levels and subject areas. By enhancing foundational reading skills and providing targeted interventions, MCSD aims to support improved academic outcomes for all students, ensuring a solid academic foundation and continued progress throughout the year. Additionally, professional development was focused on new supplemental curriculum to support our most striving readers: Handwriting without Tears and Learning Ally. Finally, the district contracted to provide Administrator Training through Center for Model Schools for 9 days plus site-based coaching at all 18 schools for four (4) days each, as well as Universal Design for Learning through Novak Education at all 18 sites for four (4) days each during the 2025-2026 school year.

This table displays the number of school days dedicated to staff development and continuous improvement.
