

A FUN AT-HOME ACTIVITY FOR FAMILIES

DESIGN YOUR DREAM LEARNING SPACE

Help your child think like a designer! Together, you'll imagine and create a learning space that makes studying fun, comfortable, and inspiring.

WHAT YOU'LL NEED:

Paper

Crayons/markers

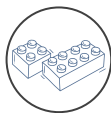

Optional Supplies:

Tape or glue

Recycled materials (boxes, paper towel rolls, etc.)

Legos or play-dough

Tablet for digital drawings

Camera

Want to see real school designs in action? To learn more about school planning, construction, and projects happening at your child's school, visit www.puyallupsd.org/capitalprojects. Explore how schools are built and improved to support student learning!

STEP 1: IMAGINE (10 MINUTES)

Start with a fun conversation:

- "What would the best classroom ever look like?"
- "What helps you focus and learn better?"

Look around your home — where does your child like to learn? What makes that space special?

STEP 2: CHOOSE A FOCUS (5 MINUTES)

Pick one area to design:

- **Furniture Setup** – Where should desks, chairs, or cozy reading spots go?
- **Technology** – What tools (computers, lights, whiteboards) would help?
- **Green Spaces** – How could plants, windows, or outdoor areas improve learning?

STEP 3: DESIGN & CREATE (15–20 MINUTES)

Time to bring ideas to life!

- **Draw it** – Sketch your dream classroom.
- **Build it** – Use blocks, Legos, or recycled materials to make a mini model.
- **Go digital** – Try an app like Tayasui Sketches or Google Jamboard.

STEP 4: SHARE & DISCUSS (10 MINUTES)

Have your child explain their design:

- "Why did you include these features?"
- "How does your design help kids learn better?"

Bonus: Take a picture of their project and share it with the **Foundations for Our Future** (FFOF) crew at capitalproject@puyallupsd.org a few lucky designs will be shared on our FFOF Facebook and Instagram pages.
