iPad WiFi and Content Filter Login

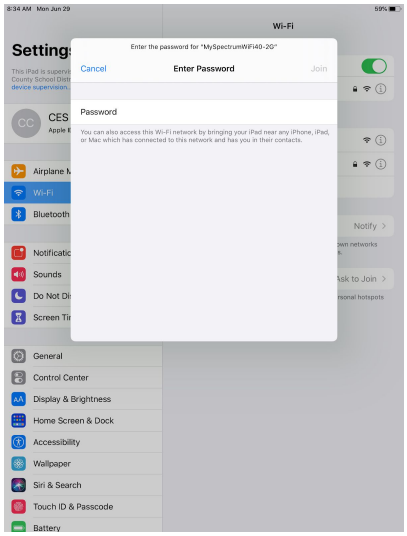

On the main iPad screen, click on the **Settings** icon.

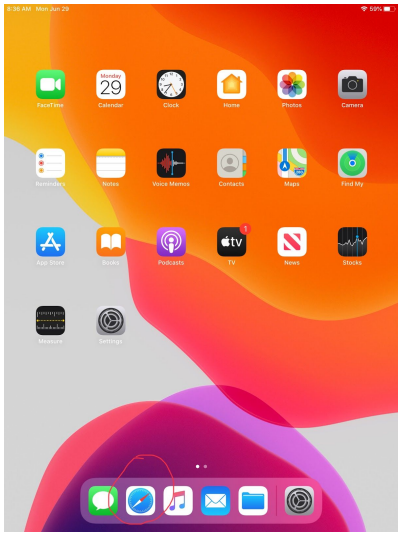

Then click on **WiFi**.

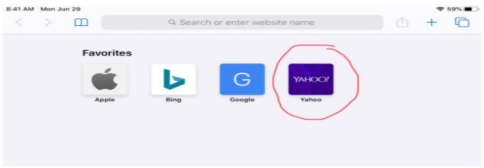

Now you will select the WiFi network that you wish to connect to and enter the password if needed. You should now be connected to the internet.

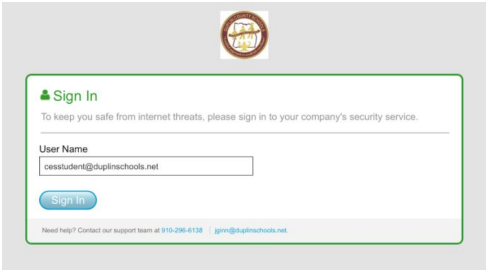

Next, you will login to the filter. Click on the **Safari** Web Browser.

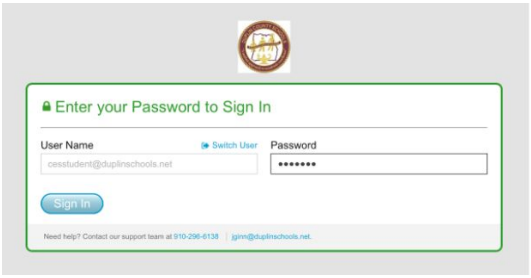

Then on the home screen, you can choose to go to any website (We used Yahoo).

This will prompt you to sign in to our Internet Filter, which you must do before you can use the internet on this device. Enter the student email address, and then click **Sign In**.

You will then enter the email password for the student email address and click **Sign In**.

Congratulations. You are now signed into the filter and will be able to access the Internet.
