II. Strategic Technology Planning

1. What is the overall district mission?

We will provide students with opportunities to develop the skills needed to achieve their life goals and to thrive as independent, informed, and productive members of society. “ONE Dunkirk” reflects our shared responsibility, commitment, and ownership of these outcomes.

2. What is the vision statement that guides instructional technology use in the district?

We will leverage instructional technology to create equitable, engaging, and personalized learning opportunities for all students. By integrating digital tools, devices, and data-informed resources into every classroom, we will empower students to develop critical skills, achieve academic excellence, and participate fully as independent, informed, and productive members of society. This vision reflects our commitment to shared responsibility, collaboration, and continuous improvement across ONE Dunkirk.

3. At the start of the 2026-27 school year, will the district provide a dedicated mobile device for every student in all grades?

No

V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities “everywhere, all the time” (National Technology Plan)?

The district’s strategic use of instructional technology will drive a comprehensive and sustained effort to improve student performance and elevate academic standards while ensuring equitable learning opportunities “everywhere, all the time”.

We will begin by upgrading the core technology infrastructure, including network switches, wireless access points, servers, firewalls, and cabling. This investment will provide the reliable, high-capacity connectivity essential to supporting our digital curriculum, assessment platforms, Multi-Tiered System of Supports (MTSS) data systems, and dynamic classroom learning environments. These critical infrastructure upgrades guarantee that instructional tools and online interventions function consistently and reliably across all grade levels, enabling uninterrupted access to high-quality learning experiences for every student.

Equally important, the district will invest in comprehensive professional development to build staff capacity in using instructional technology effectively. Educators will gain necessary expertise in curriculum-aligned platforms, data dashboards, MTSS tools, cybersecurity best practices, and district-approved software. This training reinforces core instructional priorities, such as explicit instruction, the Science of Reading implementation, Social-Emotional Learning (SEL) integration, and progress monitoring. This focused professional development ensures that staff are confident, informed, and secure users of technology, able to leverage digital tools to deeply engage students, support professional collaboration, and communicate effectively with families.

Finally, by providing and maintaining modern instructional technology—including teacher devices, interactive displays, document cameras, audio systems, and a sustained Chromebook program for grades K–12—the district guarantees equitable access to personalized learning, online curriculum, assessments, and targeted interventions. Students benefit directly from reliable, functional devices, while teachers are empowered to drive data-informed instruction, differentiate learning, and engage students across diverse modalities.

Together, technology plan will create a digitally rich, secure, and accessible learning ecosystem that holistically supports academic excellence for all students, regardless of location or circumstance.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (*Select all that apply)***

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☑ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☐ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district’s response to any related question(s) in the SSIP.

The district does not have an active SSIP.

VI. Administrative Management Plan

1. Staff Plan

Provide the Full-Time Equivalent (FTE) count, as of plan submission date, of all staff whose primary responsibility is delivering technology integration training and support and/or technical support.

	District Employed Staff (FTE)	**Staff Contracted Through Vendor or BOCES (FTE)**
District Technology Leadership	1.00	0.00
Instructional Support	1.00	0.00
Technical Support	0.00	3.00
Totals:	**2.00**	**3.00**

2. Has the school district provided for the loan of instructional computer hardware to students legally attending nonpublic schools pursuant to Education Law, section 754?

Yes

3. Districts are required to post an Instructional Technology Plan on their website. Please provide the URL link as evidence of this requirement.

https://www.dunkirkcsd.org/departments/technology/technology-plan
