

JENKINS MIDDLE SCHOOL

CONSTRUCTION

UPDATE

We are thrilled to share the exciting progress at Jenkins Middle School as we look ahead to the 2026–27 school year. Construction of our new school building is on track for completion in time to welcome students into a learning environment designed for the future. This milestone represents a major investment in our students, staff, and community, and we could not be more excited about what's ahead.

The new Jenkins Middle School will be state of the art, featuring a brand-new media center and an entirely new wing that expands learning opportunities across campus. Classrooms will be modern, flexible, and equipped with the latest technology to support collaboration, creativity, and innovative instruction. Every space has been thoughtfully designed to enhance student engagement and prepare learners for success in a rapidly changing world.

To help bring this vision to life, computer renderings of the new building are included on this flyer, offering a preview of the dynamic spaces our students will soon enjoy. We look forward to opening the doors to this incredible new facility and beginning an exciting new chapter for Jenkins Middle School.

We will keep you posted with updates.
