

IMMUNIZATION REQUIREMENTS FOR 7th GRADE

Dear Parents or guardians,

Students who are entering 7th grade **are required** to receive the immunization **Tdap**, Meningococcal (**MCV4**) vaccine, and all other age appropriate vaccines.

This immunization **must** be received **prior** to the start of the school-year. As with other school immunizations requirements, Section 3313.671 of the Ohio revised Code states that students who do not provide documentation of this immunization are subject to exclusion from school.

I strongly urge you to call your healthcare provider as soon as possible and get your child vaccinated.

The physician's offices and shot clinics get very busy in the summer and at the beginning of a new school year. I recommend that you have your child vaccinated *before* the end of this school year in order to avoid the "summer rush" and the "back to school" avalanche and possibility of exclusion at the beginning of next school year!

Any documentation showing proof of vaccination can be mailed to the address below or emailed to dsutton@eastwoodschoools.org.

Eastwood Middle School
4800 Sugar Ridge Rd
Pemberville, OH 43450

If you have questions or concerns regarding immunizations, please contact Dannelle Sutton RN, School Nurse at dsutton@eastwoodschoools.org. For additional information you may call the Ohio Department of Health (ODH) Immunization Program hotline at 800-282-0546, or visit the ODH website. Thank you for your cooperation with these mandates.

Student Name: _____

Date of **Tdap** vaccine: _____

Date of **MCV4**: _____
