

## Pakistan

Pakistan is a very beautiful and interesting country, so let's learn more about this amazing place! The population of Pakistan is 255,219,554, that is many people living in a country. Pakistan is also 881,913 kilometers. Pakistan's name is also very unique, if you translate it from Persian it means "Land of the Pure". Pakistan is actually located in Asia. The capital of Pakistan is called Islamabad, it's a very pretty name, I know.

Now, let's talk about what's in Pakistan. The tallest mountain in Pakistan is K2, it's a very unusual name considering that it has a number in its name. The longest river in Pakistan is the Indus river and it is 1,988 miles long! The largest city in Pakistan is Karachi. Pakistan may not have any states, but it does have provinces, 4 of them actually ! Their names are Punjab, Sindh, Khyber, and Balochistan.

Pakistan also has neighboring countries. Its neighboring countries are India (eastern neighbor), Afghanistan (western neighbor), Iran (another western neighbor) and finally China (northern neighbor).

Pakistan also has a president just like every other country. His name is Asif Ali Zardari, and he is the current president of 2025.

A fun fact is that 75 percent of the country's flags have red in them, and Pakistan is one of the 25 percent that doesn't have red in their flag! Its flag is green and white, the green represents Islam and the white represents religious minorities living side by side .

Pakistan has many interesting facts about it, like how Pakistan actually used to be part of the British Indian Empire and also it is the site of many ancient cultures.

There are many famous people in Pakistan such as actors Hania Amir and Mahira Khan. Hania first started with comedy films and Mahira Khan made her debut in Blockbuster.

As for religions many people are Muslim such as Muhammad Ali Jinnah who is the founder of Pakistan. The official languages in Pakistan are Urdu and English. Pakistani food has rich dishes such as Biryani, Nihari, Haleem and much more. Traditional clothes in Pakistan are the Shalwar Kameez, the Shalwar are the trousers and the kameez is the tunic. There is also the Anarkali Kurta pajama.

There are many popular dances such as the Khattan, Bhangra, Jhummar, Luddi, and Dhamal. A few famous songs are Zaroori Tha, Pal Pal, Jhol, and Mehmaan.

There are many important holidays in Pakistan, but the ones I picked out were Eid-ul-Fitr, Pakistan Day (March 23rd) Defense day (September 6th), and Eid-ul-Adha (May 26-27).

One of the most famous landmarks in Pakistan are Minar-e-Pakistan (located in Lahore), there is also Banjosa lake in Poonch District of Azad Kashmir, and Faisal Mosque (located in Islamabad).

This is the end of my project about Pakistan, and I hope you learned something from my project, and I will see you next time!
