**ADDENDUM 3 IMPORTANT DOCUMENT –
Central Elementary & Country Oaks Elementary Re-cabling Project for
Hendry County School
ADDENDUM DATE: February 2, 2026**

**Information technology Related Document-
Q&A Additional Responses**

14 Q: Sheet labeled "Category 2 Basic Maintenance of Internal Connections Version 21". Is this sheet applicable to us as a service provider as it references monthly costs of maintenance? Or, is this sheet to be filled out by HCSD for the E-Rate application?

a: This document is not applicable to the HCSD cabling RFP, as the scope includes no basic maintenance components. With no monthly fee or maintenance services requested, Basic Maintenance Item 21 is not necessary.

15. Q: Sheet labeled "Category 2 Internal Connections Version 21". We can fill out the material breakdown, but again the monthly costs would not apply to this bid. Normally we just include a spreadsheet of material breakdown with description, part number, quantities, etc. with our bids. Please advise how you

would like this form filled out, so we do not inadvertently leave out any information.

a: Internal Connections is the only Item 21 sheet that needs to be completed for this type of project. USAC requires that specific sheet to be uploaded with the Form 471, and in most cases, it fully covers the information needed for Category Two cabling. The bidding vendor provides an itemized list that aligns with the Internal Connections categories, those details can be manually entered into the Item 21 Excel file. For fields that don't apply, such as monthly recurring charges, this is typically marked as zero 0 since there are no recurring costs.
