2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Mission Elementary School is a student-centered, nurturing learning community committed to providing all students with a high-quality education through strong partnerships with families and the broader community. Our dedicated staff fosters a supportive and engaging environment where every student is encouraged to grow and succeed. We view learning as a lifelong process that begins at home, is strengthened at school, and continues beyond the classroom. Mission Elementary is committed to helping students build a positive self-image, self-discipline, respect for others, academic independence, and strong communication skills. Teachers employ a variety of instructional strategies throughout the day to actively engage students and support learning in rich, inclusive classroom settings. In addition, the school offers a range of programs, including after-school care, outdoor education, and extended learning opportunities.

2025-26 School Description and Mission Statement

Vision

Mission Elementary School promotes collaboration among staff, students, families, and the community to create a safe, supportive learning environment where students achieve proficiency or exceed standards in all academic areas.

Mission

Mission Elementary School is committed to providing every student with a rigorous, comprehensive, standards-based education.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

Mission Campus is equipped with adequate classrooms, staff, and ancillary spaces, including:

- 26 classrooms (sufficient for each teacher to have their dedicated classroom)
- Staff Lounge with bathrooms
- Teacher Workroom
- Two student dining areas: a Multipurpose room and a covered patio area, accommodating approximately 200 students
- 11 student bathrooms are distributed around campus
- Two separate playgrounds: one for primary students and one for upper-grade students, each featuring a field, basketball area, and grassy space

Currently, there are no planned or ongoing facility improvements.

To ensure student safety, Mission Elementary School operates as a closed campus. Gates are locked during the school day, and visitors are required to enter through the main office, where they must sign in at the front desk before entering the school premises. Visitors must present a valid California ID, and staff members must display their district badges.

Mission Elementary School offers student supervision before, during, and after school. Supervision in the mornings is done by the administrative team, support team, and proctors. Teachers and proctors offer recess duty supervision. Adult proctors supervise lunch and lunch recess. The administration team offers after-school supervision, support staff as well as teachers.

School Facility Conditions and Planned Improvements

The district governing board has established cleaning standards for all schools, and Mission School is maintained to ensure it remains clean and in good working condition. The principal collaborates with the three-member custodial staff to develop cleaning schedules, ensuring that classrooms, offices, and restrooms are cleaned daily, with restroom checks conducted periodically throughout the day. Both staff and students work together to maintain a clean and orderly school environment that everyone can take pride in.

The district is committed to maintaining clean, safe, and functional schools. Site and district maintenance and grounds staff work diligently to ensure the school is well-repaired and aesthetically pleasing. A work order process is in place to provide efficient service, with emergency repairs related to staff and student safety given the highest priority.

To support this effort, the district's Operations Department conducts an annual, comprehensive evaluation of each school to assess the condition of its facilities and identify areas in need of maintenance, repair, or upgrades. The district utilizes a facility survey tool developed by the State of California Office of Public School Construction to guide data collection during the inspections. All findings are shared with the principal, and work orders for necessary repairs are generated at that time. The results of the survey are available at both the school and district offices.

The most recent FIT inspection was completed on November 6, 2025.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Mission School has a long-standing tradition of building strong partnerships with parents and the community. Our School Site Council (SSC) plays a vital role in collaborative, shared decision-making and represents the entire school community. The SSC is responsible for approving school improvement funds, the school-based coordinated plan, curriculum, budgets, and other key initiatives that support student success.

Mission School actively invites parents and community members to contribute their time, expertise, and talents to enrich our students' learning experiences. The Mission SELPAC works to keep families informed about school and district programs while advising staff on issues affecting English learners. In addition, the Parent Group SEPAC advocates for students with special needs, and the GATE program supports the unique needs of gifted and talented students.

Throughout the year, Mission School also offers a variety of parent workshops focused on topics such as parenting strategies, homework support, social-emotional support, discipline, and effective school-family collaboration. To ensure accessibility, workshops are offered at different times and in both English and Spanish, with childcare provided to encourage participation.

Professional Development

The Ontario-Montclair School District (OMSD) provides ongoing, research-based professional development for certificated, classified, and management employees that is aligned with the district's long-term goals. Professional development is designed to improve staff knowledge and skills in order to support high-quality instruction and maximize student learning and achievement. Training opportunities are developed and coordinated through the district and at individual school sites.

All Professional development opportunities are aligned with instructional and management priorities identified in the district's strategic plan and each school's improvement plan, which are informed by the analysis of student performance data. At both the school and district levels, professional development focuses on core curriculum, instructional strategies, standards-based instruction, social-emotional learning, and classroom management. District-level offerings also include support for beginning teachers through induction programs, credentialing coursework, assistance for experienced teachers through the Peer Assistance and Review (PAR) program, technology training and classroom support, leadership development for administrators, compliance-related training, and required job-specific training for classified staff.

The district supports ongoing instructional initiatives such as NGSS, Wonders, Eureka, QTEL, HSS, and PBIS. District-trained coaches provide continuous support at school sites to ensure effective implementation of these programs. At Mission School, teachers participate in Professional Learning Communities with the Site Instructional Support Team to strengthen instructional practices. Instructional decisions are guided by the review and analysis of assessment data to support continuous improvement and student achievement.

This table displays the number of school days dedicated to staff development and continuous improvement.
