Local Wellness Policy Procedures

The Local School Wellness Policy (LSWP) is visible to the public by accessing Forsyth County School Board Policy EEE. A link to this document is available on the Forsyth County Schools (FCS) Food and Nutrition Services (FNS) website.

The LSWP will be reviewed annually by the Coordinated School Health Council (CSHC). The CSHC is headed by the Director of Food and Nutrition. Opportunity to provide input (review, development, updates and implementation) on LSWP procedures will be made available to the public in the following ways:

- Each school's Local School Council (LSC) will review the LSWP on an annual basis to monitor, review, and if necessary, provide input to the CSHC.
- Opportunity for input will also be offered to health care professionals, school food authority staff and students via the FCS FNS website.
- All families will be notified of the ability to provide input via a posting in the annual FCS Family Engagement Guide (Handbook).

The CSHC includes, but is not limited to the following positions:

- Director of Food and Nutrition
- Food and Nutrition Registered Dietician
- Associate Superintendent of Special Education
- District Wellness Coordinator
- District Professional Learning Specialist

The LSWP Triennial Assessment will be conducted by the CSHC every three years or more often if necessary. CSHC last reviewed the LSWP in December 2025. The next triennial assessment will be completed prior to December 2028.
