

Dave Reichenberger Legacy Scholarship

Dave Reichenberger was devoted to guiding Appleton East High School students in their pursuit of education. Mr. Reichenberger found great joy in helping students discover and develop their aptitude and passion for mathematics. He also loved telling and hearing a good “dad joke.” In honor of Mr. Reichenberger’s service to his students, his family offers an annual \$1,500 scholarship. To be considered, candidates must have at least a 3.0 cumulative GPA at Appleton East, plan to major in mathematics or an adjacent field (engineering, statistics, STEM), and complete a short essay. The recipient will be a strong math student with ambitions to pursue a career in a math-related field.

Full Name: _____

Cumulative High School GPA: _____

Major: _____

College/University: _____

In 500-750 words, please write an original essay about your unique relationship to math and how it influences your view of the world around you. Consider one the following as potential subjects of your story.

- What specific moment or concept transformed math from a subject at school into a personal passion?
- How does mathematical logic help you interpret challenges and/or patterns in the world around you?
- How will mathematics shape your college and career plans? How will this scholarship help you reach your goals? When writing your essay, try to let the scholarship committee know how your situation may be different from other applicants.

Please submit the completed form and essay by April 15:

HOFFMANNHAYDEN@aasd.k12.wi.us

The scholarship winner will be notified on May 4, Mr. Reichenberger’s birthday.
