SIS

In the last 3 years since coming from the Dominican Republic, Jeurys Abreu Gomera has shown impressive academic growth and an increasing sense of self-assurance in the classroom. He has dedicated himself to mastering English, and his progress is evident in his expanding vocabulary and clearer communication. His growing language proficiency has definitely helped him gain a tremendous amount of confidence to engage more actively in discussions in the classroom and produce high-quality written work. When in the Dominican Republic, Jeurys played baseball but now that he is here in America, he has come to love playing soccer and football. He also enjoys listening to music and playing video games.

We are thrilled to feature Leandro in this month's spotlight! Having worked with Leandro for several years, it has been a true privilege to watch him grow and progress academically. He is recognized by his teachers and peers as a diligent and hardworking student. He has shown remarkable improvement over the years and we are impressed by his accomplishments. In addition, Leo always has a smile on his face and consistently has a warm greeting for his teachers and classmates. It's no surprise that Leo has lots of friends; his kindness makes everyone feel welcome.
