

# Finding Scholarships on SchoolLinks

1

## **Log In**

Open your ClassLink LaunchPad and select SchoolLinks from your dashboard.

2

## **Navigate to Scholarship Matching**

Once in SchoolLinks, select “College” and then “Scholarship Matching” from the menu on the left side of the screen.

3

## **Tell SchoolLinks About You**

Complete the profile questions so the system can match you with scholarships that best fit your interests, background, academics, and future plans.

4

## **Browse and Favorite Scholarships**

Scroll through the scholarships that appear and choose the ones you want to apply for. Mark them as favorites to save them on your list.

5

## **Stay Organized**

Use the toolbar at the top of the page to see your favorited scholarships. You can also browse **District Posted** scholarships from this toolbar as well.

6

## **Set an Application Goal**

Decide how often you want to apply—maybe one per week or three per month. Sticking with a goal makes a big difference!

**Remember:** if one scholarship takes two hours and you earn \$500, that’s like being paid \$250 per hour!
