

# ROOTED. READY. RISING.

Building the Future of St. Martin's Episcopal School

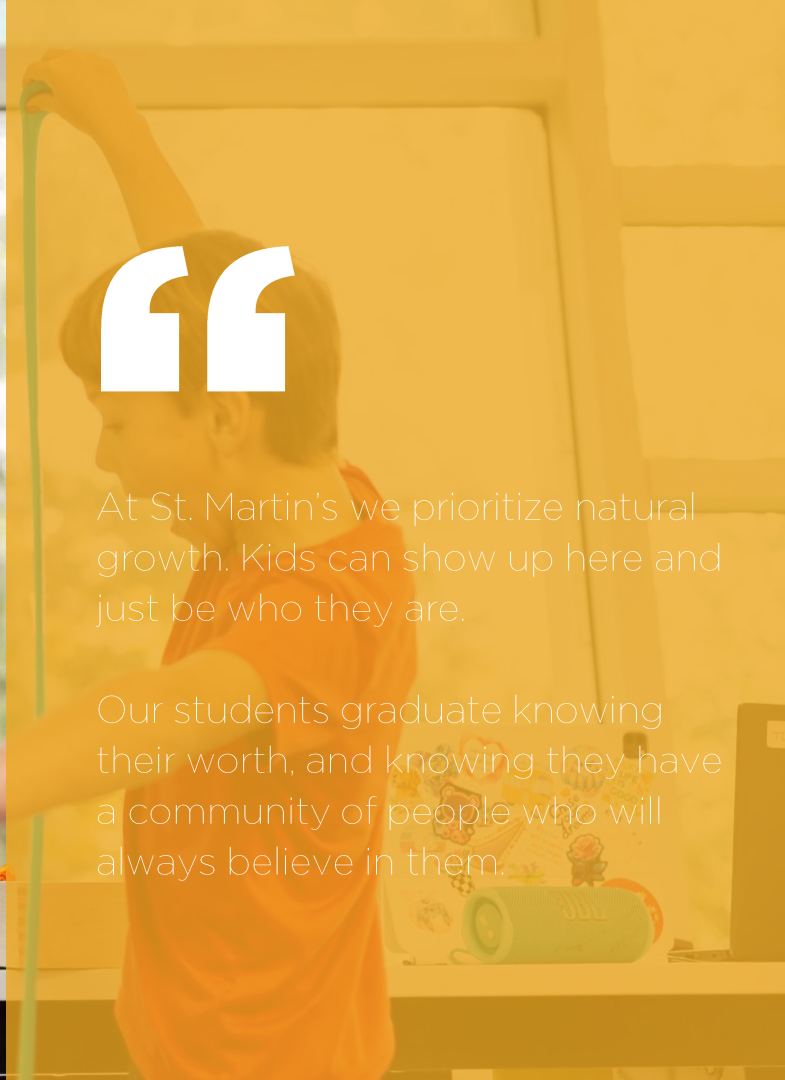

St. Martin's  
EPISCOPAL SCHOOL

“

At St. Martin's we prioritize natural growth. Kids can show up here and just be who they are.

Our students graduate knowing their worth, and knowing they have a community of people who will always believe in them.

# OUR MISSION

---

## OUR 2025-26 REACH

**600**  
students

**150+**  
faculty & staff

For more than 65 years, St. Martin's Episcopal School has nurtured curiosity, compassion, and community—empowering children to grow into confident learners and kind leaders.

St. Martin's Episcopal School is dedicated to providing a quality education of the whole person in a loving, Christian atmosphere, which fosters lifelong learning.

# OUR MOMENT.

---

## Now, our moment calls for action.

Guided by our strategic plan and campus master plan, we are launching **ROOTED. READY. RISING.** — a focused effort to strengthen faculty support, deepen commitment to the **St. Martin's Fund**, and invest \$8M to modernize **Warrior Hall**, the heart of our campus.

“

Now is the time for our campus to reflect and elevate the extraordinary education our students experience.

Together, we step forward with boldness and belief in all that's possible.

ROOTED. READY. RISING.

# Empowering Our People

This campaign centers on  
what makes St. Martin's special  
and strong—**our community.**

## ST. MARTIN'S FUND

This past fall, we grew the St. Martin's Fund, a crucial tool that sustains our programs and facilities and inspires extraordinary learning opportunities and experiences, from 63% to 80% parent participation.

## FACULTY EXCELLENCE FUND

Through the generosity of an SMES family and an \$1 million school investment, we have established a **Faculty Excellence Fund** which will support faculty recruitment, retention, and celebration.

## ENHANCING FACILITIES

As we build awareness and enthusiasm for these ongoing philanthropic tools, we invite you to help launch our campus' next chapter.

ROOTED. READY. RISING.

# Investing in Warrior Hall: \$8M

## TRANSFORMING THE HEART OF CAMPUS

At St. Martin's, our gifted faculty and culture of care create an unparalleled environment for learning and growth; our physical spaces must reflect the innovation and excellence that define our program.

Warrior Hall connects every division of our school—housing Lower School classrooms, library, art and science labs, and key co-curricular programs. Its aging design limits collaboration, visibility, and flow.

# A Modern, Connected Learning Hub

Through an \$8 million capital sprint, **we will transform Warrior Hall, elevating our co-curricular spaces, maximizing collaboration, and enhancing the learning experience for every student.** We will:

- Create 16 flexible, light-filled classrooms that reflect the innovation & energy of our learning;
- Expand and modernize our Art and Science Labs to provide space for dedicated discipline-work and interdisciplinary connection between classes;
- Reimagine our media center by creating multi-use space for community gatherings with mobile walls; &
- Enhance the overall learning experience for our students, reinforcing the pride and sense of belonging that define St. Martin's.

**In just months, today's closed corridors & dated classrooms can become light-filled, flexible learning spaces where collaboration, creativity, and confidence flourish.**

INSPIRATIONAL IMAGERY

# Project Milestones

**JAN – FEB:** Design underway, construction partner and permitting in progress

**APRIL:** Finalize permits and order materials

**MAY:** Student leaves campus and site prep begins

**JUNE – AUG. 1:** Classroom & corridor construction

**FALL 2026 – VISION REALIZED**  
A transformed Lower School hub for learning, collaboration, and community.

## A SUMMER THAT CHANGES EVERYTHING

This summer window is rare and critical for our students.

We cannot begin work on June 1 without all funds pledged in advance.

Full funding now determines what is possible for students this fall.

ROOTED. READY.

RISING.

SELECTED NAMING OPPORTUNITIES

LOWER SCHOOL SPACES:

Science Lab & Classroom	\$250,000
Arts Lab & Classroom	\$250,000
Co-curricular Rooms (Spanish, Religion)	\$100,000
Conference Room	\$100,000

# PLEASE JOIN US.

The next 90 days determine what our children walk into this fall.

**ROOTED. READY. RISING.** is our opportunity to reaffirm our collective commitment to empowering our children with the gift of an exceptional St. Martin's education.

With your commitment to this effort, we will build not just a better building, but a stronger foundation for the next generation of students.

Together, we will honor our legacy, invest in our people, and ensure that St. Martin's remains a place where children flourish—today and for decades to come.

# Thank You

St. Martin's Episcopal School
