STEAM Micro-credential for STEM Endorsed Professionals

Metro RESA offers a **STEAM Micro-credential** for professionals who hold a STEM endorsement. The coursework includes two asynchronous and two synchronous STEAM focused sessions and the submission of a STEAM Portfolio. To enroll, candidates must hold a STEM Endorsement on a Georgia Teaching Certificate.

This table outlines the work completed during the STEM endorsement (assignments may vary if obtained at another PSC approved STEM program) and the additional portfolio assignments required to add the STEAM micro-credential.

Previously Completed in the STEM Endorsement*	**Adding STEAM Micro-credential to existing STEM certification**
STEM Certified School Visit	Visit to a **STEAM certified school**
Technology Integration Lesson + Reflection	**Arts Integration Lesson +Reflection** *in Collaboration with an Industry Arts Partner**
Collaborative Conversations – *ongoing guided conversations with colleagues*	Conversations with arts colleagues about ways to integrate disciplines of art
STEM Partner Project	**STEAM Partner Project** **Arts Integration lesson meets this requirement*
STEM PBL Unit & Differentiated Assessment	**STEAM PBL Unit** *Summary of how the arts could be integrated and assessed in previously submitted PBL STEM unit*
Professional Resources Collection	Collection of STEAM resources

Cost:

- $150 for the 2 PLU course
- Once enrolled, the candidate has one year to complete the assignments.
