YSD1 Closed Wednesday, February 4, 2026

York, SC – District administration, maintenance, and operations teams have been assessing road conditions across the district throughout the day. We have also been in communication with York County Emergency Management. While we have seen significant thawing, some areas of the district, particularly in the western and northwestern communities, remain covered in snow and ice, creating hazardous road conditions for buses, student drivers, and families.

Safety remains our top priority. Please understand that decisions concerning school closings and delays are based on conditions across the entire school district. While conditions may be significantly improved in some areas, conditions may not be safe in other areas. **Based on our observations and assessments across the district today, York School District One will continue with asynchronous eLearning on Wednesday, February 4, 2026.** This decision was not made lightly, and we understand eLearning is not ideal for students.

We will continue to closely monitor road conditions, school facilities, and weather updates throughout the day on Wednesday. A decision regarding school operations for Thursday will be communicated late Wednesday afternoon. We are extremely hopeful that the forecasted temperatures above freezing will allow the remaining ice and snow to thaw quickly.

We look forward to being able to welcome all of our students and staff back soon!
