

## Paul and Carol Brickner

Paul and Carol Brickner's service to the Hopewell-Loudon School District dates back over fifty years.

As Athletic Booster president for 8 years, Paul was instrumental in the pursuit of a second gymnasium at the original school building. This dream came to fruition as the Chieftain Gymnasium

was completed in 1988. Mr. and Mrs. Brickner were also involved with the building of the weight room/concession stand and the press box we use today. Through the years they have re-upholstered many of the benches and seats in the weight room. The safety pads for the original football goal posts were made by Paul and Carol. Paul worked on the football chain gang and helped line the field for games. He made sure the football equipment was in good repair, and often drove the equipment bus to away games.

While Paul was busy doing whatever was needed or asked of him, Carol did her fair share of volunteering as well. She sold tickets, and was a member of the Football Mother's Club, feeding the team each week. As a volunteer in the concession stands, Carol made hundreds of chicken sandwiches over the years. She served as a Music Booster officer going above and beyond what was asked of her. Her organizational skills were greatly appreciated during the many fundraising events over the years.

If there were things to be done, coaches and teachers could rely on the Brickners to help, even after their children graduated from Hopewell-Loudon School. They never said no to helping in any way.
