

RYE CITY SCHOOL DISTRICT
Health Care Services
Rye, NY 10580
www.ryeschools.org

Dear Parent/Guardian:

Welcome to Rye City Schools. As part of your child's requirements for school it is necessary that we obtain certain health records. For your convenience, we are enclosing the following forms to be completed by you and your health care provider. Please return these forms to the Health Office:

1. NEW STUDENT IMMUNIZATION RECORD
2. HEALTH APPRAISAL FORM
3. DENTAL HEALTH CERTIFICATE
4. NEW STUDENT HEALTH HISTORY

New York State Public Health Law requires all students enrolling in school be properly immunized before entering school as indicated on the New Student Immunization Record. New students must show documentation from a licensed health care provider that they have completed the required immunizations; have received one dose each of the required immunizations with scheduled appointments for the remaining immunizations; or a blood test showing immunity (Measles, Mumps, Rubella or Hepatitis B). A medical exemption must be approved by the school district on an annual basis.

New students are required to have a physical examination within 12 months prior to the start of the school year. This exam must be performed by a Health Care Provider licensed to practice in New York State and submitted to the Health Office within thirty (30) days of entering school.

Students participating in interscholastic sports are required to have a physical exam every year. This exam is valid for one (1) year. All athletes must register online through Family ID prior to each sport season.

Medications can be given by the school nurse only with written authorization from both the physician and parent/guardian. If your child needs medication during school hours, contact the Health Office for additional information and necessary forms or refer to the district website. **For the 2026-2027 school year, the medication authorization form must be dated on or after July 1, 2026 to be valid.**

Thank you for your cooperation in this health endeavor. Our students benefit when we work together to promote the health and achievement of all students. Please contact the Health Office if you have any questions or concerns.
