

Placement for 8th Grade Math

During the spring of the 7th grade year, Randolph Middle School teachers make determinations of 8th grade placement based on several factors: most recent math placement, 7th Grade Assessments average, Winter MAP scores, most recent NJSLA, and assignment completion. Students will receive points based on criteria that will determine where teachers recommend students to be placed for 8th grade math. **Students placed into Algebra Foundations will only be able to waive into Algebra 8 if they pass their 7th grade NJSLA.** Students have the ability to select a level lower than what a teacher recommends.

Current Math Level	7 th Grade Assessments	Winter MAP	NJSLA	Assignment Completion
