Around The World

Embark on a global journey exploring diverse cultures! Join us to discover customs, culinary delights (bugs, anyone?), and travel habits that shape unique perspectives worldwide. Pack your bags for an enriching experience and embrace the global tapestry of our world!

Awesome Authors

Let your journalism skills come alive through investigative writing. Investigate the different summer camp sessions, sharpen your interviewing skills and write your story. Learn how to compile your information into a creative newsletter featuring our EFCTS Summer Camp of 2026.

Beauty Boot Camp

For beauty enthusiasts, this session is a must! Dive into various aspects of the cosmetology field, including hair, nails, esthetics, styling, braiding, makeup, and products. Get a hands-on introduction to each area and explore your passion for beauty!

Behind the Bruise: Medical Makeup

In this hands-on course, students will learn how makeup is used in medical and emergency training to simulate real-life injuries. They will create realistic cuts, bruises, burns and more while learning how healthcare providers use medical makeup to practice diagnosing injuries.

Big Bang Boom!

Embark on an exciting scientific journey! In this session, students will not only explore captivating science concepts but also immerse themselves in hands-on experiments. From the wonders of chemistry to the mysteries of physics and the environment, this experience promises to be both enlightening and thrilling. Join us for a memorable exploration of the fascinating world of science!

Character Writing for Dungeons & Dragons

Howdy Adventurer! What preparations do we need to make to succeed in the journey ahead? We will work together to design characters for an adventure. Will we make the right choices to enter the dark caves or will there be a gap in our teamwork that leaves us vulnerable? Either way, walk away with your own characters designed for adventure.

Creative Writers Lab

Explore your imagination, build confidence, and have fun with words. Through engaging activities, group discussions, and hands-on writing time, students will experiment with storytelling, poetry, and personal expression. Camp sessions include brainstorming techniques, character and world building, and short writing challenges designed to spark creativity.

Culinary Bake Shop

Indulge your taste buds in the Culinary Arts Academy! Join the chefs and culinary students from Eastland-Fairfield Culinary Arts Academy to showcase your baking and decorating talents. Teams of campers will unleash their culinary creativity, making your very own cupcake and designs. Get ready for two-days of sugar, fun, and culinary excellence!

DIY Builders

Get ready to hammer and sand your own bird feeder in this session, mastering the basics of hand tools! Students will also be able to show off their hard work and take it home! Closed-toe shoes are a must for campers.
Let the creativity flow!

Doctor's Office

Campers get hands-on experience in the world of a doctor's office, taking charge of a patient's journey from check-in to check-out. Through engaging role-playing scenarios, students will immerse themselves in the decision-making processes of daily office operations, playing both the roles of patients and medical office staff for a comprehensive and interactive learning experience.

EiPIC with COSI

Where innovation meets action! Turn ideas into impact through fun, fast-paced innovation challenges, learn how to protect your ideas using real tools of intellectual property, build and pitch your invention story with guidance from real-world innovators and IP experts. You will receive an American 250 Innovation Kit to help hone your ideas and dream big.

Exploring 3D Art, History & Future Careers at EFCTS

In this session, students will learn about the different careers and labs offered at each career center, they will use 3D art, history, and explore the future of careers through the use of technology and art techniques.

Green Thumb Artistry

Welcome to "Green Thumb Artistry," the ultimate camp session where the magic of planting meets the creativity of art. Campers, get ready for a garden extravaganza that combines the joy of growing with the thrill of artistic expression. Unleash your inner artist and get ready to decorate pots, become gardening gurus, and learn expert techniques that will have your green thumb glowing!

Jazz Lab: Where Ideas Improvise

A two-day creative jam session! Explore the science of sound using real instruments, apply the design process while building instruments alongside an engineer, create music in VR with COSI, and build imaginative worlds using AI tools. This lab is all about collaboration, expression, and experimenting without fear. Come curious, leave inspired—and learn how to think, create, and riff like a jazz artist. Spoiler: cool stuff happens.

Just Bead It!

Unleash your creativity where kids dive into the colorful world of beaded bracelet making! Learn how to design and craft your very own unique pieces while making new friends and having tons of fun. Perfect for young artists, this session is all about self-expression, creativity, and mastering the art of beading!

Law Leaders

Unleash the excitement of law enforcement careers in our action-packed Law Leaders session! Campers will delve into the criminal justice system, discovering the intricacies of police officer duties through hands-on activities and engaging simulations. Gain insights from real-life professionals, igniting a passion for justice in this dynamic and thrilling exploration of law enforcement.

Marketing Mayhem

Take the wheel in crafting and promoting your own food truck venture! Campers will conceptualize and craft unique themes and logos to captivate customers. Through the utilization of the 4 P's (product, place, price, and promotion), participants, whether individually or in teams, will collaborate on the intricacies of logistics and marketing strategies.

Math Magic

Ready to unleash math-magic? Join us to master math tricks and tips that will leave your friends and teachers in awe. Immerse yourself in engaging activities and games, unraveling the art of mathematical thinking. This session is your key to strengthening skills and unlocking the mystery of math! Join us for an exciting journey into the world of math magic!

MindCode Madness: Build Your Own Minesweeper in Python!

Get ready to think fast, code smart, and dodge digital danger! In MindCode Madness, middle-school coders will learn how to build their very own version of the classic game Minesweeper using Python. No prior experience needed—just curiosity and creativity.

Nail Services

Students will learn the proper care and maintenance to balance healthy, natural nails. They will work on model hands to safely trim and file natural nails along with the natural nail shapes. Once the technique is mastered, they will be taught the standard three-stroke polish technique that nail technicians use and will progress to temporary enhancements on the second day. They will learn how to accurately size nail tips and create customized press on sets with personalized nail art.

Photography for Beginners

Students will learn basic photography skills using a mirrorless camera. Students will utilize file management and file formats to convert, save and share photos using an external storage system. Parents must sign a photo release form and prepare for inclement weather as we will be outside.

Safety Hero

Embark on a transformative journey as a Safety Hero! This extraordinary program empowers students with life-saving skills, delving into the art of CPR, expert wound care, and recognizing the signs of a stroke. Elevate yourself to the status of a Safety Hero and be equipped with the remarkable ability to make a difference in critical situations.

Semiconductors— How do they relate to you?

Students will learn the basics of semiconductor devices and the industry that makes them. We will identify how semiconductors are integral to daily life in the 21st century, and explore career possibilities in the industry.

Spark the Fire Within

Ever dreamt of being a hero? Join us to discover the daily life of a firefighter! Engage in hands-on activities, mastering essential skills used throughout their careers. It's your chance to step into the shoes of a real-life hero!

STAR— Student Transition to Adult Readiness

Build confidence and independence by exploring personal strengths, career interests, and essential life skills. Get hands-on and real-world practice with workplace expectations, money management and community skills that will assist your journey into adulthood.

Water-Powered Rockets

Join our Water Rocket Building Team for an exciting dive into aerospace engineering! Participants will design, construct, and launch water-powered rockets, exploring aerodynamics and propulsion principles. Guided by experienced instructors, campers will develop teamwork and creativity while gaining valuable STEM skills. Join us for an unforgettable adventure that combines science, engineering, and outdoor excitement!

Wellness Wonders

Join us for a session of self-discovery and transformative journey with "Wellness Wonders"! In collaboration with Southeast Healthcare, middle schoolers will dive into the realm of wellness, guided by professionals. Explore the wonders of self-awareness, empathy, relationship skills, and more. This engaging session leaves students refreshed, equipped, and ready for the exciting journey that life unfolds.
