ACADEMIC EXCELLENCE IN ACTION:

ILTexas Garland High School Shines at Regional Math Olympiad

With top regional results and both teams advancing to State, ILTexas Garland High School once again demonstrates the strength of its academic programs and the excellence of its students.

We are especially proud of our international students, whose discipline, initiative, and willingness to challenge themselves were evident throughout the competition. Through structured academic opportunities and strong faculty support, ILTexas helps students build advanced problem-solving skills, confidence, and academic resilience, qualities that are highly valued in U.S. college admissions and essential for long-term success.

Outstanding Results at the TCSAAL North Texas Math Olympiad

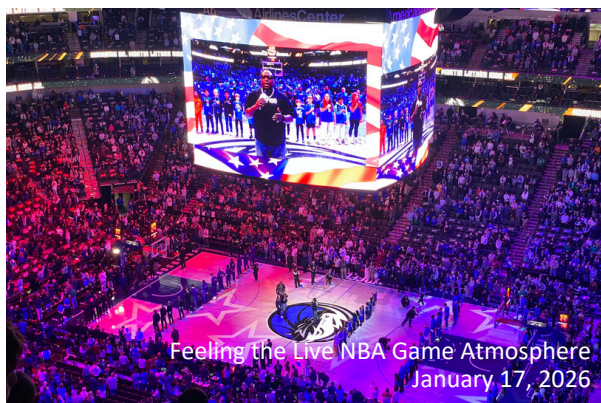

Against strong regional competition, ILTexas Garland High School delivered an exceptional performance, with the Varsity Team securing the Regional Championship and the JV Team earning 1st Runner-Up, advancing both teams to the State Math Competition in Austin. These results highlight a well-rounded academic program built on rigorous preparation, collaboration, and guidance. Under the leadership of math teachers April Nguyen and Irfan Jan, and with ongoing support from our international student Resident Assistant, Mr. Braza, students were supported both academically and personally. In addition, student leaders Jayden Yoon and Isaac Song played an important role in guiding teammates and strengthening team organization throughout the process.

STARTING THE SEMESTER WITH AN NBA GAME

Feeling the Live NBA Game Atmosphere
January 17, 2026

To kick off the new semester, our international students attended an exciting **NBA game**— an unforgettable experience filled with energy, cheers, and inspiration. For many students, this was their first time experiencing American professional sports live, and the atmosphere left them energized and motivated. Go Mavs!

Beyond the game itself, the experience reflected the values of teamwork, perseverance, and never giving up—the same spirit we hope students carry into the new semester. Through a wide range of activities like this, we are proud to offer students meaningful opportunities to explore American culture, build connections, and grow both inside and outside the classroom.

UPCOMING STUDENT ACTIVITIES

- Jan 31 – Roller Skating
- Feb 15 – Visit to Medieval Times Dinner & Tournament
- Feb 21, 2026 – Lunar New Year Celebration at GHS
- Feb 28 – Hockey Game

We look forward to a variety of upcoming activities designed to enrich student life and cultural experiences!

DORM UPGRADES IN PROGRESS

Dormitory renovations are underway this semester, bringing exciting upgrades to student living spaces. Improvements include new outdoor game courts, in-unit washer and dryer installations in every apartment, and enhancements to the Welcome Center, including a fitness center and conference room. These updates reflect our ongoing investment in student comfort, well-being, and quality of life.

EXCELLENT

ILTexas Garland High School

has been recognized for the

2025 AP® School Honor Roll

for developing an AP program that creates a college-going culture and gives students opportunities to earn college credit and to maximize their college outcomes.

CELEBRATING ACADEMIC EXCELLENCE: AP & COLLEGE BOARD GOLD STANDARD

Congratulations the ILTexas Garland High School team on earning the GOLD Standard recognition from the AP Program and College Board. This recognizes schools that successfully support students in challenging AP classes and prepare them for college-level work. It highlights strong academic planning, student participation, and meaningful outcomes. At ILTexas, students receive clear academic guidance, experienced AP teachers, and ongoing support throughout the year. Our goal is to help students take on rigorous coursework with confidence—while building the skills they need to succeed in college and beyond. We are proud of our students and educators for reaching this impressive milestone and continuing to raise the bar for academic excellence.
