Notice of Military Recruitment and Disclaimer of Information Release

Under the provisions of the Federal Elementary and Secondary Education Act (ESEA), as amended by Title I, Part A, and applicable New Jersey Department of Education (NJDOE) policies, I understand that certain student demographic information may be shared with military recruiters unless a parent/guardian opts out of such disclosures.

I am aware to formally make this request by consenting on the Release of Information form in our Annual Updates via Genesis. If I do not opt out, my child's name, address, telephone number, date of birth, email address, or other personal and demographic information will be released, shared, or otherwise provided to military recruiters, military branch representatives, or their agents or affiliates. This request is made in accordance with my rights under Title I, Part A and the guidelines established by the NJDOE to protect student privacy.
