

BRICKIE CONNECTIONS

BRICKIE CONNECTIONS #24: Just a Little Bit Better

When you are not feeling great, you can always turn your attention to something that feels just a little bit better. If you can focus on something positive, your perspective changes. Even a slight change of state can alter your outlook. Learning can be hard sometimes, but it can also be fun and easy. There are similarities and differences between both experiences. Think of what makes learning just a little bit better for you. Write those on the "Self" side of the venn diagram. You can share as a class and compare which ones are the same or different from yours.
