

February 4, 2026

Dear Cheltenham Community -

We are reaching out today to update you on the status of the boiler system at the Administration Building. Due to a failing boiler system, administrative staff have been working at the Elkins Park School site since Friday, January 23.

As of this morning, the district's HVAC contractor, Chadwick, has implemented a temporary solution that allows the system to operate safely and effectively in the short term. As a result staff will return to the Administration Building tomorrow, Thursday, February 5.

A permanent repair to the boiler system is scheduled for Monday, February 16, when schools and district offices are closed. This timing will allow the work to be completed with minimal disruption to daily operations.

Sincerely,

Dr. Brian W. Scriven
Superintendent of Schools
