

CONSTRUCTION 2 UPDATE

- We are very quickly completing exterior framing and starting exterior sheathing.
- Students got an experience operating a telehandler as we began setting ceiling trusses and decking the attic floor.
- We'll begin our MEPs (Mechanical, Electrical, Plumbing) rough-ins by the end of the month and that will take us through Spring Break.

Want to see blueprints of the house we're building?

Check them out

CONSTRUCTION 1 UPDATE

- Year 1 students just finished their **Plumbing Unit**
 - We focused on :
 - DWV (Drain, Waste, Vent) Systems
 - PEX Supply Install
 - Copper Soldering
- This week we started our **Electrical Unit**
 - Students will be able to
 - Read electrical plans
 - Understand electrical theory
 - Explain what the code requires for conductor size, GFCI protected outlets and receptacle placement around the house

UP & COMING

- January 29th - 5:30 - 7:30 - CCIC Winter Open House
- February 6th - 7:30 - 4:00 - SkillsUSA Regionals @ South Adams County Fire
- February 13th - Deadline for CCIC Application for 26/27 Courses
 - See the [Course Catalog Here](#)
- April 7 - 9 - Colorado SkillsUSA State Competition
- April 16th - 5:30 - 7:30 - CCIC Hiring Fair

Year 1 - Intro to Wiring

Year 2 - First Wall Lift

LOOK OUT!

Students in Career & Technical Education courses are eligible to apply for one of three RECCS Scholarships worth \$3000 each!

Applications include an essay and references and are due February 20th at 5PM

Interested in Woodworking? Open to high school students and adults, participants work with hand tools and machines to build a variety of woodworking projects.

Feb 23, 24 & 25 and March 2, 3 and 4 - 5 - 7PM

Cost : \$240

Nominate a CCIC Educator of the Year

A QUICK NOTE *from your Teachers*

"As we wrap up first semester, we want to share how proud we are of our construction students and all they've accomplished. This semester, students learned how to read blueprints, apply construction math, safely use hand and power tools, frame walls, and install basic plumbing systems. Our Year 1 students reached an important milestone by earning their OSHA 10 certification—an industry-recognized credential that immediately sets them apart. These foundational skills have prepared students well, and we're excited to build on this momentum in second semester with electrical wiring, drywall, painting, trim, and siding.

Our Year 2 students have been working exceptionally hard, taking full advantage of the nice weather as they continue building our Habitat house. They are gaining real-world, hands-on experience while demonstrating professionalism, teamwork, and pride in their work. We're also excited to kick off competition season with SkillsUSA, where students can showcase their skills at a higher level. Looking ahead, we're thrilled for our hiring fair in April and can't wait to help connect these students with real job opportunities. Thank you for your continued support—we couldn't be more proud of this group of students and the work they're doing."

Sincerely,
Mike Degitis & Jim Dosky
