Notes

1. Welcome

2. Purpose of DAC
    a. Potential start time change

3. Superintendent's Update

4. Parent Family Engagement Policy
    a. Current
    b. Any needed updates
    c. Optional resources

5. District Of Innovation

    Districts of Innovation (DOI) designation is a concept passed by the 84th Legislative Session. The intent of this DOI legislation is to allow traditional school districts to exempt themselves from certain state laws that constrain the implementation of innovative practices designed to positively impact student academic outcomes. An innovation plan that has been developed by the district, adopted by the local Board of Trustees, and filed with the state allows the district to gain state requirement exemptions that are already afforded to charter schools. Each district's DOI plan is unique, allowing for more local control and an increased focus on community values and goals.

    a. Current
    b. Any needed updates

6. District Improvement Plan
    a. How to access
    b. Current plan in progress

7. Q&A

8. Closing/Adjoin
