Clara Barton Elementary School students will begin an ice skating unit on Tuesday that will help them gain skills in a potential life-long physical activity.

The students will gain confidence in their skills on the ice while getting outside in the fresh air and having fun.

The ice skating unit is scheduled to last from January 20-23, during the normally scheduled physical education time for each class. The students spend 40 minutes on the ice per session. Students will not go outside if the windchill is below minus-10 degrees.

This event is weather dependent. Media representatives should contact the school office to ensure the outdoor activity is occurring prior to arrival.
