NOTE: To ensure the board has time to conduct its business, the board will adhere to a strict 1.5 minute public comment time limit per person. Microphones will be muted when time is up. If there is not enough time on the agenda for all members of the public wishing to comment at the beginning of the meeting, there is additional public comment at the end of the meeting.

WCUUSD Board Norms - Adopted 9.17.25

- **Public input** –Notify the community about public forums and opportunities for public comment at board meetings, and the ability to always submit written input.
- **Community involvement during regular meetings of the board** – Every meeting will include at least one opportunity for public comment. Public comment is an opportunity for board members to listen. If a board member feels a concern raised in public comment warrants further board discussion, they may request that the steering committee discuss and decide how the issue should be added to a future agenda.
- **Community dialogue** – The board will periodically schedule community forums that allow for dialogue, questions and answers from the board or the district leadership team.
- **Stay on time** – Start and end on time. The chair may appoint a time-keeper.
- **Inclusive time for thoughtful decisions** – The chair and agenda steering committee will plan time for complex or contentious issues to be discussed at more than one meeting before the board votes, except where a decision is urgent.
- **Prepare for meetings and receive materials in advance** –Board members come prepared, having reviewed the agenda and materials in advance
- **Announcements in reports** – Announcements from the administration will appear in the reports and not as discussion items.
- **Respect each other** – Listen, allow others to be heard, share concerns, assume positive intentions, be present, focus on shared solutions and celebrate successes.
- **All voices will be heard** – Every board member gets a chance to speak. Some topics warrant having each board member speak in turn to ensure full representation. Board members will address the topics up for debate and not the person.
- **Governance Reflection** – At the end of each board meeting, reflect on whether the board adhered to agreed protocols, processes, and policies.
- **Reflection** –At the end of each board meeting, board members will be allowed time to share their general reflections on the meeting.

AGENDA KEY

Agenda Section	Examples	Role/ Responsibility	Description
Call to Order	n/a	Board Chair or designee	Formal opening to meeting. Superintendent calls to order during annual reorganization
Public Comment			Opportunity for public comment on items not on the agenda. Board will adhere to a strict 1.5 minute public comment time limit per person. Microphones will be muted when time is up. WCUUSD Finance Committee Meeting Agenda 1.13.26 8:30-9:30 AM Central Office 1130 Gallison Hill Rd. Montpelier, VT

Present: Ursula Stanley, Susanne Gann, Chris McVeigh, Steven Dellinger-Pate, Flor Diaz-Smith, Zach Sullivan, Elizabeth Brown

1. **Call to Order:** Flor Diaz Smith called the meeting to order at 8:33 a.m.
2. **Approve Minutes of 12.9.25:** Ursula motioned to approve the minutes, and Zach seconded. Chris abstained. The motion passed, and the minutes were approved.
3. **Informational Reports**
 - 3.1. **Monthly Reflections:** Susanne provided a written report. She spoke about payroll during the holidays, as well as all the reports that need to be done for the end of this month.

Susanne and Tim have been working with the AOE regarding the LTW ADM numbers. The FY 2024-2025 audit draft has been received and reviewed internally and forwarded back to RHR Smith for final printing. The Finance Committee will receive it at the February meeting, hopefully with the auditors from RHR Smith.

The District has been awarded \$15,375 in Fresh Fruit and Vegetable Program (FFVP) funds for the remainder of the 2025-2026 school year for East Montpelier Elementary School. This is in addition to the allocations received earlier in the fiscal year for Berlin and Doty. This program is designed to provide students with additional exposure to a wide variety of fresh fruits and vegetables at no charge, building healthy eating habits outside of the regular school meal programs. Zach asked about Calais and Rumney and whether or not they were eligible. Susanne advised they are now eligible. Ron is working with Rumney and Calais to explore fresh fruit and vegetable programs but it is more challenging due to limited staff. Ursula asked if U-32 is eligible. Susanne advised she would ask, she thinks it is only elementary schools.

4. **Discussion/Action**
 - 4.1. **Review and Discuss FY 2026-27 Budget and Tax Rate Projections:** Susanne provided a written memo explaining Budget Draft # 3 and the tax projections and gave a verbal overview. The local spending per equalized pupil is a 6.74% increase over FY 2025-26 from \$15,272 to \$16,303. This would be the per pupil amount that will be included in the

warning. The equalized tax rate, using \$8,849 as the property yield, is an increase of \$.0657 or 3.70% from \$1.7766 in FY 2025-26 to \$1.8423 in FY 2026-27. • The estimated changes per \$100,000 house value range from a \$4.30 increase per year in Worcester to a \$343.50 per year increase in Calais. Factors that will change the preliminary tax rate: • The final property yield, income yield, and non-homestead tax rate is set by the legislature based on reports statewide as we progress in the budget development process, and may change post-legislative session. Next Steps: The Board will adopt the final budget to be voted on in March, and the School Board will continue to work on informing and engaging the community in the budget process. There was some discussion. Chris McVeigh spoke about messaging and the impact lower enrollment has on the tax rate. Flor spoke about happenings in the legislature. Steven responded to a question from Chris McVeigh about when the buy down from the state happened last year that it was May 26.

- 4.2. Review FY 2026-27 Staffing Chart:** Steven provided several staffing charts current staffing, Staffing Scenario Budget 3, Changes from Current Staffing to Budget 3, Staffing Scenario Contingency, Changes from Current Staffing to Contingency, WCUUSD District Office. The committee had several questions about the changes in staff. Steven indicated it would need some corrections and changes for clarity. Chris asked if there is a school closure, is there a way to show a reduction in school maintenance? Susanne advised that is was possible. He also asked about capital plans for the upcoming year and if contracts have been issued. Susanne advised there is a project at Doty but no contracts have been issued and it would have to go before the Board for approval before any contracts were issued. Zach suggested a way to present the tables. Ursula agreed with Zach's suggestions. She also spoke about capital projects and our responsibility to maintain our buildings.
- 4.3. Set Announced Tuition Rate for FY 2026-27:** Failure to satisfactorily complete and file the Annual Announced Tuition Report on or before January 15th will result in the current year's announced tuition rate being applied to the next fiscal year per 16 V.S.A 826(a). The State of Vermont Agency of Education calculates Allowable Tuition at the end of each year, based upon actual district expenditures for that year, as reported on the statistical report. The Announced Tuition is calculated using the total budgeted expenditures, excluding offsets for Drivers Ed Revenue, Tech Center Tuition, Preschool Costs, Special Education, ELL services and transportation of the districts own students to and from school. The net of these, Net Instructional Expenditures, is averaged by level (elementary expenses versus secondary expenses) over the projected enrollment for that year to get a per pupil cost to use for tuition rates. The Announced Tuition Rate Calculations for FY 2027 are based upon the current draft of the FY 2026-27 budget. Centralized expenses are allocated based upon the percent of total students at the elementary level and secondary level, using the October 1, 2025 census. The calculation estimates a higher percent of elementary students than secondary students do next year, which is a change from prior fiscal years. FY 2026 Projections: FY 2027 Projections: Elementary Percentage = 46.51% Elementary Percentage = 50.19% Secondary Percentage = 53.49% Secondary Percentage = 49.81% Elementary Tuition = \$25,626 Elementary Tuition = \$22,300 Secondary Tuition = \$24,728 Secondary Tuition = \$23,351 **Ursula Motioned to recommend that the Board move to approve the announced tuition rate for the FY 2026-27 school year as \$22,300 for Elementary Tuition and \$23,351 for Secondary Tuition. Zach seconded.** Zach asked about the process of lowering tuition rates for this year. Susanne explained. **The motion passed**

RE: Monthly Reflections
DATE: February 6, 2026

Elizabeth Guthrie left the Accounts Payable Accountant position at the end of December for a position at an Accounting firm in Boston. Elizabeth's departure created an opening, which fortunately will be filled by Melissa Tuller who will transition out of her role as Executive Assistant to the Superintendent and Board. We will be welcoming the new Executive Assistant, Sashly Felix, on February 17th, and anticipate the need for Melissa to do some training before moving fully, but we are excited to be fully staffed again. We were fortunate to have some temporary help with AP in January, but Tom Hamlin has been doing the bulk of the work for the past few weeks. Essential work has been prioritized for completion, but work on some things has been delayed due to the staff shortage. Thank you to Tom for his extra effort and commitment to the District during this time!

Calendar year 2025 W-2 Forms for employees and 1099s for vendors were due at the end of January. Patricia completed the employee wage statements and Tom completed the vendor statements, along with the necessary reports to the IRS. Due to concerns over recent mail service delays, Patricia took the extra effort to deliver W-2s to each of the buildings, instead of mailing them for active employees. This extra effort reduced some employee anxiety and was well-received. Thank you to Patricia for going above and beyond!

RE: Review and Accept the FY 2024-25 Final Audit Report
DATE: February 6, 2026

Summary: The FY 2024-25 Audited Financial Statements for the year ended June 30, 2025 are included in the Board packet along with letters from the independent auditors, RHR Smith & Company, CPAs. We have reviewed the audit, reconciled statements with our internal accounting software and accept the report as a complete and accurate report for the year.

The final page of the audit includes a Summary of the Auditor's Results reporting no material weaknesses or significant deficiencies in internal controls, no financial statement findings and no federal award findings to report. The District qualified as a low-risk auditee.

Recommended Board Action: The Board accept the audited financial statements for the Washington Central Unified Union School District for the year ended June 30, 2025 from RHR Smith & Company.

Board of Directors
Washington Central Unified Union School District
Montpelier, Vermont

We have audited the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Washington Central Unified Union School District for the year ended June 30, 2025. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated March 7, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Washington Central Unified Union School District are described in Note 1 of Notes to Financial Statements. All significant transactions have been recognized in the financial statements in the proper period.

As described in Note 1 of Notes to Financial Statements, the Washington Central Unified Union School District changed accounting policies related to Governmental Accounting Standards Board (GASB Statement) No. 101, "*Compensated Absences*" and No. 102, "*Certain Risk Disclosures*" in 2025. There was an impact in the financial statements based on the cumulative effect of these accounting changes.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Washington Central Unified Union School District's financial statements were:

Tel: (800) 300-7708 (207) 929-4606 Fax: (207) 929-4609
www.thrsmith.com

- Depreciation expense which is based on the estimated useful lives of capital assets
- Pension and OPEB related assets, liabilities and expenses which are based on actuarial valuations
- Accrued compensation
- Deferred revenues

Management’s process for determining the above estimates is based on firm concepts and reasonable assumptions of both historical and future events. We evaluated the key factors and assumptions used to develop the estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements are reflected in the capital assets, other long-term obligations and fund balance footnotes.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial and communicate them to the appropriate level of management. A schedule of any uncorrected misstatements has been presented to management with the management representation letter. We did not identify or propose any adjustments of misstatements as a result of audit procedures that were material, either individually or in the aggregate, to each opinion unit’s financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor’s report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 24, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Washington Central Unified Union School District’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those

statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Washington Central Unified Union School District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

However, we noted certain other matters that we reported to management of the Washington Central Unified Union School District in a separate letter dated December 24, 2025.

Other Matters

We applied certain limited procedures to the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, Schedule of Proportionate Share of the Net Pension Liability, Schedule of Contributions - Pensions, Schedule of Proportionate Share of the Net OPEB Liability, Schedule of Contributions - OPEB and Notes to Required Supplementary Information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements, capital asset schedules and schedule of expenditures of federal awards, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the Board of Directors and management of the Washington Central Unified Union School District and is not intended to be and should not be, used by anyone other than these specified parties.

MANAGEMENT LETTER

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Washington Central Unified Union School District as of and for the year ended June 30, 2025, in accordance with auditing standards generally accepted in the United States of America, we considered the Washington Central Unified Union School District's internal control. We did so to determine our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for expressing our opinion on the effectiveness of the Washington Central Unified Union School District's internal control over financial reporting or compliance.

Management is responsible for the selection and use of appropriate accounting policies and procedures. The significant accounting policies and procedures practiced by the Washington Central Unified Union School District are described in Note 1 of Notes to Financial Statements. In performing our test work and other auditing procedures, we noted no transactions of the Washington Central Unified Union School District for the above-mentioned year end audited, for which there was a lack of authoritative guidance or consensus or deviation from best practice.

This report is intended solely for the information and use of the School Board, management, and others within the entity and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

These matters do not modify our opinion on the financial statements for the year ended June 30, 2025, where we expressed an unmodified opinion on our independent auditor's report dated December 24, 2025.

We would like to thank Susanne, Tom, Liz, and all the staff at the Washington Central Unified Union School District for their cooperation throughout this audit process.

If there are any questions regarding this letter, please do not hesitate to call.

Very Best,

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Washington Central Unified Union School District as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the Washington Central Unified Union School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Washington Central Unified Union School District as of June 30, 2025 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Washington Central Unified Union School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Washington Central Unified Union School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Washington Central Unified Union School District's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise doubt about the Washington Central Unified Union School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension and OPEB information on pages 5 through 12 and 72 through 77 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Washington Central Unified Union School District's basic financial statements. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* and is also not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other

records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements, capital asset schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 24, 2025 on our consideration of the Washington Central Unified Union School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Washington Central Unified Union School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Washington Central Unified Union School District's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2025**

(UNAUDITED)

The following management's discussion and analysis of the Washington Central Unified Union School District's financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2025. Please read it in conjunction with the School District's financial statements.

Financial Statement Overview

The School District's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, pension and OPEB information and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the School District's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regard to the School District's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position - this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities - this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above-mentioned financial statements have separate columns for the two different types of School District activities. The types of activities presented for the School District are:

- *Governmental activities* - The activities in this section are mostly supported by intergovernmental revenues (federal and state grants), support from the towns and charges for services. Most of the School District's basic services are reported in governmental activities, which include direct services, support services, fiscal services, operations and maintenance, transportation and program expenses.
- *Business-type activities* - These activities are normally intended to recover all or a significant portion of their costs through user fees and/or charges to external users for goods and/or services. The activity for the School District includes the child care fund, the food service fund and the internal service funds.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the School District can be classified into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds: Most of the basic services provided by the School District are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the School District's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the School District.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues,

expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The School District presents three columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The School District's major funds are the general fund, the construction fund and the Medicaid fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund is the only fund for which the School District legally adopted a budget. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Proprietary Funds: The School District maintains two proprietary funds, the child care fund and the food service fund. These funds are used to show activities that operate more like those of commercial enterprises. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. No reconciliation is needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

Fiduciary Funds: These funds are used to account for resources held for the benefit of parties outside the School District. These funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the School District's own programs. The accounting used for fiduciary funds is much like that of proprietary funds. They use the accrual basis of accounting.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Changes in Net Position - Fiduciary Funds.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, Schedule of Proportionate Share of the Net Pension Liability, Schedule of Contributions - Pensions, Schedule of Proportionate Share of the Net OPEB Liability, Schedule of Contributions - OPEB and Notes to Required Supplementary Information.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regard to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net position and changes in net position of the School District's governmental and business-type activities. The School District's total net position for governmental activities increased by \$786,593 from \$30,293,672 to \$31,080,265. For business-type activities, the School District's total net position decreased by \$126,567 from \$1,618,437 to \$1,491,870.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - ended the year for governmental activities with a balance of \$3,707,769. For business-type activities, the balance was \$581,738.

Financial Analysis of the School District's Fund Statements

Governmental funds: The financial reporting focus of the School District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information may be useful in assessing the School District's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year and the net resources available for spending.

The changes in the general fund, construction fund and nonmajor funds occurred due to regular activity of operations.

Budgetary Highlights

There was no difference between the original and final budget for the general fund.

The general fund actual revenues were receipted under budgeted revenues by \$387,796. This was the result of all categories being receipted under budget except for interest income and miscellaneous.

The general fund actual expenditures were under budget by \$1,388,731. Most expenditure categories were at or under budget with the exception of operations and maintenance.

Capital Asset and Long-Term Debt Activity

Capital Assets

As of June 30, 2025, the net book value of capital assets recorded by the School District increased by \$185,522 in the current year. This increase was due to net current year additions of \$2,046,730 less current year depreciation expense of \$1,861,208.

Debt

At June 30, 2025, the School District had \$7,340,777 in bonds, notes from direct borrowings payable and lease liabilities versus \$8,087,761 in the prior fiscal year. Refer to Note 7 of Notes to Financial Statements for more detailed information.

Currently Known Facts, Decisions or Conditions

The School District has noted a subsequent event as a currently known fact. Refer to Note 22 of Notes to Financial Statements for more detailed information.

Economic Factors and Next Year's Budgets and Rates

The 2025-2026 budget could be impacted by the change in special education funding driven by the State of Vermont's passing of Act 173. Special education services will no longer be reimbursed to the school district. Instead, the district will receive a block grant for special education services. The reimbursement formula for extraordinary cost services also changed and is projected to offset decreases in revenue caused by the change to block grant funding. The full impact of this change will be dependent on actual special education services provided to students in 2025-2026.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2025

Net change in fund balances - total governmental funds (Statement E) \$ 538,832

Amounts reported for governmental activities in the Statement of
Activities (Statement B) are different because:

Governmental funds report capital outlays as expenditures while
governmental activities report depreciation expense allocated to
those expenditures over the life of the assets:

Capital asset acquisitions	1,982,879
Depreciation expense	<u>(1,793,005)</u>
	<u>189,874</u>

Deferred outflows of resources are a consumption of net position by the government that are applicable to a future reporting period and therefore are not reported in the funds	<u>(260,369)</u>
---	------------------

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term obligations in the Statement of Net Position	<u>746,984</u>
---	----------------

Deferred inflows of resources are an acquisition of net position by the government that are applicable to a future reporting period and therefore are not reported in the funds	<u>367</u>
---	------------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:	
Accrued compensated absences	(175,128)
Net pension liability	<u>(242,605)</u>
	<u>(417,733)</u>

Internal service fund activity is classified as a governmental activity in the Statement of Activities	<u>(11,362)</u>

WASHINGTON CENTRAL UNIFIED UNION SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Washington Central Unified Union School District was incorporated under the laws in the State of Vermont. The School District operates under the Board of Directors-superintendent form of government and provides the following services: direct services, support services, fiscal services, operations and maintenance, transportation and program expenses.

The School District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The School District's combined financial statements include all accounts and all operations of the School District. We have determined that the School District has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended June 30, 2025, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 101 "Compensated Absences". The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 102 "Certain Risk Disclosures". The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have

begun to occur or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. A disclosure should be made in the notes to financial statements if a government determines that those criteria for disclosures have been met for a concentration or constraint. Management has determined the impact of this Statement is not material to the financial statements.

Government-Wide and Fund Financial Statements

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds).

Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The School District's dental plan, HRA plan, child care fund and food service fund are categorized as business-type activities. All other activities of the School District are categorized as governmental.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column and (b) reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The School District's net position is reported in three parts - net investment in capital assets; restricted net position and unrestricted net position. The School District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the School District's functions and business-type activities (direct services, support services, etc.) excluding fiduciary activities. The functions are also supported by general government revenues (certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The School District does not allocate indirect costs. All costs are charged directly to the corresponding departments.

WASHINGTON CENTRAL UNIFIED UNION SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide focus is more on the sustainability of the School District as an entity and the change in the School District's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements and Fund Financial Statements

The financial transactions of the School District are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the School District:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the School District:

Major Funds:

- a. The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. The Construction Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment. The sources of revenues include bond proceeds and interfund transfers.

Nonmajor Funds:

- c. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- d. Permanent Funds are used to account for assets held by the School District pursuant to a trust agreement. The principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund.

2. Proprietary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Nonoperating revenues are any revenues which are generated outside of the general proprietary activity, i.e., interest income. The following is a description of the proprietary funds of the School District:

- a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.
- b. Internal service funds are used to account for the financing of goods or services provided by an activity to other departments, funds or component units of the School District on a cost-reimbursement basis. Because the principal users of the internal services are the School District's governmental activities, the financial statement of the internal service fund is consolidated into the governmental column when presented in the government-wide financial statements.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Revenue Recognition

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on long-term debt which has not matured are recognized when paid. Allocation of costs, such as depreciation, is not recognized in the governmental funds.

Budget

The School District's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

In accordance with Governmental Accounting Standards Board Statement No. 24, *Accounting and Reporting for Certain Grants and Other Financial Assistance*, payments made by the State of Vermont to the Vermont State Retirement System for teachers and certain other school employees are reported as offsetting revenues and expenditures of the general fund.

Revenues per budgetary basis	\$ 41,274,568
Add: On-behalf payments	4,048,440
Total GAAP basis	<u>\$ 45,323,008</u>
Expenditures per budgetary basis	\$ 40,273,633
Add: On-behalf basis	4,048,440
Total GAAP basis	<u>\$ 44,322,073</u>

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. The annual school budget is the planning management tool, which delineates the School District's educational priorities and programs and forms the basis for voter review and approval of the budget according to applicable State of Vermont education finance laws.
2. The Board budget process includes input from School District administration and staff, educational priorities for the next school year, along with public hearings, which include the Board of Directors and the general public.

WASHINGTON CENTRAL UNIFIED UNION SCHOOL DISTRICT

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3. The budget document itself is based upon the most current funding information available along with the projection of current revenues and expenditures for the next year. At the conclusion of the budget process, a final budget is approved by the Board of Directors.

Deposits and Investments

The School District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the School District's policy to value investments at fair value. None of the School District's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be a cash equivalent. The School District Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities
- Certificates of deposit and other evidence of deposits at banks, savings and loan associations and credit unions
- Repurchase agreements
- Money market mutual funds

The Washington Central Unified Union School District has no formal investment policy but instead follows the State of Vermont Statutes.

Receivables

Receivables include amounts due from governmental agencies and local businesses. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2025. Accounts receivable netted with allowances for uncollectible accounts were \$2,445,650 for the year ended June 30, 2025.

Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption and are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when used (consumption method). Inventory of the Food Service Fund consists of supplies and food.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated capital assets are reported at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

A right to use lease asset is required to be reported at the present value of payments expected to be made during the lease term including and any/all other required financial lease obligations in accordance with the terms of the lease and excluding interest. A lease asset will be amortized in a straight-line basis over the lease term or the useful life of the underlying asset (whichever is shorter).

Estimated useful lives are as follows:

Land and building improvements	20 - 50 years
Infrastructure	20 - 50 years
Machinery and equipment	3 - 50 years

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-term Obligations

The accounting treatment of long-term obligations depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in government-wide statements. The long-term obligations consist of bonds payable, notes from direct borrowings payable, leases, accrued compensated absences, retirement incentives and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Vermont State Teachers' Retirement System (VSTRS) and the Vermont Municipal Employees' Retirement System (VMERS) Plans and additions to/deductions from the VSTRS and VMERS Plans' fiduciary net position have been determined on the same basis as they are reported by the VSTRS and VMERS Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

OPEB

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, information about the fiduciary net position of the Vermont State Teachers' Retirement System (VSTRS) Plan and additions to/deductions from the VSTRS OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by VSTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components - nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted - This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.

Committed - This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the School District. The inhabitants of the School District through School District meetings are the highest level of decision-making authority of the School District. Commitments may be established, modified or rescinded only through a School District meeting vote.

Assigned - This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is given through Vermont Statutes Annotated Title 16 §567 and is expressed by the Board of Directors.

WASHINGTON CENTRAL UNIFIED UNION SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Unassigned - This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the School District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the School District considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the School District meeting vote has provided otherwise in its commitment or assignment actions.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District currently has one type of this item, deferred outflows related to pensions. This item is reported in the statement of net position.

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred revenues qualify for reporting in this category. This item is reported in both the statements of net position and governmental funds balance sheet. All items in this category are deferred and recognized as an inflow of resources in the period that the amounts become available.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services or privileges provided, operating or capital grants and contributions, including special assessments).

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Operating/Nonoperating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund's ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The School District does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the School District's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

Deposits:

The School District's investment policies, which follow state statutes, authorize the School District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all School District funds.

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the School District will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The School District does not have a policy covering custodial credit risk.

At June 30, 2025, the School District's cash balance of \$6,158,660 was comprised of bank deposits of \$9,498,096. Bank deposits are adjusted primarily by outstanding checks and deposits in transit to reconcile to the School District's cash balance. Due to the delay in posting the internal transfer from the general fund's repurchase agreement

account of \$2,938,750 to cover the TAN payoff to the general fund checking account, which reflected the receipt of these funds on June 30, 2025 but did not reflect the withdrawal from the general fund's repurchase agreement account until July 1, 2025, this has resulted in a large variance between the bank balance and the School District's cash balance. Of these bank deposits, \$250,000 was fully insured by federal depository insurance and consequently was not exposed to custodial credit risk, \$9,248,096 was collateralized with securities held by the financial institution in the School District's name.

<u>Account Type</u>	<u>Bank Balance</u>
Checking accounts	\$ 159,048
Repurchase agreement	9,339,048
	<u>\$ 9,498,096</u>

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the School District does not have a policy for custodial credit risk for investments.

Interest rate risk - is the risk that changes in interest rates will adversely affect the fair value of an investment. The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

At June 30, 2025, the School District had no investments.

Credit risk - Statutes for the State of Vermont authorize the School District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The School District does not have an investment policy on credit risk. Generally, the School District invests excess funds in savings accounts and various insured certificates of deposit.

VERMONT STATE TEACHERS' RETIREMENT SYSTEM

Plan Description

All of the teachers employed by the School District participate in the Vermont State Teachers' Retirement System ("VSTRS"), a cost-sharing multiple-employer defined benefit pension plan with a special funding situation, covering nearly all public day school and nonsectarian private Union teachers and administrators as well as Teachers in schools and teacher training institutions within and supported by the State of Vermont that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2023 (the most recent period available), the retirement system consisted of 25,214 participating members.

The plan was established effective July 1, 1947 and is governed by *Title 16, V.S.A. Chapter 55*. Subsequent Vermont state legislation, *Act 74*, which became effective on July 1, 2010 and updated to reflect Act 114 and Act 173, effective on July 1, 2022 and contained numerous changes to the plan benefits available to current and future members, as well as a change in access to health care coverage after retirement, resulting from a multi-party agreement to provide sustainability of quality pension and retiree health benefits for Vermont teachers.

The general administration and responsibility for formulating administrative policy and procedures of the retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of six members. They are the Secretary of Education (ex-officio), the State Treasurer (ex-officio), the Commissioner of Financial Regulation (ex-officio), two members and one alternate elected by active members of the System under rules adopted by the Board and one retired member and one alternate elected by the board of directors of Association of Retired Teachers of Vermont. The Chair is elected by the Board and acts as executive officer of the Board.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service. The Vermont State Agency of Administration issues a publicly available Annual Comprehensive Financial Report that includes financial statements and required supplementary information for the VSTRS. That report may be viewed on the State's Department of Finance and Management website at: [Annual Comprehensive Financial Report | Department of Finance and Management \(vermont.gov\)](#).

Benefits Provided

The VSTRS provides retirement and disability benefits, annual cost-of-living adjustments, health care and death benefits to plan members and beneficiaries. There are two levels of contributions and benefits in the System: Group A - for public school teachers employed within the State of Vermont prior to July 1, 1981 and elected to remain in Group A; and Group C - for public school teachers employed within the State of Vermont on or after July 1, 1990. Group C also includes those teachers hired prior to July 1, 1990 and were in Group B on July 1, 1990. When *Act 74* became effective on June 30, 2010, Group C was further bifurcated into Groups #1 and #2. Group #1 contains members who were at least 57 years of age or had at least 25 years of service and Group #2 contains members who were less than 57 years of age and had less than 25 years of service.

Benefits available to each group are based on average final compensation (AFC) and years of creditable service and are summarized below:

Contributions

VSTRS is a cost-sharing public employee retirement system with one exception: all risks and costs are not shared by the School District but are the liability of the State of Vermont. VSTRS is funded through State and employee contributions and trust fund investment earnings; and the School District has no legal obligation for paying benefits. Required contributions to the System are made by the State of Vermont based upon a valuation report prepared by the System’s actuary, which varies by plan group. The Vermont State Teachers Retirement System estimates the contributions on behalf of the School District’s employees included in the teacher’s retirement plan which approximates \$4,048,440 or 25.64% of total payroll for employees covered under the plan.

Employee contribution rates by plan group follow:

VSTRS	Group A	Group C – Group # 1	Group C – Group # 2
Employee Contributions	5.5% of earnable compensation; contributions stop after 25 years of creditable service	5.0% of gross salary	Based on earnable compensation \$0-\$40K is 6.15%, \$40K-\$50K is 6.20%, \$50K-\$60K is 6.30%, \$60K-\$70K is 6.40%, \$70K-\$80K is 6.55%, \$80K-\$90K is 6.80%, \$90K-\$100K is 7.10%, \$100K+ is 7.35%

Employee contributions totaled \$1,054,827 during the year and were paid by the School District to the State of Vermont. The School District has no other liability under the plan. The School District’s total payroll for all employees covered under this plan was \$15,789,548 for the year ended June 30, 2025. Beginning in 2016, school districts that pay for teachers with federal dollars are required to include costs of pensions in the federal grant, lowering the liability for the State. Federally funded pension costs reimbursed to the State by the Supervisory Union for the fiscal year ending June 30, 2025 were \$630,940. The Supervisory Union’s total payroll for all federally funded employees covered under this plan was \$896,128 for the year ended June 30, 2025.

VERMONT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM

Plan Description

The Vermont Municipal Employees' Retirement System (VMERS) is a cost sharing, multi-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. The plan was established effective July 1, 1975 and is governed by Title 24, V.S.A. Chapter 125. It is designed for persons employed on a regular basis by a school district or by a supervisory union for no fewer than 1,040 hours in a year and for no fewer than 30 hours a week for the school year, as defined in 16 V.S.A. § 1071 or for no fewer than 1,040 hours in a year and for no fewer than 24 hours a week year-round; provided, however, that if a person who was employed on a regular basis by a school district as either a special education or transportation employee and who was transferred to and is working in a supervisory union in the same capacity pursuant to 16 V.S.A. § 261a(a)(6) or (8)(E) and if that person is also employed on a regular basis by a school district within the supervisory union, then the person is an "employee" if these criteria are met by the combined hours worked for the supervisory union and school district. The term shall also mean persons employed on a regular basis by a municipality other than a school district for no fewer than 1,040 hours in a year and for no fewer than 24 hours per week, including persons employed in a library at least one-half of whose operating expenses are met by municipal funding. For the year ended June 30, 2023 (the most recent data available), the retirement system consisted of 18,463 participating members.

The general administration and responsibility for formulating administrative policy and procedures of the Retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system and two employer representatives - one elected by the governing bodies of participating employers of the system and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service. VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Annual Comprehensive Financial Report. Employee contributions are withheld pre-income tax by the School District and are remitted to the State of Vermont. Such withholdings for the year ended June 30, 2025 totaled \$325,888. The School District contributed \$359,260 for the year ended June 30, 2025. The School District's total payroll for the year ended June 30, 2025 for all employees covered under this plan was \$5,159,809.

Pension Liabilities

VSTRS Plan

The State is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of member employers. Therefore, these employers are considered to be in a special funding situation as defined in GASB No. 68 and the State is treated as a nonemployer to VSTRS. Since the School District does not contribute directly to VSTRS, no net pension liability was recorded at June 30, 2025. The State's portion of the collective net pension liability that was associated with the School District was as follows:

District's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the District	<u>33,756,058</u>
Total	<u><u>\$ 33,756,058</u></u>

The State of Vermont's proportionate share of the net pension liability associated with the School District is equal to the collective net pension liability, actuarially measured as of June 30, 2024, multiplied by the School District's proportionate share percentage. The School District's proportionate share percentage was based on its reported salaries to the total reported salaries for all participating employers. At June 30, 2024, the School District's proportion was 1.92547% which was an increase of 0.05518% from its proportion measured as of June 30, 2023.

VMERS Plan

At June 30, 2025, the School District reported a liability of \$2,974,416 for its proportionate share of the net pension liabilities for each plan. The net pension liabilities were measured as of June 30, 2024 and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of June 30, 2023. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2025, the School District recognized total pension expense of \$3,494,950 and revenue of \$3,494,950 for support provided by the State of Vermont for the VSTRS plan. In the same period, the School District recognized pension expense of \$502,607 for the VMERS plan. At June 30, 2025, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Significant Actuarial Assumptions and Methods

The total pension liability for the June 30, 2024 measurement date was determined by an actuarial valuation as of June 30, 2023 rolled forward to June 30, 2024 using the actuarial assumptions outlined below.

Investment Rate of Return: For both plans, 7.00%, net of pension plan investment expenses, including inflation.

Inflation: For both plans, 2.30%.

Projected Salary Increases: For the VSTRS plan, increases ranging from 3.30% to 10.50%. For the VMERS plan, varying service-based rates ranging from 4.07% to 6.21%. Salary increases include an assumed inflation rate of 2.30%.

Deaths After Retirement:

The VSTRS plan's mortality rates were based on historical and current demographic data, adjusted to reflect health characteristics of the underlying groups and estimated future experience and professional judgment. The mortality tables were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

- *Retiree Healthy Post-Retirement:* : PubT-2010 Teacher Healthy Retiree Amount-Weighted Table, with credibility adjustments of 103% and 93% for the Male and Female tables, respectively, with generational projection using scale MP-2021.

Inactive Members: For both plans, valuation liability equals 100% of accumulated contributions. Valuation liability for those who are vested is based on accrued benefit and members are assumed to retire 10% of the time each year from their Early Retirement Age until their Normal Retirement Age, then 100% of the time at their Normal Retirement age, with a deferred vested benefit.

Future Administrative Expenses: No provisions were made for the VSTRS plan as Systems expenses are paid for by the State. For the VMERS plan, an expense adjustment based on actual expenses for the previous year is reflected in the development of recommended employer contribution levels.

Unknown Data for Participants: For both plans, they are the same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Percent Married: For both plans, 85% of male members are assumed to be married. 35% of female members for the VSTRS plan and 50% of female members for the VMERS plan are assumed to be married.

Spouse's Age: For both plans, husbands are assumed to be three years older than their wives.

Cost-of-Living Adjustments VSTRS:

For active Group C members who are first eligible for normal retirement on or after July 1, 2022:

- Assumed to occur on January 1 following two years of retirement at the rate of 1.20% per annum (beginning two years after the attainment of age 62 for members who elect reduced early retirement). The January 1, 2025, COLA is expected to be 1.90%*. The January 1, 2024, COLA was 1.10%.

*This amount was required to be calculated in 2023 as a result of Act 114 and Act 173; however, it will not be applied to any members in 2023.

For all other members:

- Group A - Assumed to occur on January 1 following one year of retirement at the rate of 1.20% per annum. The January 1, 2023, COLA was 1.35%. The January 1, 2025, COLA is expected to be 3.80%*. The January 1, 2024, COLA was 2.20%.
- Group B/C - Assumed to occur on January 1 following one year of retirement at the rate of 1.35% per annum (beginning one year after the attainment of age 62 or Group C members who elect reduced early retirement). The January 1, 2025, COLA is expected to be 1.90%*. The January 1, 2024, COLA was 1.10%.

Cost-of-Living Adjustments VMERS:

Assumed to occur on January 1 following one year of retirement at the rate of 1.10% per annum for Group A members and 1.20% per annum for Groups B, C and D members (beginning at Normal Retirement eligibility age for members who elect reduced early retirement, at age 62 for members of Groups A, B and D who receive a disability retirement benefit and at age 55 for members of Group C who receive a disability retirement benefit). The January 1, 2025, COLA is expected to be 1.90% for Group A and 1.90% for Groups B, C and D. The January 1, 2024, COLA was 1.10% for Group A and 1.10% for Groups B, C and D.

Amortization Method: Amortization payments calculated to fully fund unfunded actuarial accrued liability with annual increases of 3% over a closed period. The amortization of unfunded actuarial accrued liability (UAAL) within the actuarially determined contribution rate calculation is based on the level percentage of pay required to amortize the UAAL over the 30-year closed period that began on July 1, 2008. As of July 1, 2023, the remaining amortization period is 15 years.

Actuarial Cost Method: For both plans is the Entry Age Actuarial Cost Method. Entry age is the age at date of employment or, if date is unknown, current age minus years of service. Normal Cost and Accrued Actuarial Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined using the plan of benefits applicable to each participant.

Asset Valuation Method VSTRS: The *asset valuation method* used equals the preliminary asset value plus 20% of the difference between the market and preliminary asset values. The preliminary asset value is equal to the previous year's asset value (for valuation purposes) adjusted for contributions less benefit payments and expenses and

expected investment income. If necessary, a further adjustment is made to ensure that the valuation assets are within 20% of the market value.

Asset Valuation Method VMERS: The amount of the assets for valuation purposes equals the preliminary asset value plus 20% of the difference between market and preliminary asset values. The preliminary asset value is equal to the previous year's asset value (for valuation purposes) adjusted for contributions less benefit payments and expenses plus expected investment income. If necessary, a further adjustment is made to ensure that the valuation assets are within 20% of the market value.

The *long-term expected rate of return* on both plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) developed for each major asset class. These best estimate ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of June 30, 2024 are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equities	44.00%	5.35%
Private Equity	10.00%	7.50%
Emerging Markets Debt	2.00%	5.00%
Private and Alternative Credit	10.00%	5.50%
Non-Core Real Estate	4.00%	5.50%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% for the VSTRS plan and the VMERS plan. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments to current System members. The assumed discount rate has been determined in accordance with the method prescribed by GASB 68.

NOTE 17 - DEFINED CONTRIBUTION PLAN

Plan Description

The School District offers its employees a defined contribution plan created in accordance with Internal Revenue Code Section 403(b). At June 30, 2025, there were 51 plan members. The plan is administered by TD Wealth Management.

Funding Policy

Plan provisions and contribution requirements are established and may be amended by the Board of Directors. Under the 403 Plan, the School District is required to contribute 6.25% of a participant's earnings for the plan year, with no required match from the participant, one time per year, after the end of the fiscal year and no later than September 30, of the next year. For the year ended June 30, 2025, the School District contribution to this plan was \$88,927.

Employees are immediately vested in their own contributions and earnings on those contributions and become vested in School District contributions and earnings on School District contributions after completion of 12 months of creditable service with the School District. Non-vested School District contributions are forfeited upon termination of employment. Such forfeitures are used to cover a portion of the pension plan's administrative expenses. There were no forfeitures of non-vested contributions for the year ended June 30, 2025.

NOTE 18 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN

VERMONT STATE TEACHERS' RETIREMENT SYSTEM

Plan Description

The Vermont State Teachers' Retirement System provides postemployment benefits to eligible VSTRS employees who retire from the System through a cost-sharing, multiple-employer postemployment benefit (OPEB) plan (the Plan).

The plan covers nearly all public day school and nonsectarian private high school teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2023, the Plan consisted of 7,369 retired members or beneficiaries currently receiving benefits and 10,618 active members.

Vermont Statute Title 16 Chapter 55 assigns the authority to VSTRS to establish and amend the benefits provisions of the Plan and to establish maximum obligations of

the Plan members to contribute to the Plan. Management of the Plan is vested in the Vermont State Teachers' Retirement System Board of Trustees, which consists of the Secretary of Education (ex-officio), the State Treasurer (ex-officio), the Commissioner of Financial Regulation (ex-officio), two trustees and one alternate who are members of the system (each elected by the system under rules adopted by the Board) and one trustee and one alternate who are retired members of the system receiving retirement benefits (who are elected by the Association of Retired Teachers of Vermont).

All assets of the Plan are held in a single trust and are available to pay OPEB benefits to all members. The Vermont State Agency of Administration issues a publicly available Annual Comprehensive Financial Report that includes financial statements and required supplementary information for the VSTRS. That report may be viewed on the State's Department of Finance and Management website at: [Annual Comprehensive Financial Report | Department of Finance and Management \(vermont.gov\)](http://www.vermont.gov/finance/annual-comprehensive-financial-report).

Benefits Provided

VSTRS retirees and their spouses are eligible for medical, prescription drug and dental benefits on a lifetime basis if the retiree is eligible for pension benefits, as described in the Notes to Financial Statements for Defined Benefit Plan(s).

Contributions

Varying levels of contributions are required from retirees and spouses for medical and prescription drug coverage at the following premium subsidy rates:

	Retiree Subsidy		Spouse Subsidy*	
Retired before June 30, 2010	At least ten years of service - 80% of premium Less than ten years of service - 0% of premium		0% of premium

			30 or more years	5 additional years from June 30, 2010

* Spouses of retirees who do not meet the requirements for an 80% subsidy can receive unsubsidized coverage

Premium Reduction Option: Participants retiring on or after January 1, 2007 with a VSTRS premium subsidy have a one-time option to reduce the VSTRS subsidy percentage during the retiree's life so that a surviving spouse may continue to receive the same VSTRS subsidy for the spouse's lifetime. If the retiree elects the joint and survivor pension option but not the Premium Reduction Option, spouses are covered for the spouse's lifetime but pay 100% of the plan premium after the retiree's death.

Retirees pay full cost of dental benefits.

OPEB Liabilities

The State is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of member employers. Therefore, these employers are considered to be in a special funding situation as defined in GASB No. 75 and the State is treated as a nonemployer to VSTRS. Since the School District does not contribute directly to VSTRS, no net OPEB liability was recorded at June 30, 2025. The State's portion of the collective net OPEB liability that was associated with the School District was as follows:

The State of Vermont's proportionate share of the net OPEB liability associated with the School District is equal to the collective net OPEB liability, actuarially measured as of June 30, 2024, multiplied by the School District's proportionate share percentage. The School District's proportionate share percentage was based on its reported salaries to the total reported salaries for all participating employers. At June 30, 2024, the School District's proportion was 1.88543% which was an increase of 0.05848% from its proportion measured as of June 30, 2023.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2025, the School District recognized total OPEB expense of \$1,239,845 and revenue of \$1,239,845 for support provided by the State of Vermont for the Plan. NOTE 18 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Discount Rate

The discount rate is the single rate of return, that when applied to all projected benefit payments, results in an actuarial present value that is the sum of the actuarial present value of projected benefit payments projected to be funded by plan assets using a long term rate of return and the actuarial present value of projected benefit payments that are not included in (1) using a yield or index rate for 20 year tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The sensitivity of net OPEB liability to changes in discount rate are as follows:

	1% Decrease	Discount Rate	1% Increase
VSTRS OPEB Plan: Discount rate	6.00%	7.00%	8.00%
District's proportionate share of the net OPEB liability	\$ -	\$ -	\$ -

Healthcare Trend Rate

Health care trend measures the anticipated overall rate at which health plan costs are expected to increase in future years. The trend rate assumptions were developed using Segal's internal guidelines, which are established each year using data sources such as the 2024 Segal Health Trend Survey, internal client results, trends from other published surveys prepared by the S&P Dow Jones Indices, consulting firms and brokers and CPI statistics published by the Bureau of Labor Statistics. The sensitivity of net OPEB liability to changes in healthcare trend rates are as follows:

	1% Decrease	Healthcare Trend Rates	1% Increase
District's proportionate share of the net OPEB liability	\$ -	\$ -	\$ -

Actuarial Methods and Assumptions

The total OPEB liability for the Plan was determined by an actuarial valuation as of June 30, 2024, using the following methods and assumptions applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal Actuarial Cost Method is used to determine costs. Under this funding method, a normal cost rate is determined as a level percent of pay for each

NOTE 18 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

active Plan member and then summed to produce the total normal cost for this Plan. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

Amortization

The total OPEB liability of this Plan is amortized on a closed 30-year period. The amortization method is a level percent of payroll method. As of July 1, 2024, there are 24 years remaining on the amortization period.

Asset Valuation Method

The Asset Valuation Method used is market value as of the measurement date.

The long-term expected rates of return on OPEB plan investments are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation, long-term expected rates of return for each major asset class and expected inflation, as of June 30, 2024, are summarized below:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equity	43.00%	5.25%
US Aggregate Fixed Income	19.00%	1.70%
Emerging Markets Debt (Hard)	2.00%	4.70%

Assumptions

The actuarial assumptions used to calculate the actuarially determined contribution rates can be found in the Report on the Actuarial Valuation of Post-Retirement Benefits of the Vermont State Teachers' Retirement System Prepared as of June 30, 2016 completed by Buck Consulting. Changes in Net OPEB Liability

Changes in net OPEB liability are recognized in OPEB expense for the year ended June 30, 2024 with the following exceptions:

Changes in Assumptions

Differences due to changes in assumptions about future economic, demographic or claim and expense factors or other inputs are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The amortization period remaining was twenty-four years as of July 1, 2024.

financial statements of VSTRS or their participating employers. That report can be viewed on the State's Department of Finance and Management website at: [Annual Comprehensive Financial Report | Department of Finance and Management \(vermont.gov\)](#).

NOTE 19 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees, students and guests; as well as natural disasters for which the School District either carries commercial insurance, participates in a public entity risk pool or is effectively self-insured. There have been no significant reductions in coverage from the prior year. Management believes such coverage is sufficient to preclude any significant uninsured losses to the School District.

The School District is a member of the Vermont School Boards Association. The Association has set up two insurance Trusts: Vermont School Boards Insurance Trust, Inc. (VSBIT) for worker compensation, multi-line intermunicipal school program and unemployment compensation program and the Vermont Education Health Initiative (VEHI) for medical benefits. VSBIT and VEHI are nonprofit corporations formed to provide insurance and risk management programs for Vermont School Districts and is owned by the participating School Districts. The Trusts are not licensed insurance carriers and members are not protected by the Vermont Insurance Guaranty Association.

To provide insurance coverage, VEHI has established a self-funded fully insured program in conjunction with Blue Cross and Blue Shield (BCBS). A portion of member contributions is used to purchase reinsurance and to fund a reserve required by the reinsurance. Contributions in excess of claims requirements, reserve fund requirements, reinsurance and administrative costs are returned to participants. The pooling agreement does not permit the pool to make additional assessments to its members.

Multi-Line Intermunicipal School Program provides coverage for property; inland marine and boiler and machinery; crime; commercial general liability; automobile/garagekeepers and educators legal liability. Annual contributions are based upon appropriate rates applicable to each member; such rates are set based on recommendations of a qualified actuary, plus a proportionate share of all operational and administrative cost including excess reinsurance premiums incurred by the trust. In the event that total contributions assessed to and made by all members result in an actual or projected financial deficit and VSBIT is unable to meet its required obligations, the program will be terminated with each member assessed their proportionate share of the deficit.

NOTE 20 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the School District's financial position.

The School District participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the School District's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 21 - RESTATEMENT

In 2025, the School District determined that certain transactions in prior years had been recorded incorrectly, therefore, a restatement to the 2025 beginning business-type activities net position was required. During fiscal year 2025, the School District determined a restatement of beginning net position to the food service fund was required, this is due to fixed asset additions being both capitalized and expensed. This resulted in a restatement to the beginning net position for business-type activities, as follows:

WASHINGTON CENTRAL UNIFIED UNION SCHOOL DISTRICT

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2025

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Washington Central Unified Union School District under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Washington Central Unified Union School District, it is not intended to and does not present the financial position, changes in net position or cash flows of the Washington Central Unified Union School District.

2. Summary of Significant Accounting Policies

- a. Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- b. The U.S. Department of Education (USED) has delegated to the State of Vermont Agency of Education the authority to issue indirect cost rates to all Local Education Agencies (LEAs) based on a plan approved by the USED. Therefore, the Washington Central Unified Union School District does not use the 10% de minimus indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Washington Central Unified Union School District
Montpelier, Vermont

We have audited, in accordance with generally accepted auditing standards in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Washington Central Unified Union School District as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the Washington Central Unified Union School District's basic financial statements and have issued our report thereon dated December 24, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Washington Central Unified Union School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Washington Central Unified Union School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Washington Central Unified Union School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Tel: (800) 300-7708 (207) 929-4606 Fax: (207) 929-4609
www.rhrsmith.com

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Washington Central Unified Union School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. We noted certain other matters that we reported to the management of the Washington Central Unified Union School District in a separate letter dated December 24, 2025.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors
Washington Central Unified Union School District
Montpelier, Vermont

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Washington Central Unified Union School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Example Entity's major federal programs for the year ended June 30, 2025. The Washington Central Unified Union School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Washington Central Unified Union School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Washington Central Unified Union School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Washington Central Unified Union School District's compliance with the compliance requirements referred to above.

3 Old Orchard Road, Buxton, Maine 04093
Tel: (800) 300-7708 (207) 929-4606 Fax: (207) 929-4609
www.rhrsmith.com

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Washington Central Unified Union School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Washington Central Unified Union School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Washington Central Unified Union School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards* and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Washington Central Unified Union School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Washington Central Unified Union School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Washington Central Unified Union School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
