

Tulsa Public Schools 2022-2027 Strategic Plan: Guardrail Monitoring Report

Guardrail 1: The superintendent will not cause or allow conditions, practices, or procedures that are inequitable for students.

Overall Guardrail Status: On Track

Interim Guardrail 1.3: The percentage of transitional grade students (5th and 8th graders) who participate in the school choice process will increase from 60% in February 2022 to 75% in February 2027.

Interim Guardrail Status: Approaching

Information about this interim

Metric information

School choice refers to family opportunity to choose a school within the district. This might mean a neighborhood school or another district school with a special offering that creates the best fit. School choice applications enable students to apply to different schools within the district. This is especially common in transitional grades as students move from elementary to middle or middle to high school.

This metric measures the percentage of students within transitional grades who submit school choice applications in the primary January/February window.

Why it matters

We want to be a district that provides families with quality school choice options. Historically, school choice has been accessed and used inequitably by a comparatively small percentage of our families. Our goal is to design a school system that provides all students and families an opportunity to select the school(s) they most want to attend.

Breakdowns of school choice participation rates

Ethnicity	2022		2023		2024		2025	
	%	denom	%	denom	%	denom	%	denom
